Economic Reforms And Poverty Alleviation:

Economic Reforms and Poverty Alleviation Reeta Mathur, 2002 In Indian context *Economic Reforms and Poverty Reduction* A. Santhosh Mathew, Mark Robinson, 2000 Examines trends in poverty in India during the 1970s and 1980s and explores the relationship between economic reform and poverty reduction during the 1990s Discusses issues of poverty measurement and targeting and describes poverty reduction programmes implemented in nine States Assesses government policies and proposes an action agenda Looks at experiences of economic reforms and poverty reduction in other countries

Poverty Alleviation, 1998 *Economic Reforms and Poverty Alleviation in India* C. H. Hanumantha Rao, Hans Linnemann, 1996 Following a severe balance of payments crisis India launched a series of economic reforms in 1991 The essays in this volume present the latest information on the stabilization and structural adjustment measures introduced in India and their impact upon the balance of payments growth employment inflation and poverty In the light of data from these areas the contributors examine issues including differentials in urban and rural poverty whether the rise in the incidence of poverty is an inevitable consequence of the reform process and the role the state can play in the new order *Economic Reforms & Poverty Alleviation*, 2002 *Endogenous Origins of Economic Reforms in India and China* Rajiv G. Maluste, 2011-07 Attitudinal change in the context of economic reforms has been referred to in Rodrik and Subramanian 2005 DeLong 2003 Kohli 1989 and Panagariya 2004 2008 This dissertation provides empirical support for this literature establishing an earlier start for India's economic policy liberalisation than presented in stylized accounts It demonstrates the endogenous nature of the origins of these policy shifts Attitudinal change literature had directed attention to the need for further research into India's policy changes of the early 1980s and for studying broader comparability issues in other developing countries This research makes a contribution towards filling these gaps This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984 These findings depart from the conventional view that India's economic policy changes were initiated by the Narasimha Rao government in 1991 or by the Rajiv Gandhi administration in the mid to late 1980s The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership's attitudinal changes The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977 The new approach entailed more openness towards private enterprise scaling back the role of the public sector and starting India's integration into the global economy The dissertation also discusses the comparable role of attitudinal changes at the start of China's policy liberalisation led by Deng

Xiaoping from 1978 to 1982 It focuses on the significance and challenges faced by China's political leadership in bringing about societal attitudinal change The dissertation concludes by drawing comparisons between India and China developing a linkage between their endogenous attitudinal changes and economic policy liberalisation **Economic Reform in Africa** David E. Sahn, Paul Anthony Dorosh, 1994 **Economic Reforms and Poverty Alleviation in Tanzania** S. M. Wangwe, 1997 **Poverty & Economic Reforms** Ved P. Luthra, 2005 In Indian context Economic Reform in Asia Sara Hsu, 2016-02-26 Economic Reform in Asia compares and analyzes the reform and development patterns of China India and Japan from both historical and developmental perspectives Sara Hsu specifically focuses on China's reform and opening up in 1979 India's accelerated liberalization in 1991 and the outset of the Meiji Restoration in Japan in 1878 This detailed overview of growth patterns in Asia's largest economies is invaluable especially in its determination to understand which development policies work what role institutions play in development and what issues may arise during said development The book first provides an overview of the countries development trajectories and introduces the theoretical constructs associated with them The text focuses on key aspects of development for comparison such as poverty and inequality rural to urban migration human capital and the impact of development on the environment trade and economic future of these three countries The relative success of reforms and their political and economic effects are also discussed This comprehensive book will be of interest to students as it provides an impressive overview of three Asian countries development as well as for scholars in the field who are looking for a thoughtful and complex discussion of reform from different perspectives *Economic Reforms in India and China* Dr. R.K. Mishra, Prof. Zhou Shaopeng, 2011-07-21 This book incorporates select papers presented at the two day seminar titled Economic Reforms in India and China The China National School of Administration CNSA and Institute of Public Enterprise IPE jointly organized the two day seminar The Chinese papers dealt with prospects of economic development development approach similarity between China and India economic growth and policy industrialization dilemma and civilization model innovation under resource etc The Indian papers dealt with economic reforms in agriculture second generation reforms performance of public enterprises political economy in state enterprises financial sector reforms social sector reforms etc These papers have been authored by renowned policy makers researchers and practitioners from India and China **Economic Reforms, Growth and Inequality in Latin America** Gustavo Indart, 2019-06-04 Originally published in 2004 Growth income distribution and labour markets are issues of pivotal importance in the Latin American context Examining unique theoretical issues and the empirical evidence this book provides a critical analysis of the key elements of income distribution determinants labour market functions trade policies and their interrelations As the advance of globalization becomes seemingly unstoppable this book provides an important reappraisal of the impact of this new phenomenon and in particular the pernicious impact it may have on income growth and distribution The key objective of the volume is to integrate more fully the analysis of trade and labour market economists in order to better understand the labour

market and income distribution implications of globalization and international integration Forty years after the early calls to appropriately investigate the micro foundations of macroeconomics the separation of the two at the policy level is more damaging than ever before particularly for developing regions this volume therefore makes an important contribution at the theoretical and policy levels by bringing together macroeconomic and microeconomic analyses

Two Decades of Market Reform in India Sudipta Bhattacharyya, 2013-12-15

Have neoliberal policies truly yielded beneficial effects for India Two Decades of Market Reform in India presents a collection of essays that challenge the conventional wisdom of Indian market reforms examining the effects of neoliberal policies enacted by the Indian government and exploding the myths that surround them In particular the volume questions the perceived benefits of India's reform policies in the areas of growth agriculture industry and poverty alleviation and examines how the government's focus on preventing a fiscal deficit caused a large scale decline in development expenditures which in turn has had a negative impact on the well being of the poor With its rich and insightful analysis Two Decades of Market Reform in India bravely shines a light on the true implications of India's neoliberal governmental policies and provides a revealing indication of how policy reform since 1991 has at times detrimentally affected the general populace of India

New Welfare Policy and Democratic Politics in India Prakash Sarangi, 2024-06-11

New Welfare Policy and Democratic Politics in India offers an analysis of India's welfare policy during the last couple of decades It looks at how welfare policy making is viewed as a function of party competition and voter mobilization showing a gradual transformation of political clients into entitled citizens through which democratic politics in India has redefined its contemporary welfare discourse The book argues that political parties formulate policies in order to respond to the voices of citizens and shows that a new welfare architecture emerged in India characterized as responsive welfare India has witnessed a sharp rise in such voices which have been disadvantaged by a globalizing market The size and vulnerability of this group has made them politically significant and electorally salient These welfare aspirants have found a new political space through political parties to negotiate and assert their claims on the state creating a milestone in India's democratic politics trajectory in the form of entitlement based welfare policy The book compares and evaluates the implications of these new welfare policies in the contexts of two governments the Congress led government during 2009-2014 and the BJP led government during 2014-2019 The empirical data reveal remarkable similarities in their electoral pledges policy outputs policy outcomes and accountability towards citizens These findings indicate significant convergence in their welfare policies sans ideology or ethnic support base It also reveals that the ideological differences among the two major parties do not prevent remarkable continuities in the

formulation and implementation of welfare policies during their incumbencies thus allowing for a bipartisan acceptance of a citizen centric welfare policy Offering a new analysis to understand this citizen party policy linkage in the formulation of welfare policy in India the book presents a macro analysis of India s interface between democratic politics and welfare policy It will be of interest to researchers in the fields of the politics of welfare democratisation in changing societies comparative politics and Indian and South Asian Studies and Asian Politics
