 psychology and sociology Alien Experience Maura Tumulty,2020 If I were a better human being that person s voice  
 wouldn t sound so shrill to me Many of us may have had such thoughts They give voice to the worrying intuition that if we  
 were less affected by sexism and racism or better at keeping our tempers our fellow humans would look and sound  
 differently to us In Alien Experience Maura Tumulty argues that we should take this sense of unease seriously It is as

philosophically significant as our unease over desires or fears that we disown Making sense of this unease requires us to re think the relation between experiences and standing commitments to re consider what we mean by self control and to attend to empirical questions about perception attention and tacit cognition In taking up these issues Alien Experience illuminates and questions a significant assumption that underlies debates in the philosophy of mind moral psychology and ethics While we may be answerable morally ethically legally for our attitudes and emotions we are not answerable in any interesting way for our perceptions and sensations Tumulty argues that this assumption leads to a flattened view of the ways experiences are related to agency Recognizing that we can be alienated from our experiences helps us appreciate distinctive opportunities for self improvement
