On Site Stephan Koplowitz, 2022 On Site Methods for Site Specific Performance Creation is a practical book for artists and students at all levels who create or are learning to create making sited dance works Author Stephan Koplowitz covers specific hands on strategies for an array of issues to consider before during and after embarking upon a project including site selection procuring permits designing the audience experience researching and exploring a site for inspiration and content differences in urban and natural environments definitions of key production roles building effective collaborations with artists and techniques to generate site inspired production elements such as sound music costumes lighting and media He

also offers helpful chapters on project budgeting contract negotiation fundraising marketing documentation and assessment Based on the author s career spanning over 30 years of site specific creation the book also includes the voices of over 24 other artists producers and writers who share their perspectives and experiences on the many topics covered A guide designed to make site work practical intentional and attainable On Site will become a well worn reference for anyone interested in the creative process and discovering the power of site specific works

Contemporary Street Arts in Europe S. Haedicke,2012-11-28 Street theatre invades a public space shakes it up and disappears but the memory of the disruption haunts the site for audiences who experience it This book looks at how the dynamic interrelationship of performance participant and place creates a politicized aesthetic of public space that enables the public to rehearse democratic practices

Theatre and Metatheatre Elodie Paillard,Silvia Sueli Milanezi,2021-11-22 The aim of this book is to explore the definition s of theatre and metatheatre that scholars use when studying the ancient Greek world Although in modern languages their meaning is mostly straightforward both concepts become problematical when applied to ancient reality In fact theatre as well as metatheatre are used in many different sometimes even contradictory ways by modern scholars Through a series of papers examining questions related to ancient Greek theatre and dramatic performances of various genres the use of those two terms is problematized and put into question Must ancient Greek theatre be reduced to what was performed in proper theatre buildings And is everything was performed within such buildings to be considered as theatre How does the definition of what is considered as theatre evolve from one period to the other As for metatheatre the discussion revolves around the interaction between reality and fiction in dramatic pieces of all genres The various definitions of metatheatre are also explored and explicated by the papers gathered in this volume as well as the question of the distinction between paratheatre understood as paratragedy comedy and metatheatre Readers will be encouraged by the diversity of approaches presented in this book to re think their own understanding and use of theatre and metatheatre when examining ancient Greek reality
