

# The Ghost in the Lagoon

An illustration of a young boy with dark hair, wearing a red jacket over a green shirt, floating in a lagoon. He has a surprised or scared expression on his face. Several brown, tentacle-like appendages are reaching out from the water around him. The background is a light blue sky with soft, white clouds. The overall style is painterly and somewhat whimsical.

**Haunts of the White City: Ghost Stories from the World's Fair, the Great Fire and Victorian Chicago** Ursula Bielski, 2019 At the close of the nineteenth century Chicago offered the world a glimpse of humanity's most breathtaking possibilities and its most jaw-dropping horrors. Even as the White City emerged from the ashes of the Great Fire, serial killers like H. H. Holmes stalked the sparkling new boulevards and tragic accidents plagued the factories, slums, and railroads that powered the churn of industrial innovation. Demons, mesmerists, and birds of ill omen preyed on the unwary from the shadows. Ship captains spoke to the dead while undertakers discovered reanimated corpses no longer requiring services. From posh mansions built on massacre grounds to the drowned quarries of a forest preserve, Ursula Bielski follows the dark undercurrents beneath the electric lights of the World's Fair.

**International Law of Underwater Cultural Heritage** Kim Browne, Murray Raff, 2023-01-01 This book brings together three distinct areas of International Law: namely Environmental Heritage and Ocean Law, to address the international legal protection of historically significant wrecks, with particular focus on the environmental hazards they may pose. The confluence of Heritage Law and the Law of the Sea with International Environmental Law represents an important development in international governance strategies for the twenty-first century, in particular those legal and administrative regimes that concern the world's oceans and underwater cultural heritage protection. Importantly, connections between international legal regimes such as the 1982 Law of the Sea and institutions like the International Maritime Organisation (IMO) and United Nations Educational Scientific and Cultural Organisation (UNESCO) can play a crucial part in governance strategies that involve the regulation of marine pollution and historic shipwrecks.
