the definitive text for years to come Praise for The Greek Plays Mary Lefkowitz and James Romm deftly have gathered strong new translations from Frank Nisetich Sarah Ruden Rachel Kitzinger Emily Wilson as well as from Mary Lefkowitz and James Romm themselves There is a freshness and pungency in these new translations that should last a long time I admire also the introductions to the plays and the biographies and annotations provided Closing essays by five distinguished classicists the brilliant Daniel Mendelsohn and the equally skilled David Rosenbloom Joshua Billings Mary Kay Gamel and Gregory Hays all enlightened me This seems to me a helpful light into our gathering darkness Harold Bloom Dark Moon, Shallow Sea David R. Slayton, 2023-10-31 The first in a new epic fantasy series from David R Slayton author of White Trash Warlock Dark Moon Shallow Sea is a powerful story of divine betrayal ghosts and self discovery perfect for fans of the Dark Souls series or Mistborn by Brandon Sanderson When Phoebe goddess of the moon is killed by the knights of the sun god Hyperion all who follow her are branded heretics With Phoebe gone the souls of the dead are no longer ferried to the underworld and instead linger on as shades who feast on the blood of the living Raef is a child of the night He lives in the shadows on scraps eking out a meager existence as a thief But when an ornate box is sequestered in the Temple of Hyperion the chance of a big score proves too great to resist What he finds within propels him on an odyssey across the sea and back again altering the course of his life forever Seth is a knight of the sun But unlike the others of his order the fire of Hyperion only brings him pain He believes he deserves this penance exacted for his unknown origins Tasked with recovering the contents of the box Seth must also venture beyond the horizon if he is to learn the truth about himself In a dying world divided by the greed of those in power Raef and Seth find their destinies intertwined and learn they might have more in common than they ever imagined

for a happier future **Sacred Landscapes in Antiquity** Ralph Haussler, Gian Franco Chiai, 2020-07-31 From generation to generation people experience their landscapes differently Humans depend on their natural environment it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities such as droughts famines floods and landslides need to be appeased We presume that in many societies lakes rivers rocks mountains caves and groves were considered sacred Individual sites and entire landscapes are often associated with divine actions mythical heroes and etiological myths Throughout human history people have also felt the need to monumentalize their sacred landscape But this is where the similarities end as different societies had very different understandings believes and practices The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi disciplinary approach More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it We see the role of performance ritual orality textuality and memory in people s sacred landscapes A diachronic view allows us to study how landscapes were rewritten adapted and redefined in the course of time to suit new cultural political and religious understandings not to mention the impact of urbanism on people s understandings A key question is how was the landscape manipulated transformed and monumentalized especially the colossal investments in monumental architecture we see in certain socio historic contexts or the creation of an alternative humanmade seemingly non natural landscape with perfectly astronomically aligned buildings that define a cosmological order Sacred Landscapes therefore aims to analyze the complex links between landscape religiosity and society developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic holistic contextual and historical perspective
