Security in a Changing World Volker Franke, 2002-03-30 The end of the Cold War has brought about significant changes in the political economic social and cultural structure of the international system Absent a distinct enemy and the threat of global thermonuclear war the United States today faces a host of new security challenges that require policymakers to make difficult decisions with significant domestic and international implications The range of conflicting goals expectations and capabilities demands fresh solutions to international conflicts and civil unrest new strategies for conducting peace support operations and the preparation of America's forces for completing operational assignments under increasingly uncertain conditions The case studies and exercises constructed for this book examine some of the most pertinent management leadership and accountability issues related to U S national security Each case places readers at the center of difficult decisions illustrates more general policy dilemmas and is designed to stimulate discussion of those issues beyond the classroom Cases highlight dilemmas at two levels pertaining specifically to the case and pertaining to its larger policy implications The absence of a one-sided argument specific policy recommendations or logical conclusions enables readers to recognize the importance of the issues at hand and their greater policy implications and to discern lessons that might apply more generally to public policy administration and management Particularly useful in courses dealing with national security international relations public policy administration civil military relations and organizational management An instructor's manual is available upon request Decision Making under Uncertainty Kerstin Preuschoff, Peter N. C. Mohr, Ming Hsu, 2015-06-16 Most decisions in life are based on incomplete information and have uncertain consequences To successfully cope with real life situations the nervous system has to estimate represent and eventually resolve uncertainty at various levels A common tradeoff in such decisions involves those between the magnitude of the expected rewards and the uncertainty of obtaining the rewards For instance a decision maker may choose to forgo the high expected rewards of investing in the stock market and settle instead for the lower expected reward and much less uncertainty of a savings account Little is known about how different forms of uncertainty such as risk or ambiguity are processed and learned about and how they are integrated with expected rewards and individual preferences throughout the decision making process With this Research Topic we aim to provide a deeper and more detailed understanding of the processes behind decision making under uncertainty *Rising China in the Changing World Economy* Liming Wang, 2012-03-12 China's rapid and sustained growth over last thirty years has propelled it to become the world's second largest economy today and potentially the largest

in the foreseeable future As one of the first major economies pulling out of recession and the last remaining major socialist country in the world today China presents a challenge to established thinking on the essential primacy of global capitalism and the settled nature of the world system as China becomes more integrated into the world economy and the international system both are themselves potentially transformed as a result of China's involvement This book explores a wide range of issues connected with the impact of China on the global economy and the prevailing international system Subjects covered include China's multinationals international acquisitions the exchange rate research and development and technology transfer China's emerging major business groupings and small and medium sized enterprises
