Concentration and Economic Inequality Mark Casson,John Creedy,1993 How far can efficiency be pursued without
sacrificing equity Do fiscal changes designed to improve incentives necessarily lead to greater inequality of incomes Does the
profitability of big business really reflect economies of scale and scope or is it also a reflection of market power In addressing
these and other key questions a group of internationally acclaimed economists demonstrates why issues of concentration and
inequality in economic life are moving to the top of the political agenda in the 1990s Drawing upon the pioneering work of
Peter Hart this volume reflects the range of his influence from theoretical examinations of measures of industrial
concentration and income inequality to detailed empirical explorations of changes in concentration over time The volume
includes essays on among other issues the Hart measure of income mobility income distribution in Eastern Europe the UK
state pension scheme trends in the concentration of UK manufacturing in the 1980s the EC Merger Control Regulation
corporate research and development strategies and corporate technological specialization in international industries
