Contribución a la crítica de la economía política Karl Marx, 1990 Este es un libro clásico merecedor de una octava edición ya que es una lectura indispensable para todos aquellos estudiosos de los textos metodológicos y políticos de Marx *Curso de introducción a la economía política* Paul Israel Singer, 1999-01-01 No faltan manuales de introducción a la economía ni marginalistas keynesianos ni marxistas lo que falta es una exposición comparativa y crítica de las dos corrientes Con base en este raciocinio el autor prepara las lecciones que integran este libro donde el lector encuentra una exposición clara de los temas principales de la economía política según los enfoques mencionados teorías del valor excedente acumulación de capital moneda crédito y empleo comercio internacional desarrollo económico *Economía política* Clemente Vidaurre y Orueta, 1902 Economía política Friedrich Kleinwächter, 1929 Principios de Economía Política Carl Menger, Clasicos-economia, 2012-10-23 La historia de la economía política es rica en ejemplos de precursores olvidados cuya obra no despertó ningún eco en su tiempo y que sólo fueron redescubiertos cuando sus ideas más importantes habían sido ya difundidas por otros Es también rica en notables coincidencias de descubrimientos simultáneos y de singulares peripecias de algunos libros Pero difícilmente se encontrar en esta historia ni en la de ninguna otra rama del saber el ejemplo de un autor que haya revolucionado los fundamentos de una ciencia ya bien establecida y haya conseguido por ello general reconocimiento y que a pesar de todo haya sido tan desconocido como Carl Menger Apenas si existen casos paralelos al de los Principios que tras haber ejercido un influjo firme y permanente hayan tenido debido a causas totalmente accidentales tan limitada difusión Curso de economía política Antonio Torrents y Monner, 1911 **Economía política** Ernesto Miracle Arrufat, 1916 *Tratado didáctico de economía política* Mariano Carreras y González, 1865 Curso de economía política Melchor Salvá, José María de Olózaga y Bustamante, 1881 **Elementos de economía política...** Joseph

Garnier,1875 Elementos fundamentales para la crítica de la economía política Karl Marx,1998-01-01 Esta obra constituye la primera de las investigaciones que Marx iniciara en Noviembre de 1850 en Londres cuando después de la derrota de la revolución de 1848 se retira de la escena pública para reanudar sus anteriores estudios de economía. A pesar de su estado fragmentario de ser sólo el borrador de una obra que él no llega a terminar constituyen textos de fundamental importancia para comprender el proceso de elaboración de la crítica marxista de la economía política.

Sobre la crítica de la economía política Karl Marx,2024-05-09 Contribución a la crítica de la economía política o Sobre la crítica de la economía política 1859 es un tratado breve que Marx publica en Hamburgo. Aunque contiene desarrollos económicos prácticos su parte más célebre es el Prefacio donde expone por primera vez la idea del materialismo histórico. En esta obra Marx introduce conceptos fundamentales como las fuerzas productivas y las relaciones de producción explicando que la estructura económica de la sociedad la base condiciona pero no determina los sistemas jurídicos e ideológicos la superestructura. Aquí se formula la tesis: No es la conciencia de los hombres la que determina su ser sino inversamente el ser social el que determina su conciencia. Este planteamiento sienta un principio central de toda su teoría: que la realidad material y las relaciones de producción moldean las formas políticas e intelectuales. En cuanto a la economía el libro critica los planteamientos de Adam Smith y Ricardo incorporando ya la noción de plusvalía y preparando el terreno para la producción de plusvalor que Marx elabora en *El Capital*. Incluye también tablas de categorías económicas: salarios, beneficio, renta, etc. que ordenan su visión del capitalismo. En conjunto la obra afianza el método analítico de Marx sobre la economía y la sociedad y proclama que el motor de la historia son los procesos económicos. El año 1859 es relevante porque precede la publicación de *El Capital*. La Contribución representa en efecto el esbozo de todo el proyecto que Marx estaba a punto de emprender de lleno. Se escribió en el Londres de la muerte de la Segunda República francesa: un ambiente de esperanzas revolucionarias frustradas y fue concebido con el propósito de dar continuidad académica a su pensamiento. La obra enlaza internamente con escritos anteriores como los Manuscritos de 1844 y *Salario, trabajo, asalariado y capital* pues retoma sus temas en un marco más sistemático. Asimismo prepara al lector para *El Capital* al asentar las leyes económicas básicas. Aunque fue un texto de menor repercusión popular su Prefacio tuvo una resonancia duradera: es una de las bases teóricas clásicas del marxismo ya que define formalmente la relación entre economía y política. Históricamente marca la madurez intelectual de Marx mostrando que su análisis económico era una derivación directa de su concepción filosófica: la economía no se estudia en abstracto sino como instrumento para comprender el desarrollo histórico de la humanidad. Esta moderna edición crítica incluye un esclarecedor epílogo que traza las relaciones intelectuales de Marx con pensadores y filósofos revolucionarios entre ellos Hegel, Feuerbach, Engels y Ricardo con una investigación sobre su desarrollo ideológico y sus teorías económicas; una cronología completa de su vida y obra; un glosario de terminología marxista y un índice detallado de todos los escritos de Marx. Esta traducción profesional traduce la densa prosa dialéctica de Marx a un lenguaje moderno para preservar la fuerza y la precisión originales del texto. Combinada

con el material académico amplificador esta edición es una exploración indispensable de las obras clásicas de Marx y su perdurable influencia hegeliano protestante en las esferas política religiosa económica y filosófica El capital: crítica de la economía política, tomo I, libro I Karl Marx, 2014-06-23 La obra se considera como un cleo de la teoría del nacimiento y de la circulación del capital así como de su función determinante en el proceso entero de los bienes económicos Wenceslao Roces rehizo su traducción para esta nueva edición que además incluye prólogos de Ignacio Perrotini y Ricardo Campa Economía política desde Estambul a Potosí Fernando Ramos Palencia, Barolomé Yun Casalilla, 2012-07 En la actualidad los economistas y los historiadores debaten sobre el papel ejercido por las instituciones y los estados en el desenvolvimiento económico a largo término durante la época Moderna En general se asume que únicamente los países de la América del Norte el estado y los derechos de propiedad se van configurar de tal manera que serían capaces de generar crecimiento económico a gran escala De hecho la aplicación de esta perspectiva ha acentuado el tópico de una cierta ineficacia de las instituciones del mundo mediterráneo y ofrece una visión estereotipada del papel del estado Este libro pretende ser una contribución crítica que establezca sinergias con los economistas actuales y coadyuve a la comprensión de la historia económica en las sociedades preindustriales del sur de Europa **Economía política y crisis** Pedro López Díaz, 1989 Economía Política Edmund S.
