Revealing Lives Susan Groag Bell, Marilyn Yalom, 1990-10-18 In this book gender is the lens through which autobiography and biography are scrutinized The authors show what is revealed when they magnify the gendered aspects of both men s and women s writing The eternal questions of identity choice responsibility happiness tragedy and even death are interpreted in terms of gender analysis The book presents a sequence of studies from the early nineteenth to the late twentieth century that includes individuals such as American poet Anne Sexton and German writers Christa Wolf and Paul Celan and groups such as nineteenth century Mexican women and members of the British working class It extends the paradigm of self reflexive literature to include and highlight the overlap between autobiography and biography especially in the case of women who often wrote their lives obliquely through the biographies of their famous male relatives e g Ad le Hugo and Anne Thackeray Ritchie The authors refuse to accept a monolithic conception of gender The studies of Charles and Mary Lamb Nadezhda Durova and John Stuart Mill demonstrate that even in the nineteenth century a binary gender system is inadequate as a mode of approach to actual life stories

The Practice of War Aparna Rao, Michael Bollig, Monika Böck, 2008-03-01 The fact is that war comes in many guises and its effects continue to be felt long after peace is proclaimed This challenges the anthropologists who write of war as participant observers Participant observation inevitably deals with the here and now with the highly specific It is only over the long view that one can begin to see the commonalities that emerge from the different forms of conflict and can begin to generalize From the Introduction More needs to be understood about the ways of war and its effects What implications does war have for people their lived in communities and larger political systems how do they cope and adjust in war situations and how do they deal with the changed world that they inhabit once peace is declared

Through a series of essays that move from looking at the nature of violence to the peace processes that follow it this important book provides some answers to these questions It also analyzes those new dimensions of social interaction such as the internet which now provide a bridge between local concerns and global networks and are fundamentally altering the practices of war

[The Language of Silence](#) Ernestine Schlant,2004-11-23 Focusing on individual authors from Heinrich Boll to Gunther Grass Hermann Lenz to Peter Schneider The Language of Silence offers an analysis of West German literature as it tries to come to terms with the Holocaust and its impact on postwar West German society Exploring postwar literature as the barometer of Germany s unconsciously held values as well as of its professed conscience Ernestine Schlant demonstrates that the confrontation with the Holocaust has shifted over the decades from repression circumvention and omission to an open acknowledgement of the crimes Yet even today a language of silence remains since the victims and their suffering are still overlooked and ignored Learned and exacting Schlant s study makes an important contribution to our understanding of postwar German culture
