Giorgio De Chirico:

De Chirico. Ediz. inglese Magdalena Holzhey, 2005 Greek born Italian painter Giorgio De Chirico 1888 1978 was hugely influential in the early years of the Surrealist movement His paintings during the teens in Paris where he moved in 1911 caused such a stir that such important figures as Picasso and Paul Eluard immediately praised them This phase of his work which he later termed *pittura metafisica* metaphysical painting was marked by dramatic compositions involving sharp perspective striking shadows geometrical planes voids of space and a general feeling of anxiety and loneliness the sense of absurdity evoked by the mannequin like figures in almost nightmarish landscapes seemed to suggest a Freudian expression of the unconscious After 1930 De Chirico turned to a more classical style of painting and continued in the same vein for the rest of his career his later work was widely criticized especially by the Surrealists who had so admired his early paintings

De Chirico Giorgio De Chirico, 1996 Giorgio de Chirico 1888 1978 is widely regarded as one of the masters of 20th century art The originator of Metaphysical Painting and precursor of the Surrealists de Chirico was born in Volos Greece studied at the Academy of Fine Arts in Munich and was initially influenced by Bocklin and Klinger However he soon developed his own distinctive style producing the first of his enigmatic paintings in Italy around 1910 De Chirico's early works evoked an uneasy atmosphere through their use of strange perspectives illogical shadows and open spaces and he developed a theory of metaphysical insight which located familiar objects in essentially mysterious relationships In de Chirico's oeuvre a naturalistic vision always alternates like waking and sleeping or dreaming with another vision presenting abnormal forms and situations If de Chirico's first period of Metaphysical painting between 1910 and 1918 remains his most celebrated and has provided us with some of his most memorable images it is also true that his later Metaphysical period was also a time of intense creativity and evocative art making But this period is his least well known De Chirico moved on from his baroque and romantic paintings of the Forties and Fifties works which diminished his standing among a number of art critics to a new Metaphysical period which related strongly to the rich early phase of his work This book is a celebration of that period in de Chirico's career and evaluates not only his paintings but also the mythic and symbolic sculptures produced at this time De Chirico The New Metaphysics is an essential resource for any reader interested in appreciating de Chirico's unique contribution to 20th century art
