Shabbir, 2005 Highlights the state of affairs in nine districts of the erstwhile Central Provinces and Berar alongwith the interpretation of unknown facts enlarging it from objective empiricism to historicism on the basis of sociological and historical perspectives Salient Features i It identifies the changeability of the educational pattern from indigenous nature to modern perspectives at all levels ii It highlights the emergence of leadership new values nationalism and freedom struggle and also shows how education works as condition

instrument and as an effect of social change in the region iii It explains the extent of adoption and non adoption of educational facilities at all levels in the context of socio cultural conditions iv It reveals how English models were initiated too slavishly students were being crammed with undigested knowledge and teachers obsessed with results v It highlights the Hitavada s relentless crusade for a separate university forecast of Jabalpur and Amravati Universities and demand for more autonomy in the province vi It shows how the period of four decades in question transformed a society vii It refers over all educational backwardness of females low castes and aboriginal tribes with a growing assertion of claims to social and political recognition viii It reveals how minorities interest in education became manifest through conferences and C P Legislative Council ix It highlights positional and structural changes occurred due to education In short this book shows how poor peripheral society of Vidarbha could make headway on the guidelines of core societies and achieve the objective of sustainable development through educational expansion

Sport Coach Education, Development, and Assessment

Liam McCarthy,2024-08-19 Sport Coach Education Development and Assessment offers a range of coach assessment ideas and practices from leaders in the coach education and development field A combination of theory and practice focused chapters aims to stimulate thoughts dialogue and actions Sport coaches play an increasingly important role in delivering positive outcomes through sport for individuals groups and societies at large It is understandable therefore that attention is increasingly being directed towards how coaches are supported in their roles Perhaps the most dominant support mechanism is large scale coach education programmes These professional development opportunities invite coaches to participate in a learning experience which typically involves exposure to new ideas opportunities to practice and an assessment Much has been said and written about the extent to which these programmes are effective and the degree to which they contribute to coach learning or not These discussions typically reference the learning environment nature of the curriculum and report coaches experiences However lacking in these discussions is any deliberation over coach assessment as a consistent feature of nearly all of these programmes the world over This book reflects a very deliberate attempt to platform and promote the issue of coach assessment This book is designed to offer support and guidance to sport coaches who are engaged in assessment coach educators developers who are delivering assessment activities and programme designers policy architects who are creating learning opportunities for coaches

Resources in Education ,1998

Impacts of Study Abroad on Higher Education Development Nobuko Kayashima,Miki Sugimura,Kazuo Kuroda,Yuto Kitamura,2024-08-10 This open access book is an exceptional contribution to the burgeoning fields of higher education development and higher education internationalization as it empirically examines the impact of the study abroad experiences of faculty members on individual and institutional development The research and its outcomes presented here utilize results from a large scale survey and interviews of faculty at ten leading universities in Malaysia Indonesia Vietnam and Cambodia The analyses show that the study abroad experiences of faculty members impact not only improvements in research quality and development of

educational programs but also serve as the foundation for international activities at the university crucially important in today's higher education landscape. On the other hand, the research reveals the rapid development of higher education at the local and regional levels including the development of graduate programs for faculty training in the home country leading to increasing rates of study abroad within Southeast Asia. Through the analyses presented, this book offers a new understanding of higher education development and internationalization in Southeast Asia by examining the impact of study abroad on the academic profession, higher education institutions, and the higher education sector.

DEVELOPMENT OF EDUCATION IN HYDERABAD KARNATAKA REGION Dr. Shridhar Boranna, 2023-12-02 One of the most important ingredients of socio-economic development that has attracted the attention of the planners, policy makers, and leaders in the recent past is education. It is an established fact that education is an important catalyst of socio-economic transformation. In the advanced industrial societies of the world, education is provided by the states as a matter of right to all citizens. 1 The role of education was recognised as vital in arousing an awakening among the Indian masses even in the pre-independence era. Its contribution in breaking the shackles of slavery cannot be undermined as far as it helped in the growth of an enlightened intelligentsia which carried forward not only the movement for independence but also a relentless struggle for socio-economic reforms. After independence, our planners, policy makers, and leaders placed immense faith in education as an important means of socio-economic transformation and modernization. Since the attainment of independence in 1947, Central and State governments of India very rightly embarked on a crusade against ignorance by expanding the facilities for education at all levels. 2 The number of schools and of students attending them began to increase by leaps and bounds all over the country. There is no denying the fact that India has made tremendous progress in the field of education, especially after independence. But it may be mentioned here that our present education system is not without maladies and inadequacies.

The Changing World of Outdoor Learning in Europe Peter Becker, Barbara Humberstone, Chris Loynes, Jochem Schirp, 2018-06-12 The Changing World of Outdoor Learning in Europe sets out to provide a comprehensive analysis of the economical and political changes that have occurred in European outdoor culture in the preceding two decades from a diverse range of perspectives including institutional, theoretical, national, and educational views. The book looks at how outdoor education has been transformed into an increasingly global field where established and influenced practices have been introduced into modernising and democratising nations. With contributions from the members of the board of the European Institute of Outdoor Adventure Education and Experiential Learning and representatives of the networks that stand behind it, this unique book provides thorough factual analyses and examinations of outdoor learning that have never been presented before. The book contains contributions from across Europe with authors from the UK, Germany, Finland, Sweden, Slovenia, Poland, Norway, and the Czech Republic. Chapters within the volume by non-European authors provide another perspective on the European story in a wider context. As a whole, the book will stimulate the ongoing debate about the nature

function and organisation of outdoor education around the globe The Changing World of Outdoor Learning in Europe will be of great interest to academics researchers and postgraduate students in the fields of outdoor education leadership and recreation and outdoor sport environmental and leisure studies It should also be essential reading for those involved in outdoor organisations in Europe and worldwide
