Girard Reader

James Alison, Wolfgang Palaver

Girard Reader:

The Girard Reader René Girard, 1996 René Girard the author of groundbreaking scholarly books such as *Violence and the Sacred* and *Things Hidden Since the Foundation of the World* has long been an intellectual cause celebre in Europe. Although he has studied and taught in the United States since the 1940s, he is now in his 70s, finding his lifework praised and taught in academic and religious circles throughout the country. *The Girard Reader* brings that work to a broader audience. It includes major excerpts from Girard's books and articles which cover all aspects of his theories on violence, religion, and culture. These views cut across theology, biblical studies, anthropology, psychology, and literature. The book concludes with a conversation between René Girard and editor James G. Williams that brings new focus to his Christian vision and breathtaking oeuvre.

René Girard's Mimetic Theory Wolfgang Palaver, 2013-01-01 A systematic introduction into the mimetic theory of the French American literary theorist and philosophical anthropologist René Girard, this essential text explains its three main pillars: mimetic desire, the scapegoat mechanism, and the Biblical difference, with the help of examples from literature and philosophy. This book also offers an overview of René Girard's life and work, showing how much mimetic theory results from existential and spiritual insights into one's own mimetic entanglements. Furthermore, it examines the broader implications of Girard's theories from the mimetic aspect of sovereignty and wars to the relationship between the scapegoat mechanism and the question of capital punishment. Mimetic theory is placed within the context of current cultural and political debates like the relationship between religion and modernity, terrorism, the death penalty, and gender issues. Drawing textual examples from European literature (Cervantes, Shakespeare, Goethe, Kleist, Stendhal, Storm, Flaubert, Dostoevsky, Proust) and philosophy (Plato, Camus, Sartre, Levinas, Strauss, Derrida, Vattimo), Palaver uses mimetic theory to explore the themes they present. A highly accessible book, this text is complemented by bibliographical references to Girard's widespread work and secondary literature on mimetic theory and its applications, comprising a valuable bibliographical archive that provides the reader with an overview of the development and discussion of mimetic theory until the present day. **Girardians** James G.

Williams, 2012 This book documents the story of the Colloquium on Violence, Religion, and Culture (COVR) founded at Stanford University in 1990. COVR brings together international scholars and educators in various fields who are dedicated to the exploration, criticism, and development of René Girard's mimetic model of the relationship between violence and religion in the genesis and maintenance of culture. Girard's work has generated a diversity of interdisciplinary research programs. The book recounts the history of COVR's meetings and the research of its members and friends that have had a special role in the adventure of ideas flowing from Girard's mimetic theory. *Series: Beiträge zur mimetischen Theorie: Religion, Gewalt, Kommunikation, Weltordnung*, Vol. 32. About Face Elena Bellina, Lindsay Eufusia, Paola Ugolini, 2009-10-02 How do we represent ourselves and the cultures we live in? Is it possible to trace any boundaries between reality and self-representation? Because the self-represented is the product of a process of selection and choice, in many ways to represent the self is often

simultaneously to create the self and negate the self What then becomes of the self once it is represented Because the process of self representation cumulates in a tangible result and given that any representation of the self is necessarily a construct which aims to render visible or knowable in concrete form the unseen and unknown self representation is vulnerable to assessments of its naturalness or artificiality its honesty or deceit Many issues affect the author or artist s self representation both as process and form the medium through which the self will be represented the motivation for representing oneself and the role of the audience to name only a few relevant factors This book explores the multifaceted nature of self representation in relation to culture from the Middle Ages through the Renaissance up to contemporary Italian American and Australian culture with reference to concepts and questions connected to literature poetry philosophy theology history ethnicity studies gender studies and visual arts

