Gifts And Commodities Exchange And Western Capitalism Since 17:

Women and Gift Exchange in Eighteenth-Century Fiction Linda Zionkowski, 2016-05-26 This book analyzes why the most influential novelists of the long eighteenth century centered their narratives on the theory and practice of gift exchange Throughout this period fundamental shifts in economic theories regarding the sources of individual and national wealth along with transformations in the practices of personal and institutional charity profoundly altered cultural understandings of the gift's rationale purpose and function Drawing on materials such as sermons conduct books works of political philosophy and tracts on social reform Zionkowski challenges the idea that capitalist discourse was the dominant influence on the development of prose fiction Instead by shifting attention to the gift system as it was imagined and enacted in the formative years of the novel the volume offers an innovative understanding of how the economy of obligation shaped writers' portrayals of class and gender identity property and community Through theoretically informed readings of Richardson's *Clarissa* and Sir Charles Grandison Burney's *Cecilia* and *The Wanderer* and Austen's *Mansfield Park* and *Emma* the book foregrounds the issues of donation reciprocity indebtedness and gratitude as it investigates the conflicts between the market and moral economies and analyzes women's position at the center of these conflicts As this study reveals the exchanges that eighteenth century fiction prescribed for women confirm the continuing power and importance of gift transactions in the midst of an increasingly commercial culture The volume will be essential reading for scholars of the eighteenth century novel economic literary criticism women and gender studies and book history

Displaced Persons: Conditions of Exile in European Culture Sharon Ouditt, 2017-03-02 This lively and intellectually vigorous conspectus of studies approaches the subject of exile from a variety of disciplinary perspectives The contributions to this volume give due attention to the twentieth century migratory phenomena theorised by Edward Said Julia Kristeva and Salman Rushdie They also show that the discourse and experience of exile is not the stuff of modernity alone The volume illustrates that the waning of the Middle Ages Reformation and Restoration politics and the importation of Egyptian mummies into a nineteenth century England hungry for imperial exotica

reveal displacement dislocation otherness and the uncanniness of observing strangers on display to have long been part of European cultural currency The essays range across a variety of disciplines literary studies modern languages history of science philosophy and museum studies *Reciprocity in Human Societies* Antti Kujala,Mirkka Danielsbacka,2018-08-03 Presenting new insights into reciprocity this book combines Marcel Mauss's well known gift theory with Barrington Moore's idea of mutual obligations linking rulers and the ruled Teasing out the interrelatedness of these approaches *Reciprocity in Human Societies* suggests that evolutionary psychology reveals a human tendency for reciprocity and collaboration not only in a mutually cooperative way but also through increasing retributive moral emotions The book discusses various historical societies and the different models of the current welfare state Nordic social democratic conservative and liberal and the repercussions of the neoliberal policies of tax havens tax cuts and austerity with a cross disciplinary approach that bridges evolutionary psychology sociology and social anthropology with history *Paul and the Gift* John M. G. Barclay,2017-09-11 John Barclay explores Pauline theology anew from the perspective of grace Arguing that Paul's theology of grace is best approached in light of ancient notions of gift Barclay describes Paul's relationship to Judaism in a fresh way Barclay focuses on divine gift giving which for Paul he says is focused and fulfilled in the gift of Christ He both offers a new appraisal of Paul's theology of the Christ event as gift as it comes to expression in Galatians and Romans and presents a nuanced and detailed consideration of the history of reception of Paul including Augustine Luther Calvin and Barth *The Work and the Gift* Scott Cutler Shershow,2005-06-15 Considers how in a wide range of western culture and thought the ideas of working and giving remain locked in a fatal dilemma each one representing the other's aspirations and absolute limit Ranging from Marx and Derrida to Friedrich Hayek and Alvin Toffler Scott Cutler Shershow here explores the predictions of political thinkers on both the left and the right that work is fundamentally changing or even disappearing the debates among anthropologists and historians about an archaic gift economy that preceded capitalism and might reemerge in its wake contemporary political battles over charity and social welfare and attempts by modern and postmodern artists to destabilize the work of art as we know it BOOKJACKET *Art, Anthropology and the Gift* Roger Sansi,2020-05-18 In recent decades the dialogue between art and anthropology has been both intense and controversial *Art Anthropology and the Gift* provides a much needed and comprehensive overview of this dialogue whilst also exploring the reciprocal nature of the two subjects through practice theory and politics Fully engaging with anthropology and art theory this book innovatively argues that art and anthropology don't just share methodologies but also deeper intellectual theoretical and even political concerns inviting scholars and students alike to look at this contentious relationship in a more critical light One of the central arguments of the book is that the problem of the gift has been central to both anthropological and artistic practice This very idea connects the different chapters on topics including aesthetics politics participation and fieldwork *Liquidated* Karen Ho,2009-07-13 An ethnography of Wall Street investment bankers and the cultural logics of finance *Development Brokers and Translators*

