Underlying his program is the internal dichotomy between imaginal soul and intellectualizing spirit Moore prioritizes soul and privileges its mystical worldview which can lead to exaggerating introspectiveness and difficulty bridging a world of imagination with a world of fact This book devises a pragmatic model of spirituality to serve as an alternative to Moore s Platonically inspired soul program This model draws from Moore s vibrant character of soul and redirects it toward a critical social dialogue scientific inquiry and elevated political participation Drawing from the Pragmatism of Charles Sanders Peirce this book uses his famous Three Categories and Modes of Inference to reinterpret Moore s concepts of soul and spirit Peirce s metaphysical categories situate soul in distinct relationship with the world while the epistemological modes guide spirit to educate soul through experience The concluding tripartite model is called a soulful anthropology a nascent foundation for a 21st century American theological anthropology dedicated to the needs and charisms of today s culture
