Educational Board Games:

More Board Game Education Jeffrey P. Hinebaugh, 2019-01-12 This book is a follow up to Board Game Education. However, unlike many of the board games discussed in Board Game Education, this book identifies and discusses five board games that each develop critical educational skills in reasoning, problem solving, language arts, mathematics, social sciences, and communication. They are the super foods of the board game world. More Board Game Education answers the questions unlikely to ever be asked: If I were stranded on a desert island with only five board games and I wanted to educate my kids, what board games would I choose? Each board game discussed in this book is a complete educational tool that will develop all of the critical educational skills that research has shown to not only be crucial to educational success but also success in the workplace. As a bonus, these games are great to play, easy to learn, and most importantly, affordable to own for any family or teacher. This is a very important point to remember: this is not a list of the greatest board games ever or the very best educational board games on the market. Rather, this book discusses board games which every parent, teacher, and/or school program can realistically own in multiple copies and incorporate as a learning tool. *Educational Board Games, Puzzles and Toy Templates for Free on the Web* Kirsten Anderberg, 2011-08-25 Make your own educational board games, puzzles, cards, and toys for free using your printer and online resources. This book is full of Web addresses for hundreds of activities you can download, then cut, assemble, and play with. You can make your own paper tangrams, dice, or spinners. Make your own flashcards, quizzes, or graphs. Print out board games to learn about everything from exponents and algebra to safety in natural disasters. Play holiday-themed games or make your own paper Go, Chess, Boggle, or Scrabble games. Create your own words for game boards or use pre-made game boards. You can even print out car bingo for travels. Learn how to use Web resources to make learning fun. All basic subjects are covered with these resources, and they make a great addition to any classroom in addition to just being fun for family play time. The author, Kirsten Anderberg, took graduate-level classes in education and technology at CA State University at Northridge while earning her MA Degree, which is how she became interested in Web resources for teaching. She also gave her son Gibraltar educational games in his youth, which he now thanks her for as an adult. Giving kids educational games helps give them a leg up for school. Kirsten writes articles about educational technology for several outlets and loves making paper toys and games. [A Board Game Education](#) Jeffrey P. Hinebaugh, 2009-07-16 A Board Game Education is an entertaining and valuable resource for parents, teachers, educators, and anyone who appreciates the fun and entertainment provided by classic traditional board games. The book provides an informative analysis of how classic board games that everyone has played and probably owns are not only great family entertainment but also develop core educational skills that have been proven to lead to academic achievement. Through A Board Game Education, readers learn a bit of the fascinating history, trivia, and little-known facts regarding the most loved board games of all time, i.e., how Monopoly was used by WWII POWs to escape. At the same time, Hinebaugh identifies the distinct educational skills developed

by each of these games and explores in detail how the play of these games cultivates such skills A Board Game Education also provides valuable suggestions about how to modify and vary these classic board games to specifically enhance additional core educational skills and concepts Who would have thought that Candy Land could be modified into a strategy game and Chutes and Ladders could be used to teach algebraic equations and advanced math *Educational Board Games* Atma Vidya, Atma Vidya Educational Foundation, 1997
