medieval European vernacular literature defined itself as the redeployment of classical and post classical antecedents in new
cultural coordinates Many authors of narrative and poetic fiction between the twelfth and fourteenth centuries resisted the
idea that moving a text from one language to another produces a loss of meaning or as today's idiom goes that something
always gets lost in translation Rather they understood the process of vernacular translation as a regenerative cultural
practice and often associated it with depictions of luscious and paradisaical gardens in their works Vernacular Edens presents a
systematic study of a literary commonplace the representation of gardens in medieval fictions as a lens to understand the
theories and practices of translation from Latin to the vernaculars The book argues that the prominent narrative space that
works composed in Old French Italian and Middle English give to garden visit scenes is connected to their vindication of
translation as an always enriching practice A wide range of texts from Marie de France's Lais to the Roman de la Rose from
Dante's Comedy to Boccaccio's Decameron and from Petrarch's Griselda to Chaucer's Clerk's and Merchant's Tales provide
the body of evidence analysed in the book *A Chorographical Description of All the Tracts, Rivers, Mountains, Forests,
and Other Parts of this Renowned Isle of Great Britain* Michael Drayton, 1622 Hadrian's Wall Richard Hingley, 2012-10-04
In Hadrian's Wall A Life Hingley addresses the post Roman history of Hadrian's Wall and considers the ways in which the

guidance he began a long process that amounted to an apprenticeship My mentors dispatched me to various specific locations in the Somerset landscape and at all hours of the night and day I sat on hills and valleys and rocks under sunlight moonlight rain snow and fog and had visions I started to see another landscape behind the apparent landscape It was an apparitional landscape with stars planets galaxies angels spirits of Nature mythic deities divinity As time went on he found himself talking with angels visiting celestial cities and following gnomes He came to understand that at one level we are the planet and that both we and it have an intimate relationship with our galaxy I found myself living inside the myths of the world as if they were expert scripts for real life inner adventures I never once thought I was crazy Why should I Quite the opposite I believed I was finally getting grounded in something real But it would take me twenty years to make sense of it That sense is embodied in The Emerald Modem The Emerald Modem includes direct correspondences between human chakras and the Earth s energy features and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth s energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you re doing Your intent to interact for the benefit of yourself and the planet is all that s required Just as modems dial us into the Internet so the features of the Earth s energy body described in The Emerald Modem help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you re not traveling alone
