Mike's World Asa McKercher, Galen Roger Perras, 2017-10-06 Although fifty years have passed since Lester Pearson stepped down as prime minister he still influences debates about Canada's role in the world Known as Mike to his friends he

has been credited with charting a Pearsonian course in which Canada took on a global role as a helpful fixer seeking to mediate disputes and promote international cooperation Mike's World explores the myths surrounding Pearsonianism to explain why he remains such a touchstone for understanding Canadian foreign policy Leading and emerging scholars dig deeply into Pearson's diplomatic and political career especially during the 1960s and his time as prime minister Topics range from peacekeeping and Arctic sovereignty to environmental diplomacy and human rights policy They show that competing forces of idealism and pragmatism were key drivers of Pearsonian foreign policy and how global events often influenced politics and society within Canada itself Situating Pearson within his times and as a lens through which to analyze Canadians' views of global affairs this nuanced collection wrestles with the contradictions of Pearson and Pearsonianism and ultimately with the resulting myths surrounding Canada's role in the world Mapping Women, Making Politics Lynn

Staeheli, Eleonore Kofman, Linda Peake, 2013-03-07 *Mapping Women Making Politics* demonstrates the multiple ways in which gender influences political processes and the politics of space The book begins by addressing feminism's theoretical and conceptual challenges to traditional political geography and then applies these perspectives to a range of settings and topics including nationalism migration development international relations elections social movements governance and the environment in the Global North and South *Gendered News* Elizabeth Goodyear-Grant, 2013-09-06 In the last fifty years many of the institutional and societal barriers that kept Canadian women from public office have disappeared Today women are well educated and well connected and enjoy generally equal treatment from political parties and voters Why then do they hold only a quarter of the seats in the House of Commons a proportion that rose by just seven percentage points between 1993 and 2011 In this illuminating study Elizabeth Goodyear Grant examines a significant obstacle still facing women in political life gendered media coverage News stories are more likely to investigate the personal lives of female politicians or question their aptitude for public life implicitly suggesting that women in politics are marginal or even unwelcome Based on interviews with MPs and party leaders and an analysis of print and television media in the 2000 and 2006 federal elections *Gendered News* reveals an unsettling climate that affects the success of women in office and could deter them from running at all

Sharing Power Manon Tremblay, 2017-03-02 The representation of women in parliament is a subject of extensive research and a focus for political action in the last decade The wide variation in women's parliamentary presence contradicts the expectation that established or consolidated democracies are more supportive of the presence of women in political life than emerging democracies This volume explains this variation through a series of closely investigated case studies from the post Communist transition democracies of Eastern Europe and emerging democracies in Asia and the Middle East to the long established liberal democratic states The volume examines the history of women's legislative involvement clearly addressing the issue of equal opportunities for women in political life on a cross national basis It also identifies innovative solutions to redress the power sharing balance between women and men Offering a unique comparative perspective *Sharing Power* will

appeal to students and scholars of politics women s studies history and legislative studies *Women, Power, Politics* Sylvia B. Bashevkin, 2009 Women s participation in politics matters very much Yet in Canada women MPs have been stuck at a level of roughly one fifth since 1993 and Stephen Harper has fewer women in his government than did Brian Mulroney Although we may believe women are making progress their representation in politics seems decidedly stalled So it comes as no surprise that we hear little about issues of particular interest to women breast cancer violence against women or the poverty of single mothers In this engaging no nonsense and witty book Sylvia Bashevkin argues that Canadians have a profound unease with women in positions of political authority what she calls the women plus power equals discomfort equation She explores the specific reasons why this discomfort is particularly severe in Canada Bashevkin also evaluates a range of barriers faced by women who enter politics including the media s role in assessing the leadership styles personal appearances and private lives of female politicians In clear accessible terms Bashevkin explains concepts such as gender schemas and media framing in terms of key examples such as Belinda Stronach and Hillary Clinton Finally Bashevkin outlines some compelling solutions to address the stalemate facing women in Canadian politics
