regulatory agencies researchers and consumers of herbal products **Anti-Fertility Plants of the Pacific** RC Cambie, AA Brewis, 1997-01-01 There is a growing appreciation of traditional medical systems as a source of considerable knowledge of the medicinal properties of plants Traditional medicines have the potential to offer leads to identifying potentially valuable chemicals that can be developed into new and more effective drugs including safer contraceptives The Pacific region is an excellent arena in which to search for such chemicals as the area contains plant species not found elsewhere there is every indication that many of the plants used more generally in traditional Pacific medicine may be efficacious of 74 plants surveyed in one study 86% showed pharmacological activity and in many Pacific traditions knowledge of medicinal use is transmitted between generations as part of an inherited body of ethnomedical knowledge This book documents all the available information on plants that have been used traditionally for anti fertility and fertility purposes in the Pacific region and indicates which of these plants hold the most promise for providing new anti fertility agents It also records instances in which the plant has been used outside the region Pharmacognosy: An Indian perspective K. Mangathayaru, 2013

Designed to cover the core subject of pharmacognosy offered to undergraduate students of pharmacy this book presents the theoretical concepts in a lucid style Its in depth coverage of topics quintessential to the Indian plant drug sector makes the book unique as does its exposition on herbal cosmetics and quality control of herbal drugs The book abounds with a rich pedagogy that enables effortless recapitulation of the subject

Economic Studies of Indigenous and Traditional Knowledge Nirmal Sengupta, 2007 Till recently the mention of traditional knowledge would only elicit metaphors like the Vedas and Upanishads Aryabhatta Panini and Charaka or the invention of zero The perspective is changing This book deals with the traditional and indigenous knowledge of common men and women of India that of its tribal and Dalit population fisher folk craftsmen artisans and leather workers their agriculture housing and irrigation methods medicinal knowledge drinking water collection arts and culture Different chapters establish that the economic significance of such knowledge in the modern world is continuing even increasing and is being utilised in a wide variety of ways Globally there is an increased

interest in traditional and indigenous knowledge It is now recognised as an underutilised resource that can help to reduce poverty and also as a dormant reserve with considerable commercial potential Book jacket *Development of Plant-Based Medicines: Conservation, Efficacy and Safety* Praveen K. Saxena,2013-03-14 The plant is often the most neglected part of plant based medicine Throughout time humans have searched collected and effectively used plants for healing Currently the medicinal plant based business is flourishing at a dramatic pace and at the expense of an already declining population of plant species many of which are on the verge of extinction In spite of this history and popularity the mystery of what transforms a plant into a medicinal plant persists and there are chronic problems with ensuring the safety and efficacy of medicinal plant products Therefore there is a real need for a full characterization of medicinal plant species and for the development and application of novel technologies for the production of plant based medicines This book highlights some of the recent advances and new approaches to the development of technologies for plant based medicines and is intended to stimulate new discussions among researchers regulatory authorities and pharmaceutical organizations leading to significant advancements in the field *Medicinal Plants Research in Asia - Volume I: The Framework and Project Workplans* ,
