Educational Knowledge Thomas S. Popkewitz, 2000-01-06 An examination of educational reform and change throughout the world focusing on how issues of power and governance within states affect school practice and policy making

Towards Powerful Educational Knowledge Jim Hordern, Johan Muller, Deng Zongyi, 2024-04-11 This book explores what constitutes valid or powerful educational knowledge and the role of educational theorising in questions of educational practice It examines the challenges facing the deliberative educational knowledge traditions of educational foundations curriculum theory and Didaktik as a consequence of the rising tide of empiricism in educational research the what works agenda in global educational reform and internal fragmentation within the traditions themselves By examining the potential for the reconfiguration or reconstruction of these traditions the book explores the possibility of reinvigorating deliberative educational theorising in ways that could provide a meaningful basis for educators to conceptualise their practice and a robust response to policies that seek to narrow educational activity to a focus solely on learning outcomes and technical efficiency This insightful volume will be of interest to all those concerned about the future of education and particular the relationship between educational theory and educational practice in curriculum studies teacher education and professional development It will be a key resource for teachers curriculum developers policy makers and researchers in the field of curriculum theory and didactics The book was originally published as a special issue of Journal of Curriculum Studies

Decolonizing Educational Knowledge Ann E. Lopez, Herveen Singh, 2024-06-03 This volume explores theories and practices of decolonizing education drawing on international perspectives from scholars across the globe to engage new knowledges and build solidarities across different spaces Decolonization is an ongoing process in which educators community members and practitioners alike have a stake in challenging Eurocentric paradigms and ways of knowing The book showcases the contributions of praxis oriented scholars and practitioners who seek to engage in decolonizing praxis that unsettles educational norms forging new ways of thinking about teaching learning and leadership *Proceedings of the 2024 5th International Conference on Education, Knowledge and Information Management (ICEKIM 2024)* Yunshan Kuang, Lixin Zhu, Xiangyang Zhang, Intakhab Alam Khan, 2024-08-31 This is an open access book ICEKIM is an annual conference that has been held four times 2024 5th International Conference on Education Knowledge and Information Management ICEKIM 2024 will be held on April 19 21 2024 in Chengdu China Information Technology in the context of education is revolutionizing the way we store process and communicate information making it more accessible and meaningful Advanced analytics artificial intelligence and cloud computing are some of the technological developments that have profoundly impacted the way educational institutions manage and use data leading to more personalized and effective learning experiences ICEKIM will focus on how information management promotes the effective utilization of knowledge and educational development how to build effective information management assistance systems and how to promote widespread

adoption to meet the practical needs of society ICEKIM 2024 is to bring together innovative academics and industrial experts in the field of Education Knowledge and Information Management to a common forum The primary goal of the conference is to promote research and developmental activities in Education Knowledge and Information Management and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world 1975 *Federal Funding for Education Knowledge Production and Utilization* Carnot E. Nelson, Ward S. Mason, 1977 Education, Knowledge and Truth David Carr, 2003-09-02 In the 1960s educational philosophers showed enormous interest in the nature of knowledge and the curriculum This work responds to the need to reinstate conceptual problems of truth knowledge and the curriculum on the agenda for debate *Knowledge, Education, and Cultural Change* Richard Brown, 2018-05-11 Originally published in 1973 *Knowledge Education and Cultural Change* surveys the present state of the field of the sociology of education The book addresses the claim that much of the research in the sociology of education should be extended to issues of wider theoretical significance the book provides theoretically informed analysis of situations or processes developing new theoretical perspectives and concepts The papers also reflect the appropriate theoretical framework for the sociology of education Underpinning this framework it looks at the importance of social stratification arguing that too much work in the sociology of education is carried out using oversimplified models

Language, Knowledge and Pedagogy Frances Christie, J. R. Martin, 2009-04-01 An in depth exploration of the nature of language knowledge and pedagogy providing a progressive analysis of knowledge structures at work in educational institutions Enablers of Organisational Learning, Knowledge Management, and Innovation Preethi Kesavan, 2020-11-20 This book establishes constructivist interpretivist and linguistic approaches based on conventions about the nature of qualitative and text data the author's influence on text interpretation and the validity checks used to justify text interpretations Vast quantities of text and qualitative data in organizations often go unexplored Text analytics outlined in this book allow readers to understand the process of converting unstructured text data into meaningful data for analysis in order to measure employee opinions feedback and reviews through sentiment analysis to support fact based decision making The methods involve using NVivo and RapidMiner software to perform lexical analysis categorization clustering pattern recognition tagging annotation memo creation information extraction association analysis and visualization The methodological approach in the book uses innovation theory as a sensitizing concept to lay the foundation for the analysis of research data suggesting approaches for empirical exploration of organizational learning knowledge management and innovation practices amongst geographically dispersed individuals and team members Based on data obtained from a private educational organization that has offices dispersed across Asia through focus group discussions and interviews on these topics the author highlights the need for integrating organizational learning knowledge management and innovation to improve organizational performance exploring perspectives on collective relationships and networks organizational

characteristics and structures and tacit and overt values which influence such innovation initiatives In the process the author puts forward a new theory which is built on three themes relationship and networks knowledge sharing mechanisms and the role of social cognitive schema that facilitate emergent learning knowledge management and innovation *Educational Tests for Use in Elementary Schools* Charles Watters Odell, University of Illinois (Urbana-Champaign campus).
