Gothic Fiction Gothic Form:

Gothic Fiction/Gothic Form George E. Haggerty, 2010-11-01 This work offers a new perspective on Gothic fiction and reassesses its place in literary history After defining his concept of affective form and summarizing the problematic assumptions behind recent critical approaches to the Gothic George Haggerty introduces a startling theoretical discussion of the Gothic Tale and he explains in what ways the tale as a form with identifiable affective properties is ideally suited to Gothic concerns Having established a direct relation between this study and recent discussions of narratology and generic identity Haggerty develops his argument as it applies to major Gothic works in both England and America including works by Walpole Radcliffe Lewis Maturin Shelley Bronte Poe Hawthorne and James He examines the Gothic Tale as a form that resolves the inconsistency and incoherence of many Gothic novels and offers even the best of them a center of focus and a way of achieving their fullest affective power In this study the Gothic Tale emerges as a means of heightening the emotional intelligibility of Gothic fiction and answering Walpole s confused desire to unite two kinds of romance in the Gothic It is a form that can answer the ontological and epistemological as well as the structural challenge of the Gothic writers From its first hints within the Gothic novel as an alternative literary mode offering the Gothiccists various expressive advantages to its eerie success in a work such as James s *The Jolly Corner* the Gothic Tale offers insight into generic distinction and literary expression This is a major statement about an important literary form

Gothic Fiction and the Invention of Terrorism Joseph Crawford, 2013-09-12 Choice Outstanding Academic Title 2014 This book examines the connections between the growth of terror fiction the genre now known as Gothic in the late eighteenth century and the simultaneous appearance of the

conceptual origins of terrorism as a category of political action In the 1790s Crawford argues four inter connected bodies of writing arose in Britain the historical mythology of the French Revolution the political rhetoric of terrorism the genre of political conspiracy theory and the literary genre of Gothic fiction known at the time as the terrorist novel writing All four bodies of writing drew heavily upon one another in order to articulate their shared sense of the radical and monstrous otherness of the extremes of human evil a sense which was quite new to the eighteenth century but has remained central to the ways in which we have thought and written about evil and violence ever since

Experimentation and Versatility

Casey Clabough, 2005 Experimentation and Versatility considers Chappell's first four novels and his short fiction the novels chronologically and the short stories thematically in order to demonstrate the unique range and importance of his fictional prose Rather than inserting Chappell's fictional variables into a single theoretical formula Clabough traces and celebrates their various and multifaceted excursions into genres as disparate as Appalachian pastoralism and experimental science fiction Containing both an interview with Chappell and a previously unpublished short story Experimentation and Versatility also offers new primary sources on Chappell's work even as it contextualizes him as one of our most exciting and multi talented contemporary writers Investigating the complexities of Chappell's work Clabough's study offers new ways of considering Chappell who has been characterized variously as a Appalachian Southern and fantasy writer However as Clabough demonstrates he is in fact all and none of these things a writer of immense gifts constantly reinventing himself through his experiments in seemingly disparate genres

The Marriage of Minds Rachel Ablow,2007 The Marriage of Minds examines the implications of the common Victorian claim that novel reading can achieve the psychic ethical and affective benefits also commonly associated with sympathy in married life Through close readings of canonical texts in relation to the histories of sympathy marriage and reading The Marriage of Minds begins to fill a long standing gap between eighteenth century philosophical notions of sympathy and twentieth century psychoanalytic concepts of identification It examines the wide variety of ways in which novels were understood to educate or reform readers in the mid nineteenth century Finally it demonstrates how both the form of the Victorian novel and the experience supposed to result from that form were implicated in ongoing debates about the nature purpose and law of marriage *The Gothic Novel and the Stage* Francesca Saggini,2015-08-12 In this ground breaking

study Saggini explores the relationship between the late eighteenth century novel and the theatre arguing that the implicit theatricality of the Gothic novel made it an obvious source from which dramatists could take ideas Similarly elements of the theatre provided inspiration to novelists **PopLit, PopCult and The X-Files** Jan Delasara,2015-11-03 For six acclaimed

Jeffrey Andrew Weinstock,2009-08-25 Scare Tactics identifies an important but overlooked tradition of supernatural writing by American women Jeffrey Weinstock analyzes this tradition as an essentially feminist attempt to imagine alternatives to a world of limited possibilities In the process he recovers the lives and works of authors who were important during their

lifetimes and in the development of the American literary tradition but who are not recognized today for their contributions Between the end of the Civil War and roughly 1930 hundreds of uncanny tales were published by women in the periodical press and in books These include stories by familiar figures such as Edith Wharton Harriet Beecher Stowe and Charlotte Perkins Gilman as well as by authors almost wholly unknown to twenty first century readers such as Josephine Dodge Bacon Alice Brown Emma Frances Dawson and Harriet Prescott Spofford Focusing on this tradition of female writing offers a corrective to the prevailing belief within American literary scholarship that the uncanny tale exemplified by the literary productions of Irving Poe and Hawthorne was displaced after the Civil War by literary realism Beyond the simple existence of an unacknowledged tradition of uncanny literature by women Scare Tactics makes a strong case that this body of literature should be read as a specifically feminist literary tradition Especially intriguing Weinstock demonstrates is that women authors repeatedly used Gothic conventions to express discontentment with circumscribed roles for women creating types of political intervention connected to the broader sphere of women s rights activism Paying attention to these overlooked authors helps us better understand not only the literary marketplace of their time but also more familiar American Gothicists from Edgar Allan Poe to Shirley Jackson to Stephen King

True to the Spirit Colin McCabe, Rick Warner, Kathleen Murray, 2011 Fifty percent of Hollywood productions each year are adaptations films that use an already published book dramatic work or comic as their source material If the original is well known then for most spectators the question of whether these adaptations are true to the spirit of the original is central The recent wave of adaptation studies dismisses the question of fidelity as irrelevant mistaken or an affront to the unstable nature of meaning itself The essays gathered here mixing the field s top authorities Andrew Gunning Jameson Mulvey and Naremore with fresh new voices take the question of correspondence between source and adaptation as seriously as do producers and audiences Spanning examples from Shakespeare to *Ghost World* and addressing such notable directors as Welles Kubrick Hawks Tarkovsky and Ophüls the contributors write against the grain of recent adaption studies by investigating the question of what fidelity might mean in its broadest and truest sense what it might reveal of the adaptive process and why it is still one of the richest veins of investigation in the study of cinema
