Reif, 2020-07-27 This book uses comparative law and comparative international law approaches to explore the role of human rights ombuds classic based ombuds and other types of ombuds institutions in human rights protection and

promotion their methods of application of international and domestic human rights law and their roles in strengthening good governance It highlights the increasing importance of national human rights ombuds institutions globally and their roles as national human rights institutions NHRIs Chapters address ombuds institutions as mechanisms to strengthen democratic horizontal and vertical accountability the rule of law and good governance national human rights ombuds institutions as NHRIs the investigatory litigation promotional and other powers of human rights and classic based ombuds and their methods for applying international and domestic human rights law ombuds institutions and the protection and promotion of international children s rights national human rights ombuds additional mandates as OPCAT national preventive mechanisms UN Convention on the Rights of Persons with Disabilities Article 33 2 framework mechanisms and EU national equality bodies human rights ombuds and business and human rights ombuds institutions gender and women s rights the European Ombudsman and human rights national human rights ombuds and other ombuds models by region accompanied by case studies on national human rights ombuds and the legal and extra legal factors affecting ombuds institutional effectiveness

**Good Governance** Henk Addink, 2019-04-25 This book explores the creation development and impact of the concept of good governance It argues that alongside the ideas of the rule of law and democracy good governance acts as a third conceptual cornerstone of the modern state Good governance can be viewed as a multilevel concept influenced by regional and international legal developments while being grounded in national administrative law The book presents six principles of good governance properness transparency participation effectiveness accountability and human rights The development of each of these principles on the national level is explored in a wide range of European contexts and in Australia Canada and South Africa As well as offering a fully up to date and comprehensive overview of administrative law in different jurisdictions the book compares the implementation of the principles of good governance taking into account international and European administrative law developments

**Institutional Learning and Knowledge Transfer Across Epistemic Communities** Elias G. Carayannis, Ali Pirzadeh, Denisa Popescu, 2011-11-25 Over the past several decades as the pace of globalization has accelerated operational issues of international coordination have often been overlooked For example the global financial crisis that began in 2007 is attributed in part to a lack of regulatory oversight As a result supranational organizations such as the G 20 the World Bank and the International Monetary Fund have prioritized strengthening of the international financial architecture and providing opportunities for dialogue on national policies international co operation and international financial institutions Prevailing characteristics of the global economic systems such as the increasing power of financial institutions changes in the structure of global production decline in the authority of nation states over their national economy and creation of global institutional setting e g global governance have created the conditions for a naturally evolving process towards enabling national epistemic communities to create institutions that comply with global rules and regulations can control crises In this context transfer of technical knowledge from the larger organizations and its global epistemic

communities to member communities is becoming a policy tool to convince participants in the international system to have similar ideas about which rules will govern their mutual participation In the realm of finance and banking regulation the primary focus is on transfer of specialized and procedural knowledge in technical domains such as accounting procedures payment systems and corporate governance principles thereby promoting institutional learning at national and local levels In this volume the authors provide in depth analysis of initiatives to demonstrate how this type of knowledge generated at the international organization level is codified into global standards and disseminated to members particularly in the developing world where the legal and regulatory infrastructure is often lacking They argue that despite the challenges when a country intends to join the global system its institutions and economic structures need to move toward the global norms In so doing they shed new light on the dynamics of knowledge transfer financial regulation economic development with particular respect to supporting global standards and avoiding future crises

**Development Centre Seminars Waging the Global War on Poverty Strategies and Case Studies** OECD Development Centre, 2000-01-26 Eradicating poverty has long been one of the priorities of development co operation Yet despite undoubted progress towards this goal the strategies adopted at the international and national levels remain controversial Poverty reduction is a

**Constitution-Making under UN Auspices** Vijayashri Sripati, 2020-01-16 In 1949 United Nations Constitutional Assistance UNCA was conceived to promote the Western liberal constitution This was colonial trusteeship However in 1960 as a step towards decolonization the United Nations General Assembly rejected internationalized constitution making and by extension UNCA All colonies acquired the right to draft their own constitutions without any international assistance Nonetheless in the same year UNCA was revived and since then it has helped over 40 developing sovereign states to adopt the Western liberal constitution for the aims of building peace preventing conflict and promoting good governance in these independent states This book scrutinizes UNCA and its off shoot UN International Territorial Administration ITA including their historical origins and revival from 1960 to 2019 Sripati argues that although the United Nations UN uses UNCA to help developing sovereign states secure debt relief it undertakes UNCA to modernize them with a view to strengthen their supposedly weakened sovereignty By doing so the UN is seeking these states adoption of a Western liberal style constitution thus violating their right to self determination The book shows how UNCA sires and guides UN legislative assistance in all state sectors security judicial electoral commercial parliamentary public administration and criminal Irrespective of UNCA s benevolent motivations such intrusive interventions impose the old forms of domination and perpetuate global inequality