David Lewis, David Mosse, 2006 Includes essays by some of today's leading anthropologists working in development studies. Furthers the goals of both poverty reduction and ethnographic research by detailing their contributions to and reliance on each other. Provides a practical and theoretical resource for development agencies, policy makers, and students wishing to access a variety of case studies and new analytical approaches. The success of any international development agency depends on an understanding of the ways in which a community and individuals relate to ideas and resources. David Lewis and David Mosse have brought together a number of anthropologists engaged in development research to show how ethnography can be an indispensable tool for understanding these complex and dynamic relationships. The world that this ethnography of development reveals does not divide neatly into the developers and the developed, perpetrators and victims, domination and resistance, or the incompatible rationalities of scientific and indigenous knowledge. It is a world in which interests and practices are always hybrids where the realms of reason and the real world are not neatly separate and in which rational policy representations frequently conceal the messiness of practice that precedes the ideas and technologies of development. The wealth of new ideas offered in this collection will be especially valuable to graduate students in anthropology and development studies but also to undergraduates and those working in development organizations who wish to run more effective operations on every level. Other contributors: Tim Bending, Bina Desai, Amity Doolittle, Pierre Yves Le Meur, Peter Luetchford, Wiebe Nauta, Sergio Rosendo, Benedetta Rossi, Oscar Salemink, and Celayne Heaton. Shrestha **Savage Money** Chris A. Gregory, 1997 The deeper philosophical meaning of value is examined in this thought-provoking study of the household values that are associated with agricultural land, rural marketing, village money lending, and the use of diverse forms of money in Central India. Gregory, anthropology, Australian National U. Uses a comparative approach based on extensive field work in Central India to analyze the values that spring from reciprocally recognized relations of affinity, consanguinity, and contiguity and to contemplate how these relate to western notions of money and value. The Savage Money of free market capitalism. This is a second printing of a 1997 book. c. Book News Inc. **Assetization** Kean Birch, Fabian Muniesa, 2020-07-14 How the asset—anything that can be controlled, traded, and capitalized as a revenue stream—has become the primary basis of technoscientific capitalism. In this book, scholars from a range of disciplines argue that the asset—meaning anything that can be controlled, traded, and capitalized as a revenue stream—has become the primary basis of technoscientific capitalism. An asset can be an object or an experience, a sum of money or a life form, a patent or a bodily function. A process of assetization prevails, imposing investment and return as the key rationale and overtaking commodification and its speculative logic. Although assets can be bought and sold, the point is to get a durable economic rent from them rather than make a killing on the market. *Russian Energy Chains* Margarita M. Balmaceda, 2021-05-11 Russia's use of its vast energy resources for leverage against post-Soviet states such as Ukraine is widely recognized as a threat. Yet we cannot understand this danger without also understanding the opportunity that Russian energy represents. From corruption-related profits to

transportation fee income to subsidized prices many within these states have benefited by participating in Russian energy exports To understand Russian energy power in the region it is necessary to look at the entire value chain including production processing transportation and marketing and at the full spectrum of domestic and external actors involved from Gazprom to regional oligarchs to European Union regulators This book follows Russia's three largest fossil fuel exports natural gas oil and coal from production in Siberia through transportation via Ukraine to final use in Germany in order to understand the tension between energy as threat and as opportunity Margarita M Balmaceda reveals how this dynamic has been a key driver of political development in post Soviet states in the period between independence in 1991 and Russia's annexation of Crimea in 2014 She analyzes how the physical characteristics of different types of energy by shaping how they can be transported distributed and even stolen affect how each is used not only technically but also politically Both a geopolitical travelogue of the journey of three fossil fuels across continents and an incisive analysis of technology's role in fossil fuel politics and economics this book offers new ways of thinking about energy in Eurasia and beyond

