reflected upon **International Perspectives on Elder Abuse** Amanda Phelan, 2013 Elder abuse has been increasingly recognised over the past ten years in many countries and progress has been made in both understanding and addressing the issue This volume provides a much needed international overview of the topic Opening with an examination of what elder abuse is Amanda Phelan sets it in a theoretical context and looks at assessment and approaches to the issue in residential and community care environments The book then presents a range of country studies which provide an overview of the context of elder abuse in the country and a discussion of related policy legislation research and practice Countries covered include Ireland United Kingdom Spain China Australia Kenya Israel Canada and the United States whilst a regional chapter looks at South America A concluding chapter draws together cross cultural comparisons and provides some guidance as to best practice The only comprehensive book in this area *International Perspectives on Elder Abuse* is an invaluable reference for practitioners academics and researchers from a range of disciplines including nursing social work sociology public health and social policy *Safeguarding Adults Online* Emma Bond, Andy Phippen, 2022-07 This volume fills an overlooked gap in adult safeguarding the digital arena in providing a comprehensive and accessible analysis of best practice in safeguarding vulnerable adults online *Social Work and Dementia* David Moore, Kirsty Jones, 2012-08-22 A complete guide to understanding dementia in social work *Safeguarding Adults and the Law* Michael Mandelstam, 2013-03-28 The safeguarding of vulnerable adults continues to increase in importance Now in its second edition this book sets this complex area of work within an extensive legal framework providing many useful pointers for practitioners and students It comprehensively reflects recent changes to the law and includes many new case studies *Safeguarding Adults in Social Work* Andy Mantell, Terry Scragg, 2011-06-09 This fully revised Second Edition looks at how practitioners and students can achieve best practice when working with vulnerable adults The first part of the book explores the evolution of concepts and policies for safeguarding adults with particular reference to the Human Rights Act 1998 and the Capacity Act 2005 In the second section the focus shifts to good practice in empowering vulnerable adults The final section focuses on developing effective professional and inter professional practice *Best Practice in Social Work* Karen Jones, Barry Cooper, Harry Ferguson, 2007-11-27 Social work has laboured too long under a deficit model that focuses on failings and problems of practice Emphasising best practice strengths and collaborative partnership this ambitious book seeks to redress the balance Undergraduate and post qualifying social work students alike will find it a useful resource **Vulnerable Adults and the Law** Jonathan Herring, 2016-01-21 We are used to thinking that most people have the capacity to make their own decisions that they should be free to decide how to live their lives and that it is a good thing to be self sufficient However in an examination of the legal position of vulnerable adults understood as those who have capacity under the Mental Capacity Act 2005 but are deemed impaired through vulnerability in their exercise of decision making powers Jonathan Herring challenges that assumption Drawing on feminist and disability perspectives he argues that we are all in fact vulnerable and

we need to replace the competent able bodied independent person as the norm which the law is based on and instead fashion which recognises our interdependence and mutuality At the heart of the law is a distinction between those who have capacity and those who do not Those who have capacity are given the full rights of the law they are entitled to enter contracts dispose of their property are able to marry Those who are deemed to lack capacity are unable to make these decisions Their decisions are made on their behalf based on an assessment of what is in their best interests This approach is underpinned by the principle of autonomy and is problematic for those who are deemed vulnerable The Court of Protection and the Court of Appeal have developed a jurisdiction to deal with cases involving vulnerable adults which has been used in a wide range of cases from those involving people with early stage dementia to cases of forced marriage This development of law has proved controversial and the courts have struggled to draw its limits and explain the justification for it Jonathan Herring welcomes the courts willingness to protect vulnerable adults through the inherent jurisdiction but argues that we need to go much further It is not just particular groups such as the elderly or the disabled who are vulnerable but rather vulnerability is part of the human condition This means that caring relationships are of central significance to our society and should be at the heart of the legal system **Foundation Studies for Caring** Edward Alan Glasper,Gillian McEwing,John E.

Richardson,2018-01-16 Supported by a companion skills volume and website Foundation Studies for Caring is a comprehensive introductory text for all health professionals which maps directly on to the key skills framework Taking a student centred learning and interprofessional approach it is the most inclusive and engaging theory text in the market

The Intermediary in the Criminal Justice System John Taggart,2025-07-25 This book undertakes a sociolegal examination of the intermediary role within the criminal justice system The intermediary special measure is one of the most innovative and controversial developments in the history of English criminal procedure But what does the role actually involve That is the central question explored in this book Despite increased academic attention into this new criminal justice actor the content of the intermediary role remains unclear Based centrally on empirical data gathered in England and Wales and Northern Ireland but also drawing upon comparative material from other jurisdictions the book examines how those executing the intermediary role understand its work and how other criminal justice actors perceive it The book then uses this as the basis for generating a theory of the intermediary role and its scope and content It also considers the future of the role and its integration into the criminal justice system This book will appeal to those researching and studying in the areas of sociolegal studies criminal law and criminology as well as lawyers judges intermediaries and policy makers working in relevant areas *Safeguarding Vulnerable Adults and the Law* Michael Mandelstam,2008-11-15 The book focuses on how many areas of law apply to vulnerable adults bringing together an extensive body of case law to illustrate this Also covered is how local authorities and the NHS may themselves be implicated in the harm suffered For example in terms of gross lapses in standards of care and basic dignity sometimes found in hospitals Charity Administration Handbook Don Bawtree,Kate