**Governing Failure** Jacqueline Best, 2014-01-09 Jacqueline Best argues that the 1990s changes in IMF World Bank and donor policies towards what some have called the Post Washington Consensus were driven by an erosion of expert authority and an increasing preoccupation with policy failure Failures such as the Asian financial crisis and the decades of despair in sub Saharan Africa led these institutions to develop governance strategies designed to avoid failure fostering country ownership developing global standards managing risk and

vulnerability and measuring results In contrast to the structural adjustment era when policymakers were confident in their solutions this is an era of provisional governance in which key actors are aware of the possibility of failure even as they seek to inoculate themselves against it Best considers the implications of this shift asking if it is a positive change and whether it is sustainable This title is available as Open Access on Cambridge Books Online and via Knowledge Unlatched *IMF and the Asian Financial Crisis* Peter G. Zhang, 1998 The International Monetary Fund IMF needs little introduction Its visible and contentious involvement in the regional crisis have attracted inordinate media attention both good and bad On one end of the scale it has been portrayed as an institutionalized financial messiah whose mere presence is able to resurrect emaciated economies and restore the public's confidence However at the same time it is also regarded by others as a Western dominated financial bludgeon whose measures are aimed to break open developing economies for foreign pickings It is not difficult to find that such disparate and extreme opinions are however underscored by a common want of understanding of the primary aims and functions of the IMF Despite the IMF's prominence and its crucial participation in resuscitating these ailing Asian economies its exact functions and operations remains an enigma to many As such it is difficult to be either critical or truly appreciative of its recent efforts This book provides a quick overview of the institution over half a greater emphasis on its more current role in Asia Furthermore with the relentless trend towards a more integrated and developed global economy the IMF relevance in this respect will not doubt be accentuated This institution's increasing visibility in world economic and social affairs will make knowledge about the organization and its activities an indispensable asset notwithstanding the current regional crisis [eGovernment Whole-of-Government Approach for Good Governance](#) Said Azelmad, 2024-09-17 The book embarks on the transformative reforms in Public Administration at the nexus of digital innovation and governance paradigms in Morocco The book addresses the new paradigms of eGovernment which transcends traditional boundaries of public administration offering a meticulous blend of theoretical depth and practical insights through its sophisticated methodological approach The book investigates eGovernment Whole of Government Approaches WGA efficiency in back office transactions G2G for promoting good governance ethics through its theoretical underpinnings and practical applications It offers new insights into the evolving nature of governance in the digital administration The study is a comprehensive analysis of eGovernment 2.0 and its theoretical foundations practical implementations and potential impacts on collaborative governance The book unveils the veiled potential of eGovernment WGA utilities in fostering networked governance practices It is beneficial for policymakers researchers IT professionals and practitioners interested in understanding eGovernment 2.0 networked governance approaches reached so far It offers insights into theoretical aspects practical applications and future implications making it a must read manuscript to understand the complexities of networked governance in the era of eGovernment 2.0 The book is beneficial in the way it designs a roadmap To evaluate the effectiveness of IT systems across public and private sectors facilitated by its comprehensive measurement and methodology

To study the eGovernment Whole of Government Approach aimed at enhancing Good Governance within back office transactions G2G To measure the efficiency of all the integrated IT systems in public and private sectors vis vis good governance ethics To assess the forthcoming stage of eGovernment 3.0 in the era of AI This book is a groundbreaking reference for researchers and decision makers to navigate the development of eGovernment 3.0 new approaches in governance and management transformation within its de jure and de facto realities In fact it is an essential reference for policymakers researchers and practitioners looking to understand and navigate the evolving landscape of eGovernment networked governance to shape a future where collaborative management is mandatory for mutual development and prosperity across all agencies sectors and countries

**Netherlands Yearbook of International Law - 2003** Niels M. Blokker, N. J. Schrijver, 2011-01-07 Two major factors brought about the establishment of the Netherlands Yearbook of International Law in 1970 demand for the publication of national practice in international law and the desirability for legal practitioners state representatives and international lawyers to have access to the growing amount of available data in the form of articles notes etc The Documentation section contains an extensive review of Dutch state practice from the parliamentary year prior to publication an account of developments relating to treaties and other international agreements to which the Netherlands is a party summaries of Netherlands judicial decisions involving questions of public international law many not published elsewhere lists of Dutch publications in the field and extracts from relevant municipal legislation Although the NYIL has a distinctive national character it is published in English and the editors do not adhere to any geographical limitations when deciding upon the inclusion of articles
