## **Gorbachevs Reforms Progress And Prospects:**

**Soviet Constitutional Crisis** Robert Sharlet, 2016-06-16 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev s most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms

**The Economic Prospects of the CIS** Gur Ofer, Richard W. T. Pomfret, 2004-01-01 This useful volume features surveys of 10 of the 12 members of the Commonwealth of Independent States CIS the successor organisation to the USSR I heartily recommend this book for all economists interested in the economic transition of the CIS Roy Gardner Comparative Economic Studies The country studies and the editors introduction contain a wealth of statistical information that will be appreciated by many readers Those interested in a broad overview will focus on the introduction and the conclusion where the editors offer their synthesis of the ten country studies This synthesis in itself is an important achievement that summarizes the wealth of country findings in a compact and easily readable format Those who need more detail will greatly benefit from the in depth treatment of the ten countries in the core chapters The high level of scholarship of this volume ensures its usefulness not only to academics and researchers specializing in transition but also to development and comparative economists working on issues of economic growth The specific country studies will be of value to economists assigned to the region by international organizations or to local economists interested to have a western perspective on developments in their countries In summary this is an important addition to the literature that summarizes the record of transition during the decade of the 1990s Zvi Lerman Slavic Review This book is to be commended for several reasons First of all it makes predominantly native research available to English speakers Secondly it has managed to provide separate chapters for as many as ten of the twelve members of the Commonwealth of Independent States and has not allowed its treatment of Russia to dominate the discussion Thirdly its approach to the theme of economic prospects is both country oriented and comparative And finally it fulfills its remit in considering the future as well as the present W V Wallace Slavonic and East European Review Professors Gur Ofer and Richard Pomfret have created a volume in which timely

and lucid combination of analyses extensive information and clear cut knowledge of what went wide of the mark during the 1990s in the Soviet bloc are all well presented They offer economic and institutional analyses to help understand alternative routes to economic growth in the CIS Bruno S Sergi Economics of Transition This first comprehensive application of the new growth accounting to systemic transition in ten ex Soviet republics puts weak governance public and corporate and capital paucity as the key retardants to market led dynamism today The country specific analyses embedded in a rich description of resource demographic and political environments shows that these economies as yet little touched by globalisation need to build institutions qualitatively attractive to FDI and to technology transfer if their catch up rate is to satisfy the aspirations of their still poverty racked peoples Michael Kaser St Antony s College Oxford UK This book brings together ten original studies on the transition and growth experience and the foundations for long term growth of the newly independent states created by the dissolution of the Soviet Union Beginning with an overview of the common pre 1992 background and comparative information on the post 1992 performance of the Commonwealth of Independent States CIS countries the authors continue by reviewing the Soviet background and post independence experience They then emphasise both the uniformity and diversity of the twelve CIS countries recent history The problem of explaining economic growth in transition economies is also explored and individual in depth country studies are presented The contributors to the book are a combination of in country researchers with in depth local knowledge and access to data and international economists with technical expertise and experience of long ter

**The Gorbachev Bibliography, 1985-1991** Joseph L. Wieczynski,1996

Revolution and Reform in Russia and Iran Ghoncheh Tazmini,2012-03-30 The Russian Revolutions of 1917 and the Iranian Revolution of 1979 are two examples of dramatic sudden and extraordinary political upheaval that significantly altered the nature of the state and society in the modern age Here Ghoncheh Tazmini provides an unprecedented comparative study of these two major revolutions of the twentieth century which although removed from each other both spatially and temporally have striking similarities Examining the roots events and impact of these two defining upheavals Tazmini analyses how they resemble each other stressing the continuity of the dilemma of modernisation for the Romanov Pahlavi Communist and Islamist rulers alike This book is a significant contribution to both historical and contemporary debates concerning Russian and Iranian politics and to the discourse on the origins and consequences of modernisation and

revolution themselves      *Gorbachev's Economic Plans* ,1987      **The Moscow Summit, 1988** Joseph G. Whelan,2019-07-11

This book examines the approach of both superpowers to the Moscow summit meetings the course of the negotiations and finds both Reagan and Gorbachev s performances to have been very creditable It explores the significant aspects of the meeting as a case study in Soviet American negotiations      **Remaking the Economic Institutions of Socialism** Victor Nee,David Stark,1989 To what extent can contemporary socialist economies be reformed by the introduction of markets The question is usually debated in either a Chinese or an East European context this collection of eleven essays is unique in taking the first steps toward a comparative analysis Twenty years of experience with reforms in Hungary and a decade of experimentation with reforms in China provide a critical mass of evidence for analyzing the problems endemic to centrally planned economies and the dilemmas faced in efforts to reform them In reflecting on the Chinese and East European experiences these essays trace the shift from a conception of reform as a mix of planning and markets within the state sector to a socialist mixed economy with implications for the emergence of new social groups and autonomous social organizations The essays exemplify a new perspective in the study of state socialism that changes the focus from ideologies to economic institutions examining how the activities of subordinate groups place limits on the power of state elites The authors include scholars who have shaped debates in Eastern Europe and whose work is now stimulating much discussion in China as well as representatives of a younger generation of economists sociologists and political scientists writing on the basis of field research recently conducted in factories cities and villages in China and Eastern Europe The contributors are Wlodzimierz Brus Walter D Connor Zhiren Lin Victor Nee Susan Shirk David Stark Ivan Szelenyi and Martin King Whyte An introductory essays surveys recent theories and research on state socialism and outlines a new institutional perspective for understanding the dilemmas of partial reforms the political cycles of reform and retrenchment and the role of subordinate groups in stimulating changes outside the state sector      **Russia's Market Economy** Stefan Hedlund,2002-11-01 Russia s Market Economy is a seminal account of Russia s transition to the market its tortuous development as a fledgling market economy through the 1990s right through to its spectacular collapse in August 1998 Rather than beginning with the economic collapse the book traces the historical mismanagement of Russian wealth through to the Soviet command economy and on to Gorbachev Stefan Hedlund finally discusses what lessons should be learned from the damage inflicted on the Russian economy as well as its social legal and political infrastructure by the race of reform      Patronage and Politics in the USSR John P. Willerton,1992 How do Soviet politicians rise to power How are national and regional regimes formed How are conflicting political interests brought together as policies are developed in the Soviet Union In *Patronage and Politics in the USSR* first published in 1991 Professor John Willerton offers major insights into the patronage networks that have dominated elite mobility regime formation and governance in the Soviet Union during the past twenty five years Using the biographical and career details of over two thousand national leaders and regional officials in Azerbaijan and Lithuania John Willerton

traces the patron client relations underlying recruitment mobility and policymaking He explores the strategies of power consolidation and coalition building used by Soviet chief executives since 1964 as well as the institutional links and policy outcomes that have resulted from network politics The author also assesses the manner and extent to which leaders in politically stable and less stable settings spanning different national cultural contexts have relied upon patronage networks to consolidate power and to govern Finally Professor Willerton explores how in a period of dramatic change patron client networks may have given way to institutionalised interest groups and political parties

*The Soviet-East European Relationship In The Gorbachev Era* Aurel Braun, 2019-07-15 This book focuses on the nature of the Soviet East European relationship in the Gorbachev era and on the prospects for the adaptation of that relationship to changing conditions in today's world examining trends and tendencies in Soviet East European relations

**Communism and Reform in East Asia (RLE Modern East and South East Asia)** David S. G. Goodman, 2015-04-10 The West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential market The West's attitude is reinforced by the recognition of East Asia's economic importance more generally a perception which in itself undoubtedly stimulated reform in the region's communist party states The causes extent and consequences of reform in the East Asian communist party states are the concerns of the contributors to this volume first published in 1988 It includes chapters on the reform process in China North Korea Vietnam and Mongolia as well as examinations of the roles played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process of economic and political liberalization brought about by the drive for economic modernization the production imperative is a misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even a necessary condition In individual countries the communist party's search for legitimacy a change of leadership or the relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a consequence of the communist party's desire to reform rather than a cause The absence of a uniform pattern does not detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of collective life ownership and rural society
