*Martin Luther King in the African American Preaching Tradition* Valentino Lassiter,2010-06-01 Valentino Lassiter has cast spiritual breads upon the waters with this compelling

comparison of the historic tradition of African American preaching and the overwhelming spiritual preaching of Martin Luther King Jr. Martin Luther King in the African American Preaching Tradition details preaching by slave preachers to present day preachers. More importantly it shows how King's sermon content was cut from the same loaf as those preachers who preached justice and God's assurance in the 1600s. Lassiter has written a book that will be an important resource for pastors, seminarians and those who are interested in the never ending fascination with dynamic African American preaching.

African-American Spirituality, Thought & Culture Phyllis Baker, 2007-06. Traces the author's and African Americans in general historical roots and personal and professional understanding of her culture. *Peoples Temple and Black Religion in America* Rebecca Moore, Anthony B. Pinn, Mary R. Sawyer, 2004-03-11. The Peoples Temple movement ended on November 18, 1978 in their utopianist community of Jonestown, Guyana, when more than 900 members died, most of whom took their own lives. Only a handful lived to tell their story. Little has been written about the Peoples Temple in the context of black religion in America. Twenty five years after the tragedy of Jonestown, scholars from various disciplines assess the impact of the Peoples Temple on the black religious experience. Preaching with Sacred Fire: An Anthology of African American Sermons, 1750 to the Present Martha Simmons, Frank A. Thomas, 2010-08-16. One hundred sermons that display the victorious although sometimes painful historical and spiritual pilgrimage of black people in America. A groundbreaking anthology. Preaching with Sacred Fire is a unique and powerful work. It captures the stunning diversity of the cultural and historical legacy of African American preaching more than three hundred years in the making. Each sermon as editors Martha Simmons and Frank A. Thomas reveal is a work of art and a lesson in unmatched rhetoric. The journey through this anthology which includes selections from Jarena Lee, Frederick Douglass, Malcolm X, Martin Luther King Jr., Gardner C. Taylor, Vashti McKenzie and many others, offers a rare view of the unheralded role of the African American preacher in American history. The collection provides new insights into the underpinnings of the black fight for emancipation and the rise and growth of the Civil Rights and Black Power movements. Sermons from the first decade of the twenty first century point toward the future of African American preaching. Biographies of the preachers put their work in the cultural and homiletic context of their periods. The preachers of these sermons are men and women from a range of faiths, ancestries and educational backgrounds. They draw on a vast and luminous landscape of poetic language using metaphor, rhythm and imagery to communicate with their congregations. What they all have in common is hope, resilience and sacred fire. Even during the most difficult and oppressive times, Simmons and Thomas write in the preface, the delivery, creativity, charisma, expressivity, fervor, forcefulness, passion, persuasiveness, poise, power, rhetoric, spirit, style and vision of black preaching gave and gives hope to a community under siege. This magnificent work beautifully renders the complexity, spiritual richness and strength of African American life.

**The Search for Wholeness and Diaspora Literacy in Contemporary African American Literature** Silvia Castro-Borrego, 2011-05-25. This volume has as a cohesive argument the exploration of the different manifestations of the

