Economics of Agricultural Crop Insurance: Theory and Evidence Darrell L. Hueth, William H. Furtan, 2012-12-06 Government subsidized crop insurance has been used by a number of developed countries as a mechanism to reduce farm income instability by reducing yield risks This book provides an in depth analysis and evaluation of government provided crop insurance in developed countries The book is organized into three sections Part one presents background material on crop insurance programs in the U S Canada and selected other countries Part two provides some analytical models of multiple peril crop insurance which suggest the possibility of modification of design which could improve performance and which explores theoretical linkages between crop insurance decisions and other producer decisions previously not analyzed The main part of the book is Part three where the results of a series of empirical studies using databases particularly designed to answer crop insurance questions are presented This part of the book tests a number of the hypotheses which were raised in Parts one and two regarding reasons for the view widely held by economists that crop insurance has not functioned well

Agriculture, development, and the global trading system: 2000- 2015 Bouët, Antoine, Laborde Debucquet, David, 2017-09-07 This book is devoted to the complex relationship between the global trading system and food security focusing on two important elements the Doha Development Agenda DDA and how food price volatility can be managed or not through trade instruments The first section of the book is based on the premise that more trade integration can fight poverty and alleviate hunger The second section examines whether managing price volatility is doable through more or less trade integration This section deals in particular with policy instruments available for policy makers to cope with price volatility food stocks crop insurance and export restrictions Analysis concludes that without a strong and efficient World Trade Organization WTO capable of conducting ambitious trade negotiations the food security target will be much more difficult to hit

Managing Risk in Farming, 1999 A Comprehensive Assessment of the Role of Risk in U.S. Agriculture Richard E. Just, Rulon D. Pope, 2013-11-11 After all the research on agricultural risk to date the treatment of risk in agricultural research is far from harmonious Many competing risk models have been proposed Some new methodologies are largely untested Some of the leading empirical methodologies in agricultural economic research are poorly suited for problems with aggregate data where risk averse behavior is less likely to be important This book is intended to i define the current state of the literature on agricultural risk research ii provide a critical evaluation of economic risk research on agriculture to date and iii set a research agenda that will meet future needs and prospects This type of research promises to become of increasing importance because agricultural policy in the United States and elsewhere has decidedly shifted from explicit income support objectives to risk related motivations of helping farmers deal with risk Beginning with the 1996 Farm Bill the primary set of policy instruments from U S agriculture has shifted from target prices and set aside acreage to agricultural crop insurance Because this book is intended to have specific implications for U S agricultural policy it has a decidedly domestic scope but clearly many of the issues have application abroad For each of the papers and topics included in this volume individuals have been selected to give the strongest and broadest possible treatment of each facet of the problem The result is this comprehensive reference book on the economics of agricultural risk

The Intended and Unintended Effects of U.S. Agricultural and Biotechnology Policies Joshua S. Graff Zivin, Jeffrey M. Perloff, 2012-03-15 Using economic models and empirical analysis this volume examines a wide range of agricultural and biofuel policy issues and their effects on American agricultural and related agrarian insurance markets Beginning with a look at the distribution of funds by insurance programs created to support farmers but often benefiting crop processors instead the book then examines the demand for biofuel and the effects of biofuel policies on agricultural price uncertainty Also discussed are genetically engineered crops which are assuming an increasingly important role in arbitrating tensions between energy production environmental protection and the global food supply Other contributions discuss the major effects of genetic engineering on worldwide food markets By addressing some of the most challenging topics at the intersection of agriculture and biotechnology this volume informs crucial debates

Coping with Risk in Agriculture, 3rd Edition J Brian Hardaker, Gudbrand Lien, Jock R Anderson, Ruud B M Huirne, 2015-04-24 Risk and uncertainty are inescapable factors in agriculture which require careful management Farmers face production risks from the weather crop and livestock

performance and pests and diseases as well as institutional personal and business risks This revised third edition of the popular textbook includes updated chapters on theory and methods and contains a new chapter discussing the state contingent approach to the analysis of production and the use of copulas to better model stochastic dependency Aiming to introduce agricultural decision making probability and risk preference this book is an indispensable guide for students and researchers of agriculture and agribusiness management **Handbook of Agricultural Economics** ,2021-12-08

