## **Econocide British Slavery In The Era Of Abolition:**

**Econocide** Seymour Drescher, 2010 In this classic analysis and refutation of Eric Williams's 1944 thesis Seymour Drescher argues that Britain's abolition of the slave trade in 1807 resulted not from the diminishing value of slavery for Great Britain but instead from the British public's **Econocide** Seymour Drescher, 1977 **Quakers and Their Allies in the Abolitionist Cause, 1754-1808** Maurice Jackson, Susan Kozel, 2016-03-17 This volume explores the significant connections between the Quaker community and the abolitionist cause in America. The case studies that make up the collection mainly focus on the greater Philadelphia area, a hotbed of the abolitionist movement and the location of the first American abolition society founded in 1775. Despite the importance of Quakers to the abolitionist movement, their significance has been largely overlooked in the existing historiography. These studies will be of interest to scholars of slavery and abolition, religious history, Atlantic studies, and American social and political history.

**The Routledge History of the Modern Maritime World since 1500** Kenneth Morgan, 2025-05-01 The Routledge History of the Modern Maritime World since 1500 provides a wide-ranging set of chapters covering the sixteenth century to the present which represent the main lines of current enquiry in maritime history. Over the past half century, maritime history has become a significant sub-field of historical research that intersects with broader historical concerns such as oceanic history, global patterns of production and consumption, and the maritime heritage industry. Informed by original research, an engagement with current historiographical concerns, and a global geographical reach, the book is divided into sections covering shipping, ports, merchants, and trade, maritime environments, coastal zones, and the human dimension. Chapters focus on different countries across different ranges of time and also with different methodological approaches. The six sections of this book show the significant areas central to the study and understanding of the modern maritime world, and collectively they highlight the areas in which the themes pursued by maritime historians have advanced and are currently moving. This book will appeal to various academic audiences: students will find chapters dealing with major topics in maritime history that will help them in their courses; for professional scholars in history, archaeology, heritage studies, historical sociology, and economics, chapters outline some of the latest research in the field.

*Abolitionism and Imperialism in Britain, Africa, and the Atlantic* Derek R. Peterson, 2010-01-05 The abolition of the slave trade is normally understood to be the singular achievement of eighteenth-century British liberalism. *Abolitionism and Imperialism in Britain, Africa, and the Atlantic* expands both the temporal and the geographic framework in which the history of abolitionism is conceived. Abolitionism was a theater in which a variety of actors—slaves, African rulers, Caribbean planters, working-class radicals, British evangelicals, African political entrepreneurs—played a part. The Atlantic was an echo chamber in which abolitionist symbols, ideas, and evidence were generated from a variety of vantage points. These essays highlight the range of political and moral projects in which the advocates of abolitionism were engaged, and in so doing, it joins together geographies that are normally studied in isolation. Where empires are often understood to involve the

government of one people over another Abolitionism and Imperialism shows that British values were formed debated and remade in the space of empire Africans were not simply objects of British liberals benevolence They played an active role in shaping and extending the values that Britain now regards as part of its national character This book is therefore a contribution to the larger scholarship about the nature of modern empires Contributors Christopher Leslie Brown Seymour Drescher Jonathon Glassman Boyd Hilton Robin Law Phillip D Morgan Derek R Peterson John K Thornton An Economic History of West Africa A. G. Hopkins, 2019-10-17 This pioneering and celebrated work was the first and remains the standard account of the economic history of the huge area conventionally known as West Africa The book ranges from prehistoric times to independence and covers the former French territories as well as those colonised by the British It criticises conventional beliefs about economic backwardness offers an alternative account that explains the particular configuration of poverty that characterised the pre colonial period and assesses the consequences of the region's interaction with the wider world from the growth of the Saharan and Atlantic trades to the rise and demise of colonial rule This edition contains a substantial new Introduction that discusses the development of the subject during the past 50 years evaluates the debate over the original interpretation and provides a valuable guide to additional reading bringing the reader up to date with current scholarship on the subject as well as providing avenues for further independent research Appearing at a time when the study of African economic history is enjoying a revival and is engaging economists as well as historians the book fills a large gap in African studies provides newcomers with a stimulating point of entry into the subject and contributes to our understanding of wider issues of global underdevelopment *The Atlantic Slave Trade* Jeremy Black, 2022-12-30 Originally published as a collection in 2006 the essays in this volume discuss the reasons for the end of the slave trade and the institution of slavery itself They examine the rise of the abolitionist movement in different countries and how the move towards abolition was swifter in some areas than others Attention is also paid to the economic consequences of abolition popular attitudes to abolition and the role of the Church The volume also has an introduction by the editor commenting on the contribution each essay makes *The Atlantic Slave Trade in World History* Jeremy Black, 2024-02-05 Now in its second edition *The Atlantic Slave Trade in World History* has been updated to include recent scholarship and an analysis of how debates have changed in light of recent key events such as the Black Lives Matter movement Primarily focused on the Atlantic Slave Trade this study places slavery within a broader world context and includes significant detailed coverage of Africa With a chronological approach it guides students through the origins of the Atlantic Slave Trade to its expansion and eventual abolition Its final chapters explore the legacy of the Atlantic Slave Trade by comparing it to other systems of slavery outside of the Atlantic region and analyze the persistence of modern day slavery As well as offering an analysis of historiography the updated bibliography and conclusion which considers the recent Black Lives Matter protests and their aftermath provide a fresh account of how slavery has shaped our understanding of the modern world Unmatched in its

