**God's Babies** John McKeown, 2014-12-17 The human population's annual total consumption is not sustainable by one planet. This unprecedented situation calls for a reform of religious cultures that promote a large ideal family size. Many observers assume that Christianity is inevitably part of this problem because it promotes family values and statistically in America and elsewhere has a higher birthrate than nonreligious people. This book explores diverse ideas about human reproduction in the church past and present. It investigates an extreme fringe of U.S. Protestantism including the Quiverfull movement that use Old Testament fruitful verses to support natalist ideas explicitly promoting higher fecundity. It also challenges the claim by some natalists that Martin Luther in the 16th century advocated similar ideas. This book argues that natalism is inappropriate as a Christian application of Scripture especially since rich populations' total footprints are detrimental to biodiversity and to human welfare. It explores the ancient cultural context of the Bible verses quoted by natalists. Challenging the assumption that religion normally promotes fecundity, the book finds surprising exceptions among early Christians with a special focus on Saint Augustine since they advocated spiritual fecundity in preference to biological fecundity. Finally, the book uses a hermeneutic lens derived from Genesis 1 and prioritising the modern problem of biodiversity to provide ecological interpretations of the Bible's fruitful verses.

He suggests that we should think of God in an abstract way and he offers a satisfying account of the relationship between God and goodness.

**The 12 Elixirs** Dr. T. L. Riabokin, 2016-04-15 Your body does nothing randomly. It is always talking to you. It is always telling you what you need to do to get well and stay healthy. Take a good look at yourself. Your health history and your healing prescriptions are written all over your body. Listening to and obeying your body's cues can help you become much more self-reliant regarding your health. What are some of these cues: desiring specific foods, breathing patterns, skin blemishes, itches, certain behaviors. What does a craving for sweet or sour really mean in your body? How should you best respond? What does the appearance and location of a mole mean? How does the location of your pain direct you to proper therapeutic choices? The
