Economic Policy And Performance In The Arab World:

Knowledge-Based Economic Policy Development in the Arab World Driouchi, Ahmed, 2014-02-28 The Arab world is one of the fastest growing economies in the world In order to keep up with the ever progressing and expanding developments advancements must be made with the current systems process and procedures Knowledge Based Economic Policy Development in the Arab World focuses on knowledge economy as the most important engine for economic growth and development under the globalizing world economies This publication analyzes the major issues that constrain further access to knowledge economy in the Arab countries with comparisons in Eastern and Central European economies Researchers business practitioners and academics interested in new economic and development inclusive growth policies will benefit greatly from the wide variety of discussion in this publication The Foreign Policies of Arab States 'Alī al-Dīn Hilāl, 2010 This is an indispensable aid for those studying or teaching the foreign policies of the contemporary Middle East Not only are the elements of foreign policy discussed and presented as a whole region but the editors provide the established analytical framework by which each contributor in their individual chapters has analyzed and evaluated the foreign policies of nine Arab countries Their framework perceives foreign policy in the context of its environment domestic regional and global This edition has new material reflecting the earth shaking events at the end of the Cold War and the continuation of violence and terrorism *Arab Economies in the Twenty-First Century* Paul Rivlin, 2009-02-09 This book examines the relationship between demographic growth and economic development in eight Arab countries Despite a slowdown in demographic growth as a result of the change in the age structure of the population the labor force is increasing rapidly In other parts of the world similar developments have enhanced economic growth In the Arab world however many of the opportunities presented by demographic transition are being lost resulting in serious threats to the political stability of the region The main reason for this is that the region has missed out on industrialization The book goes beyond conventional analysis to ask two closely related questions The first is why were governments so slow in tackling stability The second is why has the response been similar in apparently different economies Answers are provided using new literature in economics and economic history *Economic Performance in the Middle East and North Africa* Serdar Sayan, 2009-05-07 The economies of the Middle East and North Africa MENA region are in dire need of substantial institutional reform to improve their growth performance so as to create enough jobs for millions of entrants into their respective job markets and to fight poverty and income inequality This is necessary not only to reduce the risk of social unrest and domestic regional conflicts but also to assure stability of energy supply to the rest of the world and to hamper the violence originating from the region So the region's convergence to

global standards of governance quality is desirable for increased prosperity and stability both in the region and outside This volume contributes to the recently burgeoning political economy literature on institutions by putting together well written chapters that empirically study the relationship between economic performance and institutional characteristics in MENA economies to point out some of the areas where institutional reform is particularly needed and possible tools to use for such reform Perhaps one common lesson that can be derived from all chapters in the volume is that the both the region itself and the global economy will benefit from a MENA region that is better integrated to the rest

Ghosheh, 2016-03-22 This book first published in 1986 examines the literature on administration, human resources and development in the Arab world. It emphasizes contemporary societies and their internal dynamics, the least known and most critical aspects of Arabic studies. Egypt's Economic Predicament Galal A. Amin, 2021-10-11 Egypt's Economic Predicament contains a succinct and lucid analysis of virtually all the major economic problems of Egypt, their origin, development and the prospect of solving them. It presents today's economic problems of Egypt in a wider historical context and shows their relationship to current social issues, including the growth of religious fanaticism. The book also contains a powerful critique of the Structural Adjustment program of reform, which constitutes today's conventional wisdom. The subtitle of the book describes it as a study in the interaction of external pressure, political folly and social tension, and as such it should be of interest not only to scholars and students of development in Egypt and the Middle East but to those occupied with other Third World countries as well. **Egypt's Economic Predicament** Ġālāl A. Amīn, This is a succinct and lucid analysis of Egypt's major economic problems, their origin and development and their relationship to Egypt's social turmoil. It also contains a powerful critique of the program of structural adjustment which constitutes today's conventional wisdom.

Arab Development Denied Ali Kadri, 2015-03-15 Arab Development Denied examines how over the last three decades the Arab world has undergone a process of developmental descent or de-development. As a result of defeat in wars, the loss of security and sovereignty and even their own class proclivity, the Arab ruling classes have been transformed into fully compradorial classes that have relinquished autonomy over policy. The neoliberal policies adopted since the early eighties are not developmental policies but the terms of surrender by which Arab resources, human or otherwise, are stifled or usurped. In this book Ali Kadri attributes the Arab world's developmental failure to imperialist hegemony over oil and the rising role of financialisation, which goes hand in hand with the wars of encroachment that strip the Arab world of its sovereignty and resources. Muslim Democratic Parties in the Middle East A. Kadir Yildirim, 2016-09-26 Represents an important

advancement in developing the strand of literature that considers how economic conditions affect Islamist movements. Middle Eastern Studies. A. Kadir Yildirim and other scholars have used the term Muslim Democrat to describe moderate Islamist political parties, suggesting a parallel with Christian Democratic parties in Europe. These parties (MDPs) are marked by their adherence to a secular political regime, normative commitment to the rules of a democratic political system and the democratic political representation of a religious identity. In this book Yildirim draws on extensive field research in Turkey, Egypt and Morocco to examine this phenomenon and assess the interaction of economic and political factors in the development of MDPs. Distinguishing between competitive economic liberalization and crony liberalization, he argues that

MDPs are more likely to emerge and succeed in the context of the former. He summarizes that the broader implication is that the economic liberalization models adopted by governments in the region in the wake of the Arab Spring have significant implications for the future direction of party systems and democratic reform.