breadth of information chronological sweep and geographical coverage The Atlantic Slave Trade in World History is the most useful introductory resource for all students who study the Atlantic Slave Trade in a world context **Economic Growth and the Ending of the Transatlantic Slave Trade** David Eltis,1987 This is the first study to consider the consequences of Britain's abolition of the Atlantic slave trade for British imperial expansion and the world economy Abolitionism and the Persistence of Slavery in Italian States, 1750-1850 Giulia Bonazza,2018-12-13 This volume offers a pioneering study of slavery in the Italian states Documenting previously unstudied cases of slavery in six Italian cities Naples Caserta Rome Palermo Livorno and Genoa Giulia Bonazza investigates why slavery survived into the middle of the nineteenth century even as the abolitionist debate raged internationally and most states had abolished it She contextualizes these cases of residual slavery from 1750 1850 focusing on two juridical and political watersheds after the Napoleonic period when the Italian states with the exception of the Papal States adopted constitutions outlawing slavery and after the Congress of Vienna when diplomatic relations between the Italian states France and Great Britain intensified and slavery was condemned in terms that covered only the Atlantic slave trade By excavating the lives of men and women who remained in slavery after abolition this book sheds new light on the broader Mediterranean and transatlantic dimensions of slavery in the Italian states *The World of Colonial America* Ignacio Gallup-Díaz,2017-04-28 The World of Colonial America An Atlantic Handbook offers a comprehensive and in depth survey of cutting edge research into the communities cultures and colonies that comprised colonial America with a focus on the processes through which communities were created destroyed and recreated that were at the heart of the Atlantic experience With contributions written by leading scholars from a variety of viewpoints the book explores key topics such as The Spanish French and Dutch Atlantic empires The role of the indigenous people as imperial allies trade partners and opponents of expansion Puritanism Protestantism Catholicism and the role of religion in colonization The importance of slavery in the development of the colonial economies The evolution of core areas and their relationship to frontier zones The emergence of the English imperial state as a hegemonic world power after 1688 Regional developments in colonial North America Bringing together leading scholars in the field to explain the latest research on Colonial America and its place in the Atlantic World this is an important reference for all advanced students researchers and professionals working in the field of early American history or the age of empires *The Politics of Reproduction* Katherine Paugh,2017-04-21 Many British politicians planters and doctors attempted to exploit the fertility of Afro Caribbean women's bodies in order to ensure the economic success of the British Empire during the age of abolition Abolitionist reformers hoped that a homegrown labor force would end the need for the Atlantic slave trade By establishing the ubiquity of visions of fertility and subsequent economic growth during this time The Politics of Reproduction sheds fresh light on the oft debated question of whether abolitionism was understood by contemporaries as economically beneficial to the plantation colonies At the same time Katherine Paugh makes novel assertions about the importance of Britain's Caribbean colonies in the emergence of population

as a political problem The need to manipulate the labor market on Caribbean plantations led to the creation of new governmental strategies for managing sex and childbearing such as centralized nurseries discouragement of extended breastfeeding and financial incentives for childbearing that have become commonplace in our modern world While assessing the politics of reproduction in the British Empire and its Caribbean colonies in relationship to major political events such as the Haitian Revolution the study also focuses in on the island of Barbados The remarkable story of an enslaved midwife and her family illustrates how plantation management policies designed to promote fertility affected Afro Caribbean women during the late eighteenth and early nineteenth centuries The Politics of Reproduction draws on a wide variety of sources including debates in the British Parliament and the Barbados House of Assembly the records of Barbadian plantations tracts about plantation management published by doctors and plantation owners and missionary records related to the island of Barbados

