China's Economic Development Cai Fang,2022-10-20 Cai Fang is one of China s most distinguished economists This book elucidates the worldwide significance of China s economic development over the past 70 years from the perspectives of economic history and growth theory The Chinese economy has undergone an unprecedented period of growth and development since the reform and opening up in the late 1970s a process which the hallmarks of neoclassic economic theory have often proved inadequate to explain Examining the Chinese economy in the light of Chinese history and the development of the world economy as a whole the book charts the milestones and critical reforms of China s economic development providing insights into unique attributes as well as more generic patterns The discussion covers multiple hot topics in the field including the so called Great Divergence dual sector economic development real world experience of the reform and opening up rural reform urbanization economic reform poverty reduction the latter day slowdown of China s economic growth and China s role in and response to globalization global supply domination and other headwinds The book will be a must read for students scholars and general readers interested in the Chinese economy economic development political economy and development economics

Cartography Past, Present and Future D.W. Rhind,D.R. Fraser Taylor,2013-10-22 Making maps dates back at least four thousand years and it is widely recognised that many maps are of great historical value and present a skilled method of summarising the real world on a sheet of paper Less well known is the judgement involved in the selection and simplification of features the complex transformation of space and the exacting standards which are needed in cartography This book is primarily a tribute to Professor F J Ormeling former President and Secretary Treasurer of the ICA and gives a wide ranging review of the current status of cartography how this status was attained and the way in which the subject is expected to evolve over the next decade It is composed of two main sections In the first the present state of cartography in different countries is examined The second section is a thematic view in which some of the major issues and developments in cartography are discussed in turn including art and science in cartography the character of historical cartography the role of map making in developing countries the impact of a possible ideal computer mapping facility and how cartography has changed in recent years There are international contributions from authors distinguished and internationally recognised in cartography and related fields and who have had a significant input to the ICA

Market Liberalism, Growth, and Economic Development in Latin America Gerardo Angeles Castro,Ignacio Perrotini-Hernández,Humberto Ríos-Bolivar,2011-05-15 The principal themes pursued in this book emerge from the great transformation that the Latin American and the Caribbean economies experienced in the aftermath of both the foreign debt crisis of 1982 and the macroeconomic stabilisation policies that vividly and painfully produced the so called lost decade of the 1980s Latin America implemented an economic liberalisation process during the late 1980s and the 1990s The main policy

reforms involved in that course can be summarized as privatization of state owned firms trade openness deregulation of the foreign direct investment FDI regime and fiscal discipline Latin American countries have also embarked in regional trade agreements the most important ones being Mercosur and the North American Free trade Agreement NAFTA This book compares results from the experience of North South and South South moulds of integration Thus the impacts of these policies on growth development technological progress poverty and inequality are analysed Orthodox and heterodox economic policies and theories are discussed along with relevant empirical evidence with a view to assess on the one hand the relative merits of the various policy reforms applied by different countries in the region and on the other the experience of integration into the global economy There are thirteen chapters in this collection linked in varying ways to the series of economic reforms introduced in the region in the last decades The book will be of interest to academics researchers students and policymakers interested in the study of economic development in emerging economies and in particular in Latin America

*National Wealth, Income and the History of Economic Growth* Heikki Mikkonen, 2025-06-06 Despite its current dominant status economic growth emerged as a field of study and as a political objective only after the Second World War This book provides an alternative perspective to the Anglo centric historical analysis of growth by turning the focus on Finland and other Nordic countries from the late 19th century until the Second World War Moreover it provides a conceptual history perspective to how economic growth can be examined before the emergence of economic growth as a concept This book places Finland in the context of emerging nation states of the early 20th century Europe and constructs five competing growth conceptions classical liberal agrarian conservative social liberal social democratic and communist With a methodology derived from conceptual history this book presents a framework to study economic growth in the context of nationalism It showcases how ideas related to growth have not been synonymous with capitalism but rather they have been connected to state building and to comparison of economic systems The findings of the book highlight the interwar period as a key turning point in historical analysis of growth This book provides a fresh and a thought provoking account that will be of interest to students and scholars of economic history history of ideas development studies and degrowth and history of capitalism
