William Todd Schultz

Gordon Allport The Man And His Ideas:

Gordon Allport, the Man and His Ideas Richard Isadore Evans, Gordon Willard Allport, 1971 **Handbook of Psychobiography** William Todd Schultz, 2005-07-07 This exceptionally readable and down to earth handbook is destined to become the definitive guide to psychobiographical research the application of psychological theory and research to individual lives of historical importance It brings together for the first time the world's leading psychobiographers writing lucidly on many of the major figures of our age from Osama Bin Laden to Elvis Presley *An Introduction to Theories of Personality* Robert Ewen B, 2003-04-02 First published in 2009 Routledge is an imprint of Taylor Francis an informa company *An Introduction to Theories of Personality* Robert B. Ewen, 2014-01-21 This 7th Edition helps students unravel the mysteries of human behavior through its highly readable introduction to the ideas of the most significant personality theorists Engaging biographical sketches begin each chapter and unique capsule summaries help students review key concepts Theories come alive through the inclusion of quotations from the theorists writings and numerous applications such as dream interpretation psychopathology and psychotherapy Significant changes in the 7th edition include an extended discussion of the practical applications of personality theory with an emphasis on guidelines that can help people increase their self knowledge make better decisions and live more fulfilling lives Fictionalized but true to life examples illustrating the perils of inadequate self knowledge include college students parents terrorists business executives and politicians while other examples show the positive outcomes that can result from a better understanding of one's unconscious This 7th edition also includes a more extensive discussion of how a lack of self understanding caused difficulties for such noted theorists as Freud and Erikson and a new section that explains how behavior can be strongly influenced by the situation as well as by one's personality Finally a new interactive web site provides practice test questions and other topics of interest [The ^A Wonder of Their Voices](#) Alan Rosen, 2010-11-04 Arguing that early postwar Holocaust testimony was plentiful and significant in its own right Rosen highlights the Russian born American psychologist David Boder who in 1946 was among the earliest to interview Holocaust survivors in DP camps and as far as we know the first to audio record their testimony Examining the origins and implications of Boder's project this study compels a new conceptual and historical understanding of Holocaust testimony **Handbook of Research Methods in Personality Psychology** Richard W. Robins, R. Chris Fraley, Robert F. Krueger, 2009-12-09 Bringing together leading investigators this comprehensive handbook is a one stop reference for anyone planning or conducting research on personality It provides up to date analyses of the rich array of methodological tools available today giving particular attention to real world theoretical and logistical challenges and how to overcome them In chapters filled with detailed practical examples readers are shown step by step how to formulate a suitable research design select and use high quality measures and manage the complexities of data analysis and interpretation Coverage ranges from classic methods like self report inventories and observational procedures to such recent innovations as neuroimaging and genetic

analyses

The Romance of American Psychology Ellen Herman, 2024-03-29 Psychological insight is the creed of our time. A quiet academic discipline two generations ago, psychology has become a voice of great cultural authority informing everything from family structure to government policy. How has this fledgling science become the source of contemporary America's most potent ideology? In this groundbreaking book, the first to fully explore the political and cultural significance of psychology in post-World War II America, Ellen Herman tells the story of America's love affair with the behavioral sciences. It began during wartime. The atmosphere of crisis sustained from the 1940s through the Cold War gave psychological experts an opportunity to prove their social theories and behavioral techniques. Psychologists, sociologists, and anthropologists carved a niche within government and began shaping military, foreign, and domestic policy. Herman examines this marriage of politics and psychology, which continued through the tumultuous 1960s. Psychological professionals' influence also spread among the general public. Drawn by promises of mental health and happiness, people turned to these experts for enlightenment. Their opinions validated postwar social movements from civil rights to feminism and became the basis of a new world view. Fascinating and long overdue, this book illuminates one of the dominant forces in American society. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1995.

Harvard's Quixotic Pursuit of a New Science Patrick L. Schmidt, 2022-06-21 In Harvard's Quixotic Pursuit of a New Science, Patrick L. Schmidt tells the little-known story of how some of the most renowned social scientists of the twentieth century struggled to elevate their emerging disciplines of cultural anthropology, sociology, and social and clinical psychology. Scorned and marginalized in their respective departments in the 1930s for pursuing the controversial theories of Freud and Jung, they persuaded Harvard to establish a new department promising to create an interdisciplinary science that would surpass in importance Harvard's big three disciplines of economics, government, and history. Although the Department of Social Relations failed to achieve this audacious goal, it nonetheless attracted an outstanding faculty, produced important scholarly work, and trained many notable graduates. At times it was a wild ride. Some faculty became notorious for their questionable research. Timothy Leary and Richard Alpert (reborn as Ram Dass) gave the psychedelic drug psilocybin to students, while Henry Murray traumatized undergraduate Theodore Kaczynski (later the Unabomber) in a three-year-long experiment. Central to the story is the obsessive quest of legendary sociologist Talcott Parsons for a single theory unifying the social sciences, the white whale to his Captain Ahab. All in all, Schmidt's lively narrative is an instructive tale of academic infighting, hubris, and scandal.

Fifty Years of Personality Psychology Kenneth H. Craik, Robert Hogan, Raymond N. Wolfe, 2013-06-29 Assembling original papers by the field's foremost investigators, this history demonstrates the continuity and progress made across five decades of personality psychology.

research In addition to providing a historical perspective for the discipline the work aims to inspire a more coherent agenda for future research

A REVIEW OF PERSONALITY THEORIES Victor J. Drapela, 1995-01-01 Personality theories are frameworks devised by professionals to interpret the interaction of dynamic forces operating in every person's life This text explains in basic terms the following major theories Psychoanalytic Theory Analytic Theory Individual Psychology Interpersonal Theories Psychosocial Theories Learning Theory Trait and Factor Theory Field Theory Phenomenology and Existentialism Self Theory Holistic Theory Logo therapy and Systemic Eclecticism It is organized as a study guide to help the reader gain basic insights into various interpretations of the role that personality dynamics assume in human behavior The author makes a conscious effort to keep the language clear and simple avoiding unneeded technical terms However full recognition is given to the distinctive terminology developed by certain theorists To lend a degree of concreteness to abstract ideas explanatory drawings have been included wherever appropriate This book will prove useful to students in counselor education and other applied psychology programs particularly when reviewing personality theories for comprehensive or qualifying examinations It is also a useful resource to practitioners preparing for certification or licensure tests Additionally the book may be of interest to persons of many walks of life who want to better understand the many and diverse interpretations of human behavior and of the dynamic forces within personality

Uncovering Lives Alan C. Elms, 1997-05-01 Psychobiography is often attacked by critics who feel that it trivializes complex adult personalities explaining the large deeds of great individuals as George Will wrote by some slight the individual suffered at a tender age say 7 when his mother took away a lollipop Worse yet some writers have clearly abused psychobiography for instance to grind axes from the right Nancy Clinch on the Kennedy family or from the left Fawn Brodie on Richard Nixon and others have offered woefully inept diagnoses such as Albert Goldman's portrait of Elvis Presley as a split personality and a delusional paranoid And yet as Alan Elms argues in *Uncovering Lives* in the hands of a skilled practitioner psychobiography can rival the very best traditional biography in the insights it offers Elms makes a strong case for the value of psychobiography arguing in large part from example Indeed most of the book features Elms's own fascinating case studies of over a dozen prominent figures among them Sigmund Freud the father of psychobiography B F Skinner Isaac Asimov L Frank Baum Vladimir Nabokov Jimmy Carter George Bush Saddam Hussein and Henry Kissinger These profiles make intriguing reading For example Elms discusses the fiction of Isaac Asimov in light of the latter's acrophobia fear of heights and mild agoraphobia fear of open spaces and Elms includes excerpts from a series of letters between himself and Asimov He reveals an unintended subtext of *The Wizard of Oz* that males are weak females are strong think of Scarecrow Tin Man the Lion and the Wizard versus the good and bad witches and Dorothy herself and traces this in part to Baum's childhood heart disease which kept him from strenuous activity and to his relationship with his mother in law Matilda Joslyn Gage a distinguished advocate of women's rights And in a fascinating chapter he examines the abused childhood of Saddam Hussein the privileged

childhood of George Bush and the radically different psychological paths that led these two men into the Persian Gulf War Elms supports each study with extensive research much of it never presented before for instance on how some of the most revealing portions of C G Jung s autobiography were deleted in spite of his protests before publication Along the way Elms provides much insight into how psychobiography is written Finally he proposes clear guidelines for judging high quality work and offers practical tips for anyone interested in writing in this genre Written with great clarity and wit *Uncovering Lives* illuminates the contributions that psychology can make to biography Elms s enthusiasm for his subject is contagious and will inspire would be psychobiographers as well as win over the most hardened skeptics [The Encyclopedia of Positive Psychology](#) Shane J. Lopez,2012-09-11 Positive psychology the pursuit of understanding optimal human functioning is reshaping the scholarly and public views of how we see the science of psychology The Encyclopedia of Positive Psychology provides a comprehensive and accessible summary of this growing area of scholarship and practice 288 specially commissioned entries written by 150 leading international researchers educators and practitioners in positive psychology covers topics of interest across all social sciences as well as business and industry the most current extensive and accessible treatment of the subject available topical primer clarifies basic constructs and processes associated with positive psychology will be useful to students teachers practitioners businesspeople and policy makers **Rebels Within the Ranks** Katherine Pandora,2002-08-22 During the 1930s psychologists Gordon Allport Gardner Murphy and Lois Barclay Murphy emerged from the fields of social and personality psychology to challenge the neo behaviorist status quo in American social science Willing to experiment with the idea of science itself these rebels within the ranks contested ascendent conventions that cast the study of human life in the image of classical physics Drawing on the intellectual social and political legacies of William James radically empiricist philosophy and radical Social Gospel theology these three psychologists developed critiques of scientific authority and democratic reality as they worked at the crossroads of the social and the personal in New Deal America Appropriating models from natural history they argued for the significance of individuality contextuality and diversity as scientific concepts as they explored what they envisioned as the nature of democracy and the democracy of nature **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1983 **A New History of Management** Stephen Cummings,Todd Bridgman,John Hassard,Michael Rowlinson,2017-09-28 This book argues that if we are to think differently about management we must first rewrite management history *Contemporary Theories and Systems in Psychology* Benjamin B. Wolman,2012-12-06 Twenty years is a long time in the life of a science While the historical roots of psychology have not changed since the first edition of this book some of the offshoots of the various theories and systems discussed have been critically reexamined and have undergone far reaching modifications New and bold research has led to a broadening of perspectives and recent developments in several areas required a considerable amount of rewriting I have been fortunate in the last fifteen years to have worked with about 2 000 psychologists and other

behavioral scientists who contributed to several collected volumes I have edited As the editor in chief of the International Encyclopedia of Psychiatry Psychology Psychoanalysis and Neurology I have had the privilege of reading scrutinizing and editing the work of 1 500 experts in psychology and related disciplines In addition I have written several books and monographs and over one hundred scientific papers Armed with all that experience I have carefully examined the pages of the first edition Chapter 8 required substantial rewriting and several new sections have been added to other chapters Current Soviet Psychology Chapter 2 Section 7 New Ideas on Purposivism Chapter 5 Section 4 Recent Developments in the Sociological School of Psychoanalysis Chapter 9 Section 4 and Present Status of Gestalt Psychology Chapter 12 Section 4 Chapter 15 was omitted and two new chapters were added Chapter 14 Humanistic Psychology and Chapter 16 Selected Research Areas

Personality: A Topical Approach Robert B. Ewen, 2013-02-01 Many texts attempt to bridge theory and research They include one or two pages dealing with important theorists Jung Adler Freud et al inserted into chapters focused on academic studies In most cases the discussion fails to do justice to the theorists and the relationship between the ideas and the empirical work is often tenuous at best This book takes a different approach An alternative to Ewen's *An Introduction to Theories of Personality* this book features a chapter on each major type of theory followed by a separate chapter reviewing the relevant research controversies and emerging findings Although it incorporates material from the previous text there are substantial differences *Personality A Topical Approach* devotes more attention to psychological research and considerably less attention to the more minor and abstruse aspects of various theories Chapters are devoted to the following theories psychoanalytically oriented trait cognitive self humanistic and behaviorism While the book emphasizes major research foci the Big Five personality factors self efficacy self esteem and more it also includes a chapter on research methods and coverage of issues often omitted from other texts such as dream interpretation cognitions and the Holocaust scientific inquiry and near death experiences The book also provides study questions a help section and a glossary

The Mass Psychology of Ethnonationalism Dusan Kecmanovic, 2013-11-11 Throughout the nineteenth and twentieth centuries ethnonationalism has left its indelible mark on Europe and every other continent The latest events in the Balkans in central and eastern Europe and in the former Soviet Union unequivocally testify to the power and influence of ethnonationalism at the end of the second millennium What forces make people so committed to their ethnonational groups that they are ready to ignore all other concerns first and foremost the rights and interests of people of other ethnicities What is the social psychological and anthropological underpinning of ethnonationalism And finally why and how do people adhere to nationalist attitudes and beliefs These questions are virtually impossible to avoid for anyone who has directly felt the impact of ethnonationalism but they also present themselves to anyone who has indirectly experienced the prejudices unleashed by ethnonationalist forces This book attempts to answer all these questions by focusing on national feeling and the social psychological and anthropological foundations that underly the sense of belonging that is essential to nationalism No matter

how qualitatively different nationalist attitudes and beliefs are from national sentiment the latter has to be considered in any study of national ism Impressively Free Higgins, Michael W., Burns, Kevin, 2019 Explores the genesis and evolution of Nouwen s multi layered understanding of priestly ministry *Jung on Elementary Psychology* Richard Isadore Evans, Carl Gustav Jung, 1976

If you ally infatuation such a referred **Gordon Allport The Man And His Ideas** book that will provide you worth, acquire the definitely best seller from us currently from several preferred authors.
