they seem Brave New Hungary János Mátyás Kovács, Balazs Trencsenyi, 2019-12-10 Brave New Hungary focuses on the rise of a brave new anti liberal regime led by Viktor Orbán who made a decisive contribution to the transformation of a poorly managed liberal democracy to a well organized authoritarian rule bordering on autocracy during the past decade Emerging capitalism in post 1989 Hungary that once took pride in winning the Eastern European race for catching up with the West has evolved into a reclusive statist national populist system reminding the observers of its communist and pre communist predecessors Going beyond the self description of the Orbán regime that emphasizes its Christian conservative and illiberal nature the authors leading experts of Hungarian politics history society and economy suggest new ways to comprehend the sharp decline of the rule of law in an EU member state Their case studies cover crucial fields of the new authoritarian power ranging from its historical roots and constitutional properties to media and social policies The volume presents the Hungarian System of National Cooperation as a pervasive but in many respects improvised and vulnerable experiment in social engineering rather than a set of mature and irreversible institutions The originality of this dystopian new world does not stem from the transition to authoritarian control per se but its plurality of meanings It can be seen as a simulacrum that shows different images to different viewers and perpetuates itself by its post truth variability Rather than pathologizing the current Hungarian regime as a result of a unique master plan designed by a cynical political entrepreneur the authors show the transnational dynamic of backsliding a warning for other countries that suffer from comparable deadlocks of liberal democracy

Learning Seventeen Brooke Carter, 2018-01-16 New Hope Academy or as seventeen year old Jane Learning likes to call it No Hope is a Baptist reform school where Jane is currently being held captive Of course smart sarcastic Jane has no interest in reforming failing to see any benefit to pretending to play well with others But then Hannah shows up a gorgeous bad girl with fiery hair and an even stormier disposition She shows Jane how to live a full and fulfilling life even when the world tells you you're wrong and how to believe in a future outside the prison walls Jane soon learns though that Hannah is quietly battling some demons of her own This short novel is a high interest low reading level book for teen readers who are building reading skills want a quick read or say they don't like to read The epub edition of this title is fully accessible

Holocaust Monuments and Memorials in Central Europe Eva Janáčková, 2025-10-20 Holocaust monuments in Central Europe especially in today's Czech Republic Poland Hungary and Germany have received surprisingly little academic attention Yet these sites of memory offer deep insight into the individual collective and cultural memory of the tragedy of the Holocaust The first Holocaust monuments were created shortly after the end of the Second World War At first they were monuments and memorials commemorating Jewish victims but later stone reminders of the Roma victims of the Holocaust were added After the fall of the Iron Curtain a second wave of Holocaust monuments and memorials took place in Central Europe continuing to this day The aim of this publication is to present both the historical and artistic circumstances of the creation of these Holocaust monuments and memorials as well as their subsequent reception In a broader social and cultural

context the emphasis is placed on the formation of Jewish and Roma identity in Central Europe

National History and New Nationalism in the Twenty-First Century Niels F. May, Thomas Maissen, 2021-06-17 National history has once again become a battlefield In internal political conflicts which are fought on the terrain of popular culture museums schoolbooks and memorial politics it has taken on a newly important and contested role Irrespective of national specifics the narratives of new nationalism are quite similar everywhere National history is said to stretch back many centuries expressing the historical continuity of a homogeneous people and its timeless character This people struggles for independence guided by towering leaders and inspired by the sacrifice of martyrs Unlike earlier forms of nationalism the main enemies are no longer neighbouring states but international and supranational institutions To use national history as an integrative tool new nationalists claim that the media and school history curricula should not contest or question the nation and its great historical deeds as doubts threaten to weaken and dishonour the nation This book offers a broad international overview of the rhetoric contents and contexts of the rise of these renewed national historical narratives and of how professional historians have reacted to these phenomena The contributions focus on a wide range of representative nations from around all over the globe

Patriotic History and the (Re)Nationalization of Memory Kornelia Kończal, A. Dirk Moses, 2023-06-27 This book charts and traces state mandated or state encouraged patriotic histories that have recently emerged in many places around the globe Such patriotic histories can revolve around both affirmative interpretations of the past and celebration of national achievements They can also entail explicitly denialist stances against acknowledging responsibility for past atrocities even to the extent of celebrating perpetrators Whereas in some cases patriotic history takes the shape of a coherent doctrine in others they remain limited to loosely connected narratives By combining nationalist and narcissist narratives and by disregarding or distorting historical evidence patriotic history promotes mythified monumental and moralistic interpretations of the past that posit partisan and authoritarian essentialisms and exceptionalisms Whereas the global debates in interdisciplinary memory studies revolve around concepts like cosmopolitan global multidirectional relational transcultural and transnational memory to mention but a few the actual socio political uses of history remain strikingly nation centred and one dimensional This volume collects fifteen case studies of such nationalizations of history ranging from China to the Baltic states They highlight three features of this phenomenon the ruthlessness of methods applied by many state authorities to impose certain interpretations of the past the increasing discrepancy between professional and political approaches to collective memory and the new post truth context This book will be of interest to students and researchers of international politics the radical right and global history It was originally published as a special issue of the Journal of Genocide Research
