from memory even though I have not used them for ages Hence I believe the knowledge of phonics enables learners to pronounce the words in sight and facilitate the learning and remembering This book has also presented all the twenty vowel phonemes and twenty four consonant phonemes So a learner who knows all the English words is bound in these English speech sounds phonemes With this insight a learner will not use the Chinese phonetics or the Malay phonetics to pronounce English words I believe this book will prove to be useful and meaningful to those who cares to pronounce English words correctly and will help them remember the words
