Hofman, 2000 This book provides an assessment of Latin American 20th century economic performance from a comparative and historical perspective The author uses growth accounting methods and previously unavailable long term series data to present a comprehensive analysis of Latin American development over the course of the century The performance of Latin American economies over this period is compared to that of three groups of countries the advanced capitalist economies of France Germany Japan The Netherlands UK and USA the newly industrialised economies of Korea and Taiwan and Spain and Portugal with which Latin America has historical ties This presents a long run comparative perspective of growth acceleration and slow down in Latin America The reasons for the comparatively poor or negative economic growth in the Lost Decade of the 1980s are examined as is the apparent economic recovery in the 1990s The author also reviews other problems associated with the Latin American economies including debt problems income inequality high inflation cyclical instability and political and policy instability and measures the ability of various countries to combat these challenges Finally the author analyses major stabilisation policies over the period and assesses their success This book will prove a valuable asset to students and scholars of Latin American economics international economics and development economics **The Economic Development of Latin America Since Independence** Luis Bértola, José Antonio Ocampo, 2012-10-25 A comprehensive and accessible overview of the economic history of Latin America over the two centuries since Independence It considers its principal problems and the main policy trends and covers external trade economic growth and inequality [Dependency and Development in Latin America](#) Fernando Henrique Cardoso, Enzo Faletto, 2024-03-29 At the end of World War II several Latin American countries seemed to be ready for industrialization and self sustaining economic growth Instead they found that they had exchanged old forms of political and economic dependence for a new kind of dependency on the international capitalism of multinational corporations In the much acclaimed original Spanish edition Dependencia y Desarrollo en Am rica Latina and now in the expanded and revised English version Cardoso and Faletto offer a sophisticated analysis of the economic development of Latin America The economic dependency of Latin

America stems not merely from the domination of the world market over internal national and enclave economies but also from the much more complex interaction of economic drives political structures social movements and historically conditioned alliances While heeding the unique histories of individual nations the authors discern four general stages in Latin America's economic development the early outward expansion of newly independent nations the political emergence of the middle sector the formation of internal markets in response to population growth and the new dependence on international markets In a postscript for this edition Cardoso and Faletto examine the political social and economic changes of the past ten years in light of their original hypotheses At the end of World War II several Latin American countries seemed to be ready for industrialization and self-sustaining economic growth Instead they found that they had exchanged old forms of political and economic dependence for a new kind of dependence