The Cambridge History of Ireland: Volume 2, 1550-1730 Jane Ohlmeyer, Thomas Bartlett, 2018-04-26 This volume offers fresh perspectives on the political military religious social cultural intellectual economic and environmental history of early modern Ireland and situates these discussions in global and comparative contexts The opening chapters focus on Politics and Religion and War and offer a chronological narrative informed by the re interpretation of new archives The remaining chapters are more thematic with chapters on Society Culture and Economy and Environment and often respond to wider methodologies and historiographical debates Interdisciplinary cross pollination between on the one hand history and on the other disciplines like anthropology archaeology geography computer science literature and gender and environmental studies informs many of the chapters The volume offers a range of new departures by a generation of scholars who explain in a refreshing and accessible manner how and why people acted as they did in the transformative and tumultuous years between 1550 and 1730

The Return of the Gift Harry Liebersohn, 2010-12-06 This book is a history of European interpretations of the gift from the mid seventeenth to the early twentieth century Reciprocal gift exchange pervasive in traditional European society disappeared from the discourse of nineteenth century social theory only to return as a major theme in twentieth century anthropology sociology history philosophy and literary studies Modern anthropologists encountered gift exchange in Oceania and the Pacific Northwest and returned the idea to European social thought Marcel Mauss synthesized their insights with his own readings from remote times and places in his famous 1925 essay on the gift the starting point for subsequent discussion The Return of the Gift demonstrates how European intellectual history can gain fresh significance from global contexts

Charity and Lay Piety in Reformation London, 1500-1620 Claire S. Schen, 2017-03-02 The degree to which the English Protestant Reformation was a reflection of genuine popular piety as opposed to a political necessity imposed by the country's rulers has been a source of lively historical debate in recent years Whilst numerous arguments and documentary

sources have been marshalled to explain how this most fundamental restructuring of English society came about most historians have tended to divide the sixteenth century into pre and post Reformation halves reinforcing the inclination to view the Reformation as a watershed between two intellectually and culturally opposed periods In contrast this study takes a longer and more integrated approach Through the prism of charity and lay piety as expressed in the wills and testaments taken from selected London parishes it charts the shifting religious ideas about salvation and the nature and causes of poverty in early modern London and England across a hundred and twenty year period Studying the evolution of lay piety through the long stretch of the period 1500 to 1620 Claire Schen unites pre Reformation England with that which followed helping us understand how Reformations or a Long Reformation happened in London Through the close study of wills and testaments she offers a convincing cultural and social history of sixteenth century Londoners and their responses to religious innovations and changing community policy

Anthropological Explorations in Queer Theory Mark Graham, 2016-04-15

Anthropological Explorations in Queer Theory offers a wide ranging fusion of queer theory with anthropological theory shifting away from the discussion of gender categories and identities that have often constituted a central concern of queer theory and instead exploring the queer elements of contexts in which they are not normally apparent Engaging with a number of apparently non sexual topics including embodiment and fieldwork regimes of value gifts and commodities diversity discourses biological essentialisms intersectionality the philosophy of Bergson and Deleuze and the representation of heterosexuality in popular culture this book moves to discuss central concerns of contemporary anthropology drawing on both the latest anthropological research as well as classic theories In broadening the field of queer anthropology and opening queer theory to a number of new themes both empirical and theoretical *Anthropological Explorations in Queer Theory* will appeal not only to anthropologists and queer theorists but also to geographers and sociologists concerned with questions of ontology materiality and gender and sexuality
