Leading Schools in Challenging Times Bruce Anthony Jones, Anthony Rolle, 2016-03-01 Over the past 30 years our public school system has received an unprecedented amount of attention as this concerns methods of school reform and policy strategies for bringing about this reform During the 1980s the emphasis of school reform was on transparency through school community partnerships Business and philanthropy for example became involved with issues of schooling that was unheard of prior to this period The 1980s also gave rise to issues of school finance and student performance that went beyond traditional views that tended to focus on finance adequacy to views that focused more on school finance arrangements that would lead to actual equitable outcomes in student performance The 1990s witnessed the emergence of the comprehensive school reform movement whereby curriculum outsourcing occurred at rates that had never occurred before With this movement the role of teachers and school leaders in the creation of school curriculum diminished as school districts increasingly purchased vendor related curriculum packages which included teacher and leader training modules and methods of curriculum assessment On the heels of the increasing tendency of school districts to outsource school curriculum to curriculum vendors came a rise in demands for school accountability and school outcomes This was particularly evident with the passage of No Child Left Behind Act NCLB 2001 NCLB was also developed within a political context that called for demands in the academic improvement of schools and school districts that housed historically disenfranchised students These demands were particularly important as the nation experienced and continues to experience dramatic increases in student racial and ethnic diversity This volume entitled Leading Schools in Challenging Times Eye to the Future discusses varying types of school leadership in the context of key topics that have been at the center of on going school reform in the United States These topics include challenges opportunities and issues associated with our administrator and teacher leadership pipeline preparation and development leadership and school finance reform leadership and changing student and population demographics leadership and the role of community issues of leadership policy public accountability and school performance outcomes The authors also explicate these issues with a view to the future and the status of leadership in our public school system

Intelligent Leadership John M. Burger, Charles F. Webber, Patricia Klinck, 2007-08-16 Effective educational leadership while highly contextualized is more and more recognized as a crucial input and process variable that determines to a very large extent the outcomes for educational organizations This book pulls together the thinking of 16 educators with diverse backgrounds and experiences all of whom hold keen interests in harnessing the forces that can improve educational opportunity for students Becoming an effective education leader requires more than a passing knowledge of leadership theory it also requires knowledge of what works in education and an on going commitment to thinking about how leadership dynamics and pedagogical theory intersect within contextual realities Intelligent Leadership Constructs for Thinking Education Leaders is intended to stimulate the thinking of every educator who aspires to influence decision making and to

Undertaking Educational Challenges in the 21st Century Cynthia S Sunal, Kagendo Mutua, 2008-10-01 This is Book V in the series *Research on Education in Africa the Caribbean and the Middle East* The series strives to encourage the presentation of evidence based investigations using data collected on site from the three world regions it considers A strong focus is on data

specific to a nation or to a region within a nation as we recognize that nations are diverse often encompassing regions with unique cultural and geographic characteristics The data are rooted in the voices of individuals and communities Such evidential data are analyzed and interpreted within the context of the complex human and natural environments from which they are derived Chapters in the books within the series describe investigations that are part of an effort to continue the publication of an annual compilation of research studies in the three world regions upon which the series focuses The series therefore indicates that the need to develop modern self sufficient independent and post colonial societies is being balanced with the need to strengthen cultural values and identities within these three world regions Book V in the series focuses on how the educational challenges found in these three world regions are addressed The chapters specifically examine related recent research identify useful investigative methodologies identify accomplishments in meeting challenges and consider unresolved challenges The overarching questions presented below were derived from an analysis of the questions methods and conclusions presented in the studies appearing in this book These overarching questions described here reflect the connections between educational issues that emerged in the 20th century and issues identified in the 21st century

Education is Special for Everyone Janet Mulvey, Bruce S. Cooper, Kathryn Accurso, Karen Gagliardi, 2014-07-07 Reform in education has focused mainly on development of new programs and procedures to increase the achievement of the student in the classroom Teacher evaluations are now based on how students perform in their classrooms on yearly standardized tests The advent of integrating students with special needs into the regular classroom has brought both benefits and concerns for average and above average students Special education in the United States has evolved from institutional and segregated environments to inclusion in the regular education classrooms We examine how the practice has affected all students and question whether this change has created equal opportunity for those students without special education needs This book researches and reports on issues of current practice e g teacher preparation placement of students with special needs implications for the average and above in the classroom and the financial costs driving placement decisions in the education system We examine the lowering of standards so all can pass tests report on loss of engagement of students by middle school and mourn the squandering of creativity to appease a mandate Sir Ken Robinson relates that Education is meant to take us into a future we cannot even grasp Yet we continue on a road that lowers our educational ranking internationally We recommend to provide services for all students and take the system from its current state to one that provides a Free and appropriate education for all
