Economic Growth In Ireland The Experience Since 1947:

Economic Growth in Ireland Kieran Anthony Kennedy, Brendan Robert Dowling, 1975 Monograph on economic growth trends in Ireland since 1947 covers the role of domestic demand in generating higher growth rates the relationship between home demand and exports the effect of fiscal policy on demand etc References and statistical tables *The Economic Development of Ireland in the Twentieth Century* Thomas Giblin, Kieran Kennedy, Deirdre McHugh, 2013-01-11 This book examines Irish economic development in the twentieth century compared with other European countries It traces the growth of the Republic's economy from its separation from Britain in the early 1920s through to the present It assesses the factors which encouraged and inhibited economic development and concludes with an appraisal of the country's present state and future prospects

Ireland's Economic History Gerard McCann, 2011-09-12 This book explores the complex developments that have shaped Ireland's economic development north and south and led to recurring crises and instability The Irish economy has been traditionally portrayed as a product of its political divisions and the colonial legacy divided and analysed in terms of the hegemonic tensions that exist on the island Influenced by these divisions academics have tended to look at a two region approach to economic development without adequately acknowledging the interactive nature of the island economy as a source of the crises or as a solution to systemic divergence McCann's definitive and dynamic history of the Irish economy circumvents conventional analyses and investigates the economic development of the island economy as a whole highlighting where aggressive differentiation has been divisive and destabilising He concludes by considering an alternative integrated and cohesive process of economic development

Industry and Policy in Independent Ireland, 1922-1972 Frank Barry, 2023-09-27 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by

a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to 1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided *An Economic History of Ireland Since Independence* Andy Bielenberg, Raymond Ryan, 2013 This book traces the evolution of the Irish economy since independence looking at how the state sought to shape regulate and deregulate economic activity to deal with the challenges posed by the wider international environment *A Social and Economic History of Twentieth-century Europe* Gerold Ambrosius, William H. Hubbard, 1989 This comprehensive single volume source of information on the social and economic transformations in Europe over the past hundred years fills a critical gap in our knowledge It examinations population trends social structures and economic structures and offers an integrative overview of changes in both the organization of the economy and the role of the state in economic management **The Course of Irish History** T. W. Moody, F. X. Martin, Dermot Keogh, 2023-09-14 First published over forty years ago and now updated to cover the Celtic Tiger economic boom of the 2000s and subsequent worldwide recession this new edition of a perennial bestseller interprets Irish history as a whole Designed and written to be popular and authoritative critical and balanced it has been a core text in both Irish and American universities for decades It has also proven to be an extremely popular book for casual readers with an interest in history and Irish affairs Considered the definitive history among the Irish themselves it is an essential text for anyone interested in the history of Ireland

Investing in People Tony White, 2001 *Demography, State and Society* Enda Delaney, 2000 The process of migration is associated with longing homesickness the shock of exposure to a new culture and sometimes escape and freedom Between the foundation of the new Irish state in 1921 22 and the early 1970s approximately one and one half mill **Reframing Irish Youth in the Sixties** Carole Holohan, 2018-03-28 Reframing Irish Youth in the Sixties focuses on the position of youth in the Republic of Ireland at a time when the meaning of youth was changing internationally It argues that the reformulation of youth as a social category was a key element of social change While emigration was the key youth issue of the 1950s in this period young people became a pivotal point around which a new national project of economic growth hinged Transnational ideas and international models increasingly framed Irish attitudes to young people s education welfare and employment At the same time Irish youths were participants in a transnational youth culture that appeared to challenge the status quo This book examines the attitudes of those in government the media in civil society organisations and religious bodies to youth and young people addressing new manifestations of youth culture and new developments in youth welfare work In using youth as a lens this book takes an innovative approach that enables a multi faceted examination of the sixties providing fresh perspectives on key social changes and cultural continuities *The Slow Failure* Mary E. Daly, 2006-04-06 Today Ireland s population is rising immigration outpaces emigration most families have two or at most three children and full time farmers are in steady decline But the opposite was true for more than a century from the great famine of the 1840s

until the 1960s Between 1922 and 1966 most of the first fifty years after independence the population of Ireland was falling in the 1950s as rapidly as in the 1880s Mary Daly's *The Slow Failure* examines not just the reasons for the decline but the responses to it by politicians academics journalists churchmen and others who publicly agonized over their nation's slow failure Eager to reverse population decline but fearful that economic development would undermine Irish national identity they fashioned statistical evidence to support ultimately fruitless policies to encourage large rural farm families Focusing on both Irish government and society Daly places Ireland's population history in the mainstream history of independent Ireland Daly's research reveals how pastoral visions of an ideal Ireland made it virtually impossible to reverse the fall in population Promoting large families for example contributed to late marriages actually slowing population growth further The crucial issue of emigration failed to attract serious government attention except during World War II successive Irish governments refused to provide welfare services for emigrants leaving that role to the Catholic Church Daly takes these and other elements of an often sad story weaving them into essential reading for understanding modern Irish history

