Good Muslim, Bad Muslim Mahmood Mamdani, 2005-06-21 In this brilliant look at the rise of political Islam the distinguished political scientist and anthropologist Mahmood Mamdani brings his expertise and insight to bear on a question many Americans have been asking since 9 11 how did this happen Mamdani dispels the idea of good secular westernized and bad premodern fanatical Muslims pointing out that these judgments refer to political rather than cultural or religious identities The presumption that there are good Muslims readily available to be split off from bad Muslims masks a failure to make a political analysis of our times This book argues that political Islam emerged as the result of a modern encounter with Western power and that the terrorist movement at the center of Islamist politics is an even more recent phenomenon one that followed America's embrace of proxy war after its defeat in Vietnam Mamdani writes with great insight about the Reagan years showing America's embrace of the highly ideological politics of good against evil Identifying militant nationalist governments as Soviet proxies in countries such as Nicaragua and Afghanistan the Reagan administration readily backed terrorist movements hailing them as the moral equivalents of America's Founding Fathers The era of proxy wars has come to an end with the invasion of Iraq And there as in Vietnam America will need to recognize that it is not fighting terrorism but nationalism a battle that cannot be won by occupation *Good Muslim Bad Muslim* is a provocative and important book that will profoundly change our understanding both of Islamist politics and the way America is perceived in the world today

Latino and Muslim in America Harold D. Morales, 2018-02-01 *Latino and Muslim in America* examines how so called minority groups are made fragmented and struggle for recognition The U S is poised to become the first nation whose collective minorities outnumber the dominant population and Latinos play no small role in this world changing demographic shift Even as many people view Latinos and Muslims as growing threats Latino Muslims celebrate their intersecting identities in their daily lives and in their mediated representations In this book Harold D Morales follows the lives of several Latino Muslim leaders from the 1970 s to the present tracing their efforts to organize and unify nationally in order to solidify the new identity group's place within the public sphere Drawing on four years of media analysis ethnographic and historical research Morales demonstrates that Latinos embrace Islam within historically specific contexts that include distinctive immigration patterns and new laws urban spaces and media technologies that have increasingly brought Latinos and Muslims into contact He positions this growing community as part of the mass exodus out of the Catholic Church the growth of Islam and the digitization of religion Latino

Richards,Iraj Omidvar,2014-02-10 Offering readers an engaging accessible and balanced account of the contributions of American Muslims to the contemporary United States this important book serves to clarify misrepresentations and misunderstandings regarding Muslim Americans and Islam Unfortunately American mass media representations of Muslims whether in news or entertainment are typically negative and one dimensional As a result Muslims are frequently viewed negatively by those with minimal knowledge of Islam in America This accessible two volume work will help readers to construct an accurate framework for understanding the presence and depictions of Muslims in American society These volumes discuss a uniquely broad array of key topics in American popular culture including jihad and jihadis the hejab veil and burka Islamophobia Oriental despots Arabs Muslims in the media and mosque burnings Muslims and American Popular Culture offers more than 40 chapters that serve to debunk the overwhelmingly negative associations of Islam in American popular culture and illustrate the tremendous contributions of Muslims to the United States across an extended historical period *Theatre on Terror* Ariane de Waal,2017-05-08 In a moment of intense uncertainty surrounding the means ends and limits of countering terrorism this study approaches the recent theatres of war through theatrical stagings of terror Theatre on Terror Subject Positions in British Drama charts the terrain of contemporary subjectivities both at home and on the front line Beyond examining the construction and contestation of subject positions in domestic and sub urban settings the book follows border crossing figures to the shifting battlefields in Iraq and Afghanistan What emerges through the analysis of twenty one plays is not a dichotomy but a dialectics of home and front where fluid uncontainable subjects are constantly pushing the contours of conflict Revising the critical consensus that post 9 11 drama primarily engages with the real Ariane de Waal argues that these plays navigate the complexities of the discourse rather than the historical or social realities of war and terrorism British theatre on terror negotiates inflects and participates in the

Islamophobia in Higher Education Shafiqah Ahmadi, Darnell Cole, 2023-07-03 While Islamophobia was present in our society before 9 11 it has become more pervasive in recent years This is evidenced by the current social and political climate hate speech and hate crimes directed at Muslims and the Supreme Court's upholding of Presidential Proclamation 645 that effectively bans Muslim immigration from coming to the U S What does this mean for Muslim students in college and indeed for institutions of higher education as they navigate law and policy on the one hand and adhere to their mission of achieving inclusive and equitable educational environments on the other Two thirds of Muslims in the U S are vexed with current policy and there has been an alarming increase in reports of bigotry and discrimination against them since the 2016 presidential elections The fear of Islam in general and Muslims specifically not only compels non Muslims to differentially treat Muslims but also trade some of their own civil rights and civil liberties under the guise of national security To address these issues institutions require a nuanced understanding of laws and policies that institutionalize Islamophobia and a greater understanding of the diverse college students that identify as Muslim This book fills what has been a dearth of research that explores the experiences and navigation of Muslim students in colleges and universities and addresses the even less studied domain of the experiences of Muslim students who hold multiple marginalized identities such as race ethnicity and LGBTQ status as well as the intersection of those identities that may create multiple burdens of oppression and discrimination This book begins by critically engaging with how current laws and policies institutionalize Islamophobia and affect the intersectionality and diversity within the Muslim community It includes multidisciplinary voices such as an international human rights attorney a civil rights attorney a criminal law attorney student affairs practitioners and research faculty whose work on this marginalized student population is traditionally not recognized within academic settings and brings the voices of female Muslim scholars to the fore Each chapter includes a critical analysis of the literature a legal analysis when appropriate a set of recommendations for policy and practice and discussion questions

Accumulation by Segregation Ghazala Jamil, 2017-08-09 This work explores the processes of creation and articulation of social identities of Muslims in Delhi Mapping the landscape of discrimination in Delhi's neighbourhoods Jamil tries to see how such fractured geographies are created We come across people whose sense of belonging to each other is complex and subject to forces such as regional and class identities instead of an ubiquitous Muslimness Segregation in an urban space is produced as Jamil argues not only by communal conflict and threat of violence but also maintained and strengthened by processes of capitalist globalization Through case studies of five localities which present a historical continuity in the narrative of Delhi's Muslims the book presents compelling evidence of market and governance processes that aid accumulation by segregation It offers an against

the grain reading of quotidian practices of residents within such boundaries such that a counternarrative of resistance and hope may emerge one that may allow for re imagining alternatives

New Approaches to Islam in Film Kristian Petersen, 2021-04-26 Many global film industries fail in expanding the role of Muslims on screen Too often they produce a dichotomy between good and bad Muslims limiting the narrative domain to issues of national security war and terrorism Naturally much of the previous scholarship on Muslims in film focused on stereotypes and the politics of representation This collection of essays from an international panel of contributors significantly expands the boundaries of discussion around Muslims in film asking new questions of the archive and magnifying analyses of particular cultural productions The volume includes the exploration of regional cinemas detailed analysis of auteurs and individual films comparison across global cinema and new explorations that have not yet entered the conversation The interdisciplinary collection provides an examination of the multiple roles Islam plays in film and the various ways Muslims are depicted Across the chapters key intersecting themes arise that push the limits of how we currently approach issues of Muslims in cinema and ventures to lead us in new directions for future scholarship This book adds new depth to the matrix of previous scholarship by revisiting methodological structures and sources as well as exploring new visual geographies transnational circuits and approaches It reframes the presiding scholarly conventions in five novel trajectories considering new sources exploring new communities probing new perspectives charting new theoretical
