**Northern Renaissance Art** Susie Nash, 2008-11-27 This book offers a wide ranging introduction to the way that art was made valued and viewed in northern Europe in the age of the Renaissance from the late fourteenth to the early years of the sixteenth century Drawing on a rich range of sources from inventories and guild regulations to poetry and chronicles it examines everything from panel paintings to carved altarpieces While many little known works are foregrounded Susie Nash also presents new ways of viewing and understanding the more familiar such as the paintings of Jan van Eyck Rogier van der Weyden and Hans Memling by considering the social and economic context of their creation and reception Throughout Nash challenges the perception that Italy was the European leader in artistic innovation at this time demonstrating forcefully that Northern art and particularly that of the Southern Netherlands dominated visual culture throughout Europe in this crucial period      **German Paintings in the Metropolitan Museum of Art, 1350-1600** Maryan W. Ainsworth, Joshua P. master Praised in life and elegized in death by such thinkers as Martin Luther and Erasmus he served Emperor Maximilian and other leading church and secular princes in the Holy Roman Empire Although there is a vast specialized literature on the Nuremberg master The Essential Dürer fills the need for a foundational book that covers the major aspects of his career The essays included in this book written by leading scholars from the United States and Germany provide an accessible up to date examination of Dürer's art and person as well as his posthumous fame The essays address an array of topics from separate and detailed studies of his paintings drawings printmaking and sculpture to broader concerns such as his visits to and interactions with Venice and the Netherlands his personal relationships and his relationships with other artists Collectively these stimulating essays explore the brilliance of Dürer's creativity and the impact he had on his world exposing him as an artist fully engaged with the tumultuous intellectual and religious challenges of his time

**Perfection's Therapy** Mitchell B. Merback, 2018-02-09 A deft reinterpretation of the most zealously interpreted picture in the Western canon as a therapeutic artifact Albrecht Dürer's famous portrayal of creative effort in paralysis the unsurpassed masterpiece of copperplate engraving titled Melencolia I has stood for centuries as a pictorial summa of knowledge about the melancholic temperament a dense allegory of the limits of earthbound arts and

sciences and the impossibility of attaining perfection Dubbed the image of images for being the most zealously interpreted picture in the Western canon Melencolia I also presides over the origins of modern iconology art history's own science of meaning Yet we are left with a clutter of mutually contradictory theories a historiographic ruin that confirms the mood of its object In Perfection's Therapy Mitchell Merback reopens the case file and argues for a hidden intentionality in Melencolia's opacity its structural chaos and its resistance to allegorical closure That intentionality he argues points toward a fascinating possibility never before considered that Dürer's masterpiece is not only an arresting diagnosis of melancholic distress but an innovative instrument for its undoing Merback deftly resituates Dürer's image within the long history of the therapeutic artifact Placing Dürer's therapeutic project in dialogue with that of humanism's founder Francesco Petrarch Merback also unearths Dürer's ambition to act as a physician of the soul Celebrated as the Apelles of the black line in his own day and ever since as Germany's first Renaissance painter theorist the Dürer we encounter here is also the first modern Christian artist addressing himself to the distress of souls including his own Melencolia thus emerges as a key reference point in a venture of spiritual ethical therapy a work designed to exercise the mind restore the body's equilibrium and help in getting on with the undertaking of perfection

Science and the Secrets of Nature William Eamon, 2020-06-30 By explaining how to sire multicolored horses produce nuts without shells and create an egg the size of a human head Giambattista Della Porta's Natural Magic 1559 conveys a fascination with tricks and illusions that makes it a work difficult for historians of science to take seriously Yet according to William Eamon it is in the how to books written by medieval alchemists magicians and artisans that modern science has its roots These compilations of recipes on everything from parlor tricks through medical remedies to wool dyeing fascinated medieval intellectuals because they promised access to esoteric secrets of nature In closely examining this rich but little known source of literature Eamon reveals that printing technology and popular culture had as great if not stronger an impact on early modern science as did the traditional academic disciplines
