Education and Rural Development Uday Narain Pareek, 2005 Making education relevant to students is the need of the hour This is best done by knowledge sharing and stimulating experiments In Asia education plays an instrumental role in rural development This book showcases Uday Pareek's experience in shaping **Education for Rural Development** Elliot Compton, 2019-01-29 The book provides an introductory knowledge about education extension education and agricultural extension by incorporating their definition meaning concepts objectives and principles which is basic to learners of extension education There are many challenges faced in effective Information and Communication Technology implementation for rural development Education in rural areas takes place at many different levels from multigrade primary schools to agricultural universities In many countries social change and economic development have been organized by providing not only basic education which is acknowledged as a priority but also specific training to improve techniques employed in the rural economy Furthermore recent work on social capital shows that knowledge constitutes a key element for strengthening rural communities and facilitating their adaptation to change The present book has been designed as a manual which looks into field of rural development and education with a view to enhance the reader's understanding of the educational practices and schemes *Education for Rural Development* Manzoor Ahmed, Philip Hall Coombs, International Council for Educational Development, 1975 Case studies cover the following countries Colombia Cuba Indonesia Jamaica Kenya Mali Sri Lanka Thailand Upper Volta Afghanistan India Republic of Korea Nigeria Philippines Tanzania Thailand Managing Education for Rural Development; Report United Nations Educational, Scientific and Cultural Organization. and demographic context of rural education 2 location and characteristics of rural schools and school districts 3 relationship between the rural school and its community 4 policies and programs benefiting rural education 5 profiles of educators in rural schools 6 effects of education reform in rural schools 7 public school finance policies and practices affecting rural schools 8 assessment of student performance in rural schools 9 education and work experiences of rural youth and 10 the future of rural education The report contains numerous data tables and a section describing statistical data sources and methodology LP      *Education for Rural Development* David Atchoarena,Lavinia Gasperini,2003      *Education In Rural America* Jonathan P. Sher,2019-04-10 Indifference has not always characterized American attitudes toward rural children nor has neglect always been the cornerstone of state and federal policy toward rural education Indeed for nearly a century there was an avid and influential though ultimately ineffective rural school reform movement in the United States But in recent years rural education has become a skeleton in the closet of the education profession More than 14 million children attend rural schools that receive only minuscule amounts of the nation s financial resources and professional attention The authors of this book carefully analyze the beliefs assumptions policies and practices that have shaped and continue to shape education in rural America concluding that conventional wisdom in rural education has proved to be considerably more conventional than wise They offer pragmatic suggestions for changes in rural schools in educational policy and in programs designed for rural communities As Robert Coles tells us in his Foreword to the book they give us clear strong uncluttered prose a good sign that they are able to offer sensible honest unpretentious suggestions and useful ideas They give us a social history that enables perspective and they give us practical well argued suggestions for a public policy both humane and capable of realization for our rural areas      *The Role of Education in Rural Development, Etc.