Girard's Doubt: Mohammad Sadegh Najjarzadeha, Die Mehrheit der Forschung zu Girards Theorien wie mimetisches Begehren interne und externe Vermittlung und Erwerbsrivalität geht im Allgemeinen davon aus dass Girard den Sündenbockmechanismus als eine Art Segen oder gesegnete Gewalt ansieht die in den andauernden Erwerbsrivalitäten ent wurzelt werden könnte und den Fluss der Gewalt behindert Diese Studien sind nicht irrend da Girard seine Theorien in Verbindung mit der Literatur in seinem Meisterwerk Deceit Desire and the Novel aufgegriffen erklärt und erprobt hat Jedoch glaube ich dass diese Studien eine wesentliche Änderung in Girards Theorie bersehen haben die ich als einen nachträglichen Einfall in seiner Studie über den Sündenbockmechanismus bezeichnen würde Girard modifiziert seine Theorie stillschweigend indem er Zweifel an der konstruktiven Funktion jedes Opfers nach der Kreuzigung Jesu Christi aufkommen lässt sei es erzwungen oder freiwillig Dieser Anflug von Unglücklichkeit hinsichtlich der Wirksamkeit des Sündenbockmechanismus wird sogar noch durch den Schweizer Theologen Raymund Schwager in seinem Hauptwerk Muss es Sündenböcke geben unterstellt Ich wage es diesen gleichen Hauch von Unglücklichkeit Girards Zweifel zu nennen und beabsichtige diesen in ausgewählten Werken der Appalachenliteratur aus den 1920er bis 1970er Jahren zu untersuchen Diese Studie untersucht die Effizienz des Sündenbockmechanismus in sechs Romanen von drei Autoren aus dem amerikanischen Süden William Faulkner Flannery O'Connor und Cormac McCarthy Die Arbeit beginnt mit einer Einführung in die Geographie Geschichte und Literatur des Südens Darauf folgt ein Überblick über Girards Ideologie und Methoden Im ersten Kapitel konzentriere ich mich auf die Beziehung zwischen dem Sündenbockmechanismus in Form von Opfermord und Afroamerikanern indem ich Faulkners The Sound and the Fury und Sanctuary untersuche Im zweiten Kapitel analysiere ich O Connors Wise Blood und The Violent Bear It Away um zu untersuchen ob die Vorstellung von gewalttätiger Gnade oder soteriologischem Opfer notwendigerweise zu Glückseligkeit führen würde Für das letzte Kapitel habe ich McCarthys Outer Dark und Child of God ausgewählt um den biblischen strafrechtlichen Sündenbockmechanismus zu untersuchen der von der Gesellschaft entwickelt wurde um den Fluss der Gewalt zu kontrollieren The prevailing scholarship on Ren Girard's theories such as mimetic desire internal and external mediation and acquisitive rivalry largely interprets his concept of the scapegoat

mechanism as a kind of redemptive or sanctified violence capable of curbing the perpetuation of conflict While these interpretations are not entirely misplaced given that Girard originally presented and tested these ideas within the framework of Western literature in his seminal work *Deceit Desire and the Novel* they tend to overlook a crucial revision in Girard's thought I propose that what I call Girard's afterthought subtly revises his earlier theory by casting doubt on the constructive function of any form of sacrifice be it coerced or voluntary following the Crucifixion of Jesus Christ This nuance is further reinforced by Swiss theologian Raymund Schwager who accentuates this tinge of incredulity regarding the efficacy of the scapegoat mechanism in *Must There Be Scapegoats* Thus I venture to label this skepticism as Girard's Doubt and aim to explore its presence in selected Appalachian literature from the 1920s to the 1970s This study scrutinizes the effectiveness of the scapegoat mechanism in six novels by three prominent Southern American authors William Faulkner Flannery O'Connor and Cormac McCarthy It opens with an overview of the American South's geography history and literary tradition followed by a detailed exposition of Girard's ideological framework and methodology In the first chapter I examine the role of the scapegoat mechanism particularly in the form of sacrificial lynching and its relationship to African Americans in Faulkner's *The Sound and the Fury* and *Sanctuary* The second chapter delves into O'Connor's *Wise Blood* and *The Violent Bear It Away* to determine whether the notion of violent grace or sacrificial salvation invariably leads to spiritual fulfillment The final chapter focuses on McCarthy's *Outer Dark* and *Child of God* exploring the civic penal scapegoat mechanism employed by society as a means of controlling violence Sadegh Najjarzadeha completed his doctoral dissertation in English Literature with a specialized focus on American Studies at Göttingen University Germany His scholarly work applies René Girard's philosophical framework to the analysis of 20th century Southern U.S. literature culminating in the coining of the term Girard's Doubt a profound examination of the limitations of sacrifice in breaking the cycle of violence His master's thesis titled *The New Idol of Postmodern America* critically engages with the rise of consumerism drawing on Zygmunt Bauman's theories to interrogate postmodern American novels

