## **Economic Survey Of The Baltic States:**

*Economic Survey of the Baltic States* Brian Van Arkadie, Mats Karlsson, 1992 Estonia Latvia and Lithuania are determined to seek national independence and to engage in a transformation of their economies Amongst all of the Soviet Republics the Baltics are in the strongest position to do so The period under Soviet rule has led to an unbalanced industrial structure characterized chiefly in the bias towards large scale state owned industrial enterprises However within this constraint the Baltics have also succeeded in developing high tech industry and this could provide the necessary flexibility to shift the industrial emphasis and adjust to the requirements of international trade **OECD Economic Surveys: Baltic States**

*The Baltic states* OCSE., 2000 *OECD Economic Surveys: Lithuania 2020* OECD, 2020-11-23 Lithuania s economy is performing strongly and converging fast towards the most developed OECD countries driven by growing exports and investments and supported by a sound macroeconomic framework as well as a friendly business climate For the first time since renewed independence more people are settling in the country than leaving it The peak of the COVID 19 crisis was one of the mildest in Europe thanks to a well functioning health system effective containment measures and a relatively short lockdown Yet prosperity is unevenly distributed across people and places Further reform could help sustain achievements to date Providing adequate income support for the needy especially the elderly and high quality social services while improving integration into the labour market could help reduce poverty Stronger local and regional institutions better education and skills particularly in rural areas and a more flexible housing market could make regional development more balanced Finally strengthening the regulatory framework reducing the scope of state owned enterprises and moving towards a low carbon economy will help raise productivity while ensuring resilient and sustainable growth **SPECIAL FEATURES REDUCING POVERTY FOSTERING REGIONAL DEVELOPMENT**

the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU
