Economic Transformation Of Eastern Europe Views From Within:

The Economic Transformation of Eastern Europe Bernard S. Katz, Libby Rittenberg, 1992-10-26 This volume provides an up to date account of how the process of economic transition in Eastern Europe is unfolding from the point of view of Eastern European economists assessing their native economies The authors have personally experienced the frustrations of the previous Stalinist system of central planning and public ownership as well as the difficulties and pitfalls of designing new systems based on markets and private ownership The book focuses on the three countries of Eastern Europe leading the reform efforts Czechoslovakia Hungary and Poland and points out similarities and differences in their reform strategies Although the stories of economic change in Eastern Europe have dominated news headlines the real challenges of designing and maintaining viable economies are just beginning The analysis in this volume will be of interest to those in the academic and policy making communities

Economic Transformation in Eastern Europe and East Asia Herbert Hax, Wolfgang Klenner, Willi Kraus, Tomoo Matsuda, Takafusa Nakamura, 2012-12-06 The economic transformation taking place in Eastern Europe and Asia is in particular a challenge for Japan and Germany because these two states as the immediate neighbors of the developing regions are directly affected and also because they are the strongest economic powers in their regions and have the necessary potential to influence developments there Japan and Germany are affected in many ways both positively and negatively Should the economic and social transformation run into difficulties leading to economic and political chaos perhaps even to armed conflicts then economy and social fabric of the prosperous neighbors would doubtlessly suffer In the past Japan and the South East Asian region have already experienced how economic problems in China caused millions of Chinese to seek their fortunes in other countries An economic and political destabilization of China would today probably have even greater effects on migration flows Similar effects can be expected in Europe if the transformation process in Eastern Europe should fail But even less dramatic developments in Eastern Europe and East Asia can have deleterious consequences for Germany and Japan Both nations are linked closely to the transforming economies near them though at a fairly low level A reduction in trade with them a refusal to service debts and other economic frictions ensuing out of economic and political troubles would of necessity hamper the prosperity of Japan and Germany A successful transformation process would without doubt benefit all economic partners to a considerable extent

Economic Transformations in East and Central Europe David F. Good, 1994-09-22 This book provides an invaluable guide to understanding the current problems of this volatile region demonstrating that the area's economic history over the last century has vital legacies for its economic future

The Czech Republic and Economic Transition in Eastern Europe Jan Svejnar,2013-10-22 The Czech Republic and Economic Transition in Eastern Europe is the first in depth comparative analysis of the Czech Republic s economic transition after the fall of the Communist bloc Edited by Jan Svejnar a principal architect of the Czech economic transformation and Economic Advisor to President Vaclav Havel the book poses important questions about the Republic and its partners in Central and Eastern Europe The thirty five essayists describe the country s macroeconomic performance its development of capital markets the structure and performance of its industries its unemployment household behavior and income distribution and the environmental and health issues it faces In this in depth comparative analysis of the Czech Republic s economic transition an international team of thirty five economists examine the Republic and its partners in Central and Eastern Europe Important questions and issues permeate the essays For example prior to 1939 the Czech Republic possessed the most advanced economy in the region is it capable of reestablishing its dominance Relative to its neighbors the Republic ranks especially high on some transition related performance indicators but low on others What economic effects are related to the 1993 dissolution of the Czech and Slovak governments And what can be learned by comparing the economic outcomes of two countries that shared legal and institutional frameworks Data describe the country s macroeconomic performance its development of capital markets the structure and performance of its industries its unemployment household behavior and income distribution and the environmental and health issues facing it Its most important contributions are its clarifications of the transition process The authors included in Transforming Czechoslovakia combine the best available data and techniques of economic analysis to assess the replacement of the inefficient but internally consistent central planning system with a more efficient market system These authors among whom are central European economic analysts senior U S economists and Czechoslovakian professors and economic researchers discuss the country s macroeconomic performance its development of

capital markets the structure and performance of its industries its unemployment household behavior and income distribution and the environmental and health issues facing it The essays vary between presentations of history and policy and technical examinations of data Together they offer the most comprehensive and detailed assessment of the country s economic transformation in print This book is important because its essayists compile results and reach conclusions that are broad and credible The empirical data were gathered on the ground and have been subjected to advanced methodologies including game theory industrial organization and Granger Sims causality

The Political Economy of Eastern Europe
30 years into the 'Transition' Agnes Gagyí, Ondřej Slačálek, 2021-10-11

Towards a Market Economy in Central and Eastern Europe Herbert Giersch, 2012-12-06 In 1990 the countries of Central and Eastern Europe began or accelerated their transition to a market economy This book addresses among others the following questions I What are the fundamental causes of the collapse of the Soviet type economic systems II What major steps could be taken to make the transition process to a market economy irreversible and less painful III What can be learned from West Germany s outstandingly successful postwar economic reforms IV Is the issue of gradualism versus shock therapy still relevant V If macroeconomic stability is a precondition what is the role of privatization deregulation and trade liberalization VI What is the optimal sequence of steps in privatization deregulation liberalization and currency convertibility VII How quickly may privatization be achieved VIII Is the USSR really a special case and if so in what respects and for what fundamental reasons IX How long in the transition period may the initial phase of disorder chaos and decline last X What can be learned from the experiences gathered so far in the major ex communist countries

Economic Transition in Central and Eastern Europe Daniel Gros, Alfred Steinherr, 2004-03-25 Analysing the key problems facing the transition countries in Central and Eastern Europe this accessible book describes the legacy of the central planners the progress achieved so far and the need for further reforms It documents the outstanding successes and failures and analyses why certain approaches to transition have worked and others have not It tests where transition is over and shows how some countries have graduated from transition to integration through their efforts to join the European Union EU It discusses the costs and benefits of the eastern enlargement of the EU The specific experiences of German unification the Soviet Union s disintegration and Russia s complex reforms are examined as are the specific issues that need to be addressed in the Balkans The book concludes by indicating how the expanding EU could help the poor performers through inclusion in a continent wide integrated economic area

Economic Reform and Structural Adjustment in East European Industry
Mr. Eduardo Borensztein, Mr. Jonathan David Ostry, 1994-06-01 A consistent set of disaggregated industrial output data for four Eastern European countries is examined In order to determine the extent to which structural adjustment has taken place since the initiation of market oriented reform The latter created a massive relative price shock whose affects on the structure of the industrial sectors of these economies is shown to have been relatively small at least one to two years after the reforms

An implication is that one argument in favor of more gradualist reform based on the premise that more gradualism implies a smaller output cost in the short run is questionable. By and large in these economies the output cost associated with the removal of relative price distortions may still have to be faced.

Crisis and Reform in Eastern Europe Ferenc Feher, 2020-02-13

Communism in Eastern Europe is in crisis. Its dimensions are social and economic; its manifestation is political. This volume a collection of essays by leading authorities describes the symptoms of the crisis, diagnoses the causes of the malady and offers alternative scenarios for therapy. A unique dimension of this collection is its avoidance of one dimensional explanations. The contributors approach the subject from very different angles and start from very distinct sociopolitical premises. The volume includes original accounts of unexplored aspects of East European communism as well as classic interpretations of the economic crisis and social stagnation that characterize the area. Contributions not only examine the sociopolitical behavior of the ruling apparatus but also analyze its strategies, political culture and the opposition. Both the professional and the general reader seeking more information about Eastern Europe will find this volume an extensive in depth portrait of the current situation in what many observers predict may develop into the major area of tension in post World War II Europe.
