The Media and Political Change in Southeast Asia Jonathan Woodier, 2009-01-01 the book is in a comprehensive readable format the book is logically organised rich in data and statistics regarding the issues that it covers as well as accessibly written such that its points would not be lost on the average upper level undergraduate student with some preparation in Asian studies and the social sciences Jane M Ferguson South East Asia Research a serious academic work that should be on the official reading list of every media studies course Chris Roberts Presenter Sky News Jonathan Woodier has written an excellent book on the politics of media control in Southeast Asia He shows how political elites in the region are using major events such as the 1997 Asian Financial Crisis and the 2001 September 11 terror attacks as well as innovations in media tools such as public relations and the internet to control information flow to their citizens This book is a must read for anyone interested in an explanation why Southeast Asian models of authoritarian models are surviving A brilliant analysis it combines media theory with a critical discussion of contemporary developments in Asia James Gomez Keio University Japan True to the old Chinese adage kill a chicken scare a monkey the few who once challenged Southeast Asia's ruling elites disappeared and the majority were silent Crude but effective Modern times however demand a more sophisticated approach Ruling elites now strip cultures naked and micro

manage people's minds. Their preferred tools of penetration and manipulation are a compliant media and a money hungry PR industry. Jonathan Woodier's insights will ensure that you will never read a newspaper or watch TV news in quite the same way again. Trevor Watson Professional Public Relations Pty Ltd Australia. This is an engaging and informative analysis of the media landscape in South East Asia. It uncovers the pervasive impact of the global media on the political process and raises important academic and policy issues in the process. This book is timely and will be a must read for policymakers, academics and students across communications, media studies, politics and democratization as well as for everyone with an interest in current day developments in South East Asia. Joep Cornelissen, Leeds University Business School, UK. Jonathan Woodier's latest work considers what impact the media has upon the democratization process in Southeast Asia. Has the media had a liberalizing effect or become subject to elite control in Southeast Asia and if so why? What role does the global media play in this process, particularly given its conglomerization and commoditization? By examining the communications media and its relationship to political change in Southeast Asia, this fascinating study will endeavour to provide both a regional comparative analysis and a more balanced interpretation of the mass communication media in the wake of September 11, 2001. The book also investigates the durability of authoritarian regimes and the enduring capacity of the media controlled state alongside the growing sophistication of political communications, particularly the use of PR consultants. The author provides an insider's view with unique insights into the practice of political communication and its development throughout the strategically important region of Southeast Asia, with its large Moslem states as well as much further afield to countries such as China and post industrial Europe. As such, the book will be warmly welcomed by academics of politics, international relations, media, communications and PR. It will also appeal to researchers interested in political change, the rise of the global media giants and the influence of authoritarian states such as China. *Political Change in Southeast Asia*, Jacques Bertrand, 2013-07-11. Southeast Asia is a vast and complex region comprising countries with remarkably diverse histories and cultures. Jacques Bertrand provides a fresh and highly original survey of politics and political change in this area of the world. Against the backdrop of rapid economic development and social transformation in several countries, he explores why some countries have adopted democratic institutions while others have maintained stable authoritarian systems or accepted communist regimes. Bertrand presents a historically grounded account of capitalist countries and state socialist countries, delving into the historical experience of individual countries whilst simultaneously providing a comparative framework with which to draw parallels and foster a better understanding of the political and economic dynamics both within and between the countries. With powerful yet accessible analysis and detailed coverage, this book offers students and scholars a thorough and thought provoking introduction to the political landscape of Southeast Asia. *Civil Society and Political Change in Asia*, Muthiah Alagappa, 2004. Nelson, Patrick Ziegenhain, 2005 This study of the national parliaments of India Indonesia the Philippines South Korea and Thailand is inspired by four major theoretical discourses neo institutionalism parliamentarianism versus presidentialism majoritarian versus consensus democracy and transition theory The book examines the specific role of parliaments in political decision making regime change democratization and consolidation of democracy in a comparative perspective It argues that parliaments play a greater part in the political decision making than is often asserted and that there is no cogent causal relationship between parliamentary performance and system of government

Political Change, Democratic Transitions and Security in Southeast Asia Mely Caballero-Anthony, 2009-12-16 This book examines the nature of political transitions in Southeast Asia and why political transitions toward political liberalisation and democracy have failed to take off It considers political systems in the region that have gone through significant periods of transition but continue to face serious challenges toward democratic consolidation      *Asia-Pacific* Raymond Frederick Watters, T.