Noah's Curse Stephen R. Haynes, 2002-03-28 In *Noah's Curse* Stephen Haynes explores the historical context of slavery The author identifies the manner in which the great and good interpreted the story in Genesis to provide free labour and a scriptural justification for the Black Holocaust

Violence, Hospitality, and the Cross Hans Boersma, 2006-04 Offers a new model for understanding the atonement sensitive to both the Christian tradition and its postmodern critics

Resisting Violence and Victimisation Joel Hodge, 2016-03-23 The reality and nature of religious faith raises difficult questions for the modern world questions that re-present themselves when faith has grown under the most challenging circumstances In East Timor widespread Christian faith emerged when suffering and violence were inflicted on the people by the state This book seeks a deeper understanding of faith and violence exploring how Christian faith and solidarity affected the hope and resistance of the East Timorese under Indonesian occupation in their response to state sanctioned violence Joel Hodge argues for an understanding of Christian faith as a relational phenomenon

that provides personal and collective tools to resist violence Grounded in the work of mimetic theorist Ren Girard Hodge contends that the experience of victimisation in East Timor led to an important identification with Jesus Christ as self giving victim and formed a distinctive communal and ecclesial solidarity The Catholic Church opened spaces of resistance and communion that allowed the Timorese to imagine and live beyond the violence and death perpetrated by the Indonesian regime Presenting the East Timorese stories under occupation and Girard s insights in dialogue this book offers fresh perspectives on the Christian Church s ecclesiology and mission

Violence, Desire, and the Sacred, Volume 1 Scott Cowdell,Chris Fleming,Joel Hodge,2012-08-16 Violence Desire and the Sacred presents the most up to date inter disciplinary work being developed with the ground breaking insights of Ren Girard s mimetic theory The collection showcases the work of outstanding scholars in mimetic theory and how they are applying and developing Girard s insights in a variety of fields Girard s mimetic insight has provided a fruitful way for different disciplines such as literature anthropology theology religion studies cultural studies and philosophy to engage on common anthropological ground with a shared understanding of the human person The aim of this edited collection is to present this interdisciplinary work and to illustrate how Girard s insights provide fertile ground for bringing together disparate disciplines in a shared purpose As academic work on Girard s insights is growing this collection would meet the need to show the critical interdisciplinary applications of these insights

Violence, Desire, and the Sacred Scott Cowdell,Chris Fleming,Joel Hodge,2012-08-16 Showcases the application of Ren Girard s mimetic theory across a range of disciplines including philosophy religious studies literature and cultural studies

Questioning the Human Lieven Boeve,Yves De Maeseneer,Ellen Van Stichel,2014-08-15 Theological anthropology is being put to the test in the face of contemporary developments in the spheres of culture politics and science traditional perspectives on the human person are no longer adequate Yet can theological anthropology move beyond its previously established categories and renew itself in relation to contemporary insights The present collection of essays sets out to answer this question Uniting Roman Catholic theologians from across the globe it tackles from a theological perspective challenges related to the classical natural law tradition part 1 to the modern conception of the subject part 2 and to the postmodern awareness of diversity in a globalizing context part 3 Its contributors share a fundamental methodological choice of a critical constructive dialogue with contemporary culture science and philosophy This collection integrates a wider range of approaches than one usually finds in theological volumes bringing together experts in systematic theology and in theological ethics Authors come from different American contexts including Black and Latino and from a European context that include both French and German Moreover the interdisciplinary insights upon which the different contributions draw stem from both the natural sciences such as neuroscience evolutionary biology and ethology and the humanities such as cultural studies philosophy and hermeneutics This volume will be essential reading for anyone seeking a state of the art account of theological anthropology of the uncertainties it is facing and of the responses it is in the process of formulating

The shared Roman Catholic background of the authors of this collection makes this volume a helpful complement to recent publications that predominantly represent views from other theological traditions The Wood Between the Worlds Brian Zahnd, 2024-02-06 The cross is the heart of Scripture the axis upon which the biblical story turns In our ongoing quest to make meaning of the cross Brian Zahnd helps us see that there are infinite ways to behold the cross of Christ as the beautiful form that saves the world Accept the invitation to encounter the cross of Christ anew **Who's watching? big data and applied ethics in the digital age Adrian Walsh, Sandy Boucher, 2022-07-12 Who's watching Surveillance big data and applied ethics in the digital age critically examines the ethical use of surveillance data through the lens of large institutions including corporations or government agencies particularly including the collection and use of big data sets