A Global History of Anti-Slavery Politics in the Nineteenth Century W. Mulligan, M. Bric, 2013-05-23 The abolition of slavery across large parts of the world was one of the most significant transformations in the nineteenth century shaping economies societies and political institutions This book shows how the international context was essential in shaping the abolition of slavery

Crossroads of Empire University of the West Indies (Cave Hill, Barbados). History Department, 1994 Geschiedenis van de verhoudingen tussen Europa en het Caribisch gebied tussen 1492 en 1992 Een verzamelbundel met bijdragen over dit onderwerp van verschillende Caribische wetenschappers

**Slavery, Abolitionism and Empire in India, 1772-1843** Andrea Major, 2012-01-01 In Slavery Abolitionism and Empire in India 1772 1843 Andrea Major asks why at a time when the East India Company's expansion in India British abolitionism and the missionary movement were all at their height was the existence of slavery in India so often ignored denied or excused By exploring Britain's ambivalent relationship with both real and imagined slaveries in India and the official evangelical and popular discourses that surrounded them she seeks to uncover the various political economic and ideological agendas that allowed East Indian slavery to be represented as qualitatively different from its transatlantic counterpart

**The End of Slavery in Africa** Suzanne Miers, 1988 This is the first comprehensive assessment of the end of slavery in Africa Editors Suzanne Miers and Richard Roberts with the distinguished contributors to the volume establish an agenda for the social history of the early colonial period when the end of slavery was one of the most significant historical and cultural processes The End of Slavery in Africa is a sequel to Slavery in Africa edited by Suzanne Miers and Igor Kopytoff and published by the University of Wisconsin Press in 1977 The contributors explore the historical experiences of slaves masters and colonials as they all confronted the end of slavery in fifteen sub-Saharan African societies The essays demonstrate that it is impossible to generalize about whether the end of slavery was a relatively mild and nondisruptive process or whether it marked a significant change in the social and economic organization of a given society There was no common pattern and no uniform consequence of the end of slavery The results of this wide ranging inquiry will be of lasting value to Africanists and a variety

of social and economic historians      Migration, Trade, and Slavery in an Expanding World ,2009-05-06 The twelve essays explore three connected aspects of European expansion in the period between 1500 and 1900 migration trade and slavery with some attention given to present day echoes from that era The book s first section deals with European migration to transatlantic and Asian destinations the second and third sections focus on the Atlantic slave trade and representations of slavery and the final section analyzes the demise and legacy of slavery The authors reach surprising conclusions European expansion did not entail major economic benefits the small scale of the Europeans intercontinental migration never jeopardized their colonial projects and the unique popular nature of British abolitionism can be explained in part by the growth of the newspaper press in the mid eighteenth century which regularly reported about slave ship revolts      **Between Blood and Gold** Frédérique Beauvois,2016-12-01 Today a century and a half after the abolition of slavery across most of the Americas the idea of monetary reparations for former slaves and their descendants continues to be a controversial one Lost among these debates however is the fact that such payments were widespread in the nineteenth century except the victims were not slaves but the slaveholders deprived of their labor This landmark comparative study analyzes the debates over compensation within France and Great Britain It lays out in unprecedented detail the philosophical legal political and economic factors at play establishing a powerful new model for understanding the aftermath of slavery in the Americas

*Britain's History and Memory of Transatlantic Slavery* Katie Donington,Ryan Hanley,Jessica Moody,2016 This collection brings together local case studies of Britain s history and memory of transatlantic slavery and abolition including the role of individuals and families regional identity narratives sites of memory and forgetting and the financial architectural and social legacies of slave ownership      *Blind Memory* Marcus Wood,2000 A study of Atlantic slavery generated by the visual arts It considers in detail four sites which have generated particularly influential imagery the middle passage flight escape slave torture punishment and the popular imagery which evolved around Stowe s classic abolition text *Uncle Tom s Cabin*