search for wholeness and spirituality in the writings of contemporary African American women writers covering different literary genres such as fiction both novels and short stories drama and poetry Together with the issue of spirituality the African American search for wholeness is analyzed as a source of creativity and agency As expressed in the contemporary literature of black women writers starting in the 1980s the search for wholeness reflects a beauty realized through the healing of the spirit and the body and is a process that takes on dimensions of reconciling the past and the present the mythical and the real the spiritual and the physical all in the context of an emerging world view that welcomes synthesis and expects both synthesis and generative contradictions The book will be a valuable collection for scholars of African American literature comparative American Ethnic literature American literature and spirituality as well as women s studies In addition it will be an important text for both undergraduate and graduate students in those fields As Professor Johnnella Butler 2006 points out the African American search for wholeness is tightly linked to the search for freedom and agency Ever since the 19th century African American writers have given expression to an African American self which functions in Western civilization simultaneously as a colonized other and an assertive self Due to the continuous ordeal of the African Diaspora this self is caught in between the binaries proposed by the material and the spiritual world seeking a balance where the person can become whole The search for wholeness feeds from cultural roots that imply the presence of ancestral spiritualism rememory and double consciousness Contemporary black women writers reflect the metaphor of building spiritual bridges seeking the possibilities of building a bridge to the archetypal African past that is carried in their memories as a presence that offers sustenance via spiritual reconnection Their works seek to bridge the gap between the myths and traditions of the past and contemporary African American culture The texts included in this collection are examples of writing as an exercise of what V v Clark calls Diaspora literacy The texts written by contemporary African American women writers explicitly show how to recognize and read the cultural signs left scattered along the road of progress In this way material acquisition is achieved along with cultural dispossession becoming a metaphor for the history of the African in America The powerful message is that one should not exclude the other

**Religion, Dress and the Body** Linda B. Arthur,1999-05 Religions constrain the bodies of their members through dress In many cases dress immediately identifies a member of the community to the outside world and separates them from a society that members believe is threatened by evil forces Dress identifies the wearer s community to other groups and communities and may also reflect one s status Most interestingly perhaps dress is a measure of one s level of commitment to the community While communities vary greatly in terms of what is permissible strict conformity to internal codes invariably is interpreted as a sign of piety whereas deviation implies at best self indulgence and at worst contempt for community values In order to control sexuality women s bodies in particular are constrained in religious communities in terms of emotional expression diet and especially dress This book investigates dress in American religious communities as a vital component of the social control of cultures and also examines how people express themselves despite religious constraints Gender issues feature prominently since the control of female sexuality within

religious communities is a matter of vital concern to its members Drawing on rich ethnographic case studies this wide ranging and interdisciplinary represents a major contribution to the study of both religion and dress      **The Routledge Handbook of Religion and American Culture** Chad E. Marini, 2003 In Sacred Song in America Stephen A Marini explores the full range of American sacred music and demonstrates how an understanding of the meanings and functions of this musical expression can contribute to a greater understanding of religious culture Marini examines the role of sacred song across the United States from the musical traditions of Native Americans and the Hispanic peoples of the Southwest to the Sacred Harp singers of the rural South and the Jewish music revival to the music of the Mormon Catholic and Black churches Including chapters on New Age and Neo Pagan music gospel music and hymnals as well as interviews with iconic composers of religious music Sacred Song in America pursues a historical musicological and theoretical inquiry into the complex roles of ritual music in the public religious culture of contemporary America      **Conversions and Visions in the Writings of African-American Women** Kimberly Rae Connor, 1994 The subsequent achievement of selfhood is then based on the interplay of individual and community identities Connor suggests that the distinctiveness of African American women s experiences and writings can transcend their immediate communities and be brought to bear on women s experiences in general making their individual stories more accessible and meaningful to the whole of humankind      *Empowering Black Youth of Promise* Sandra

**Divine Hierarchies** Sean McCloud, 2009-01-05 Placing the neglected issue of class back into the study and understanding of religion Sean McCloud reconsiders the meaning of class in today's world More than a status grounded in material conditions says McCloud class is also an identity rhetorically and symbolically made and unmade through representations It entails relationships identifications boundaries meanings power and our most ingrained habits of mind and body He demonstrates that employing class as an analytical tool that cuts across variables such as creed race ethnicity and gender can illuminate American religious life in unprecedented ways Through social theory historical analysis and ethnography McCloud makes an interdisciplinary argument for reinserting class into the study of religion First he offers a new three part conception of class for use in studying religion He then presents a focused cultural history of religious studies by examining how social class surfaced in twentieth century theories of religious affiliation He concludes with historical and ethnographic case studies of religion and class Divine Hierarchies makes a convincing case for the past and present importance of class in American religious thought practice and scholarship