Following in Father's Footsteps Michael Hout, 1989 This is the first systematic study of patterns of social mobility in Ireland It covers a recent period the 1960s when Ireland was undergoing rapid economic growth and modernization The author thus was able to test the widely accepted hypothesis that growth weakens class barriers To his surprise he found that it did not Social mobility increased somewhat but among mobile men the better jobs still went to those from advantaged social class origins Despite economic development and demographic change the underlying link between social origins and career destinations remained unchanged In chapters on education life cycle religion and farming Michael Hout shows how inequality persists in contemporary Ireland In the last chapter he reviews evidence from other countries and concludes that governments must take action against class barriers in education and employment practices if inequality is to be reduced Economic growth creates jobs he argues but economic growth alone cannot allocate those jobs fairly

Staging Beckett in Ireland and Northern Ireland , 2016-06-30 This is the first full length study to focus on the staging of Samuel Beckett's drama in Ireland and Northern Ireland Beckett's relationship with his native land was a complex one but the importance of his drama as a creative force both historically and in contemporary practice in Ireland and Northern Ireland cannot be underestimated Drawing on previously unpublished archival materials and re-examining familiar narratives this volume traces the history of Beckett's drama at Dublin's Abbey and Gate Theatres as well as bringing to light unexamined and little known productions such as those performed in the Irish language Druid Theatre Company's productions and those of Dublin's Focus Theatre Leading scholars in Beckett studies and in Irish drama including Anna McMullan and Anthony Roche and renowned interpreters of Beckett's dramatic work such as Barry McGovern explore Beckett's drama within the context of Irish creative theatrical practice and heritage and analyse its legacies As with its companion volume *Staging Beckett in Great Britain* production analyses are underpinned by a consideration of the political economic and cultural contexts Readers are invited to

experience Beckett's drama as resonating in new ways through theatre practice against the complex and connected histories of Ireland north and south

Ireland, 1912-1985 Joseph Lee, 1989 Assessing the relative importance of British influence and of indigenous impulses in shaping an independent Ireland this book identifies the relationship between personality and process in determining Irish history

In Search of the Promised Land Gary Murphy, 2009 Murphy argues against the thesis of Tom Garvin and his work *Preventing the Future* In that book Garvin argues that old culture old ideas and the repression of the Church held Ireland's development in check through the 1940s and 1950s Gary Murphy suggests that the Irish government and civil service leaders were in fact open to change and new ideas and this openness led them to adopt outward looking policies

The State and Women in the Economy Jean Larson Pyle, 1990-01-01 This book examines the effect of state policies on women's roles in the economy At the most concrete level it investigates the relative lack of response of women's labor force activity rates to export led development in the Republic of Ireland At a broader level it provides critical insights into current labor market debates regarding the causes of women's subordination and the efficacy of state policies designed to alleviate them The book shows how the state in addition to and interactively with the workplace and household can maintain gender inequality In so doing Pyle demonstrates the usefulness of a revitalized and broader structural approach to feminist analysis

A History of Victims of Crime Stephen Strauss-Walsh, 2023-05-19 This book examines the evolution of the contemporary crime victim's procedural place within modern Western societies Taking the history of the Irish crime victim as a case study the work charts the place of victims within criminal justice over time This evolves from the expansive latitude that they had during the eighteenth century to their major relegation to witness and informer in the nineteenth and back to a more contemporary recapturing of some of their previous centrality The book also studies what this has meant for the position of suspects and offenders as well as the population more generally Therefore some analysis is devoted to examining its impact on an offender's right to fair trial and social forms It is held that the modern crime victim has transcended its position of marginality This happened not only in law but as the consequence of the victim's new role as a key sociopolitical stakeholder This work flags the importance of victim rights conferrals and the social transformations that engendered such trends In this way victim re emergence is evidenced as being not just a legal change but a consequence of several more recent sociocultural transformations in our societies The book will be of interest to researchers academics and policy makers in criminal law human rights law criminology and legal history

Ireland's most enigmatic leader as well as a balanced assessment of his role in shaping our national self image **As Mirrors Are Lonely** Peter Guy, 2014-10-16 The Irish novel has demonstrated an ability to sample other forms and influences to improvise and evolve in the light of changing circumstances Peter Guy's new study helps investigate the way in which Irish writers since the sixties have responded to these influences re-examining their work through the theory of the French theorist Jacques Lacan Focusing on the novelists John McGahern Brian Moore and John Broderick in a simultaneous reading and applying a psychoanalytical theory which centers in particular on gender and family relations this new study also covers a number of other complex issues issues which span the claustrophobic and repressive atmosphere of the 1950s to the secular ahistorical Ireland of today [A New History of Ireland Volume VII](#) J.