Justice Matters Kyungsig Samuel Lee, Danjuma G. Gibson, 2022-09-29 The nine chapters in this book along with a critical introduction address complex theological issues relating to structural inequalities of our society exacerbated by the experience of the COVID 19 pandemic Pastoral theology as an academic discipline is not a value free enterprise This book strives to speak against all forms of injustice and to advocate for those who suffer under existing structural inequalities because such a liberative and social transformative task constitutes the fundamental work of pastoral theology Each chapter in this book analyses how private problems of individuals are occurring within the immediate world of experience with public issues historically socially and politically As a whole this book addresses racial injustice ableism foster family care and issues faced by Christian churches during the COVID 19 pandemic The chapters in this book were originally published as a special issue of the Journal of Pastoral Theology **Conversion and the Rehabilitation of the Penal System** Andrew

Skotnicki, 2019-03-01 In this book Andrew Skotnicki argues that the criminal justice system can only be rehabilitated by eliminating punishment and policies based upon deterrence rehabilitation and the incapacitation of the urban poor and returning to the original justification for the practice of confinement conversion *The Palgrave Handbook of Mimetic*

Theory and Religion James Alison, Wolfgang Palaver, 2017-10-19 The Palgrave Handbook of Mimetic Theory and Religion draws on the expertise of leading scholars and thinkers to explore the violent origins of culture the meaning of ritual and the conjunction of theology and anthropology as well as secularization science and terrorism Authors assess the contributions of Ren Girard's mimetic theory to our understanding of sacrifice ancient tragedy and post modernity and apply its insights to religious cinema and the global economy This handbook serves as introduction and guide to a theory of religion and human behavior that has established itself as fertile terrain for scholarly research and intellectual reflection **Religion and**

Violence Dominic Arcamone, 2015-08-17 The aim of Religion and Violence is to engage dialectically key symbols of religiously motivated violence through the insights of Bernard Lonergan Sociologists and psychologists argue the link between religion and violence Religion is viewed more as part of the problem and not part of the solution to violence Bernard Lonergan's insights have helped the author arrive at a number of conclusions regarding the link between religion and

violence He argues that there is a difference between distorted religion and genuine religion between authenticity and inauthenticity of the subject Distorted religion has the capacity to shape traditions in ways that justify violence while genuine religion helps persons make different moral decisions when confronted with situations of conflict and aims to explore new ways of understanding themselves as shaping history toward progress Further Religion and Violence while arguing from within the Catholic Christian tradition nevertheless seeks to provide a number of categories that will speak to people from other cultural traditions Since many of the examples of religious violence cited by commentators come out of the Islamic tradition the author has evidenced and explored more authentic aspects of the Islamic tradition that would help provide a solution to violence

The New Catholic Feminism Tina Beattie, 2004-06-01 It is hard to over estimate the challenge that feminism poses to Roman Catholicism Pope John Paul II's call for a new feminism has led to the development of a Catholic theological response to the so called old feminism The New Catholic Feminism sets up a dramatic encounter between the orthodox Catholic establishment and contemporary critical theory including feminist theology and philosophy queer theory and French psycholinguistics in order to explore fundamental questions about human identity personhood and gender From the naked bodies of Eden to the gay nuptials of liturgy it argues that the strange and volatile world of Catholic sexual symbolism cannot be tamed to meet the ideological agendas of either feminist theology or conservative Catholicism Only through a radical re evaluation of the sacramental significance of the sexed human body might the Catholic Church provide a redemptive response to the sexual politics of contemporary society

Desire, Gift, and Recognition Jan-Olav Henriksen, 2009-02-15 A major work in the philosophy of religion this book interprets the Jesus story in terms of postmodern philosophy particularly using Jacques Derrida's categories of desire gift and recognition Author Jan Olav Henriksen also attempts to reformulate Christology without resorting to such metaphysical concepts as substance transcendence etc While not denying traditional doctrines Henriksen explicates the meaning of Jesus life and death in ways that engage contemporary philosophy and challenge contemporary academic Christians to rethink the basics of their faith and he outlines the possibility of a post metaphysical Christology Henriksen's book is a clearly reasoned guide not only to the

argument that Christology still has something to say to contemporary believers but also to ways in which theologians must learn to reconnect to everyday human experience
