Oral Culture and Catholicism in Early Modern England Alison Shell, 2007-12-13 After the Reformation England's Catholics were marginalised and excluded from using printed media for propagandist ends Instead they turned to oral media such as ballads and stories to plead their case and maintain contact with their community Building on the growing interest in Catholic literature which has developed in early modern studies Alison Shell examines the relationship between Catholicism and oral culture from the mid sixteenth to the eighteenth centuries In order to recover the textual traces of this minority culture she expands canonical boundaries looking at anecdotes spells and popular verse alongside more conventionally literary material In her archival research she uncovers many important manuscript sources This book is an important contribution to the rediscovery of the writings and culture of the Catholic community and will be of great interest to scholars of early modern literature history and theology

Representing the Other in Modern Japanese Literature Rachael Hutchinson,Mark Williams,2006-09-27 Representing the Other in Modern Japanese Literature looks at the ways in which authors writing in Japanese in the twentieth century constructed a division between the Self and the Other in their work Drawing on methodology from Foucault and Lacan the clearly presented essays seek to show how Japanese writers have responded to the central question of what it means to be Japanese and of how best to define their identity Taking geographical racial and ethnic identity as a starting point to explore Japan s vision of non Japan representations of the Other are examined in terms of the experiences of Japanese authors abroad and in the imaginary lands envisioned by authors in Japan Using a diverse cross section of writers and texts as case studies this edited volume brings together contributions from a number of leading international experts in the field and is written at an accessible level making it essential reading for those working in Japanese studies colonialism identity studies and nationalism