Huirne,2023-08-28 International trade agreements and reforms of the European Common Agricultural Policy increase the importance of agricultural risk management as a means to stabilise farm incomes Income stabilisation in European agriculture addresses farm income and risk management issues from various perspectives A cohesive work is brought together on historic income data quantitative analyses of future policy scenarios actual farmers perceptions and an updated view on various risk management instruments In depth analyses focus on Germany Hungary the Netherlands Poland and Spain Overall findings are synthesised in policy recommendations for agricultural risk management in European agriculture For academia this publication brings together an interesting variety of quantitative and qualitative methods to understand and interpret risk management concepts in agriculture For public and private stakeholders analyses and reflections can be used in debating the domain of policy reforms risk exposure and risk management in European agriculture Agricultural Policy, Agribusiness, and Rent-seeking Behavior

Andrew Schmitz,2010-01-01 The second edition of the groundbreaking Agricultural Policy Agribusiness and Rent Seeking Behaviour expands upon its original analysis of the economic policies that affect agriculture and agribusiness Widening their lens to include information on the European Union the authors continue to emphasize the role of farmers and agribusiness in the formation of policy exploring the issues from both economic and historical perspectives More theoretical than the first volume in its discussions of welfare economics and the theory of public choice the second edition also addresses the broad significance of agricultural policies such as biofuels nutrition multifunctionality genetically modified organisms and

multinational firms The authors maintain and expand the empirical content to provide more practical examples suited to teaching and analyse specific problems including price and income stabilization science policy environmental policy and food quality and safety **Agricultural Globalization Trade and the Environment** Charles B. Rausser, Andrew Schmitz, Timothy G. Taylor, David Zilberman, 2012-12-06 The relative prosperity in U S agriculture that attended the passage of the Federal Agriculture Improvement and Reform Act of 1996 was followed by a general decline in U S agricultural prices from 1998 to 2000 This trend in declining prices continues through the year 2001 despite the movement toward more liberalized agricultural trade Trade liberalization has been the result of a variety of factors including the implementation of the Uruguay Round Agreement and the establishment of a variety of regional trade agreements such as the North America Free Trade Agreement Needless to say in the face of falling agricultural prices and increasingly liberalized agricultural trade the agricultural policy scene is an extremely complex one both locally and globally The chapters in this volume look to understand this complexity by addressing the interaction between trade the economic well being of the farm sector and the possibilities for future policy reform The chapters collected here explore a number of different issues including the operation of the tariff rate quotas established under the Uruguay Round Agreement the implications of sanitary and phytosanitary restrictions on trade and the growing controversy over genetically modified organisms In addition several chapters analyze the interaction between agricultural trade and environmental concerns **The World**

Agriculture in New Market Economies: Lessons from Bulgaria Andrew Schmitz, Kirby Moulton, Allan Buckwell, Sofia Davidova, 2012-12-06 The idea for this book began in Sofia Bulgaria in September 1992 when we met to plot a course for our University Affiliations project which had been recently funded by the U S Information Agency We believed that working on the book would provide valuable learning experiences for all the cooperators and that the book itself would make a useful contribution to understanding the economic transition process and its policy implications We recognized that a project of this nature would require the skills and knowledge of many people To those 34 additional contributors to this volume and to the many other friends colleagues and experts who gave generous advice we give our sincerest thanks We also acknowledge with thanks the support of several organizations to a reality Much of the that transformed this book from an idea research reported here was a major part of an educational project funded by the University Affiliations Program of the U S Information Agency The project linked the University of California Berkeley Wye College of London University and the Research Institute of Agricultural Economics Sofia in a cooperative effort to improve the quality of policy analysis The research provided hands

Costing billions of dollars annually international trade in agricultural products is impactful and influenced by several factors including climate change food policy and government legislation The third edition of Agricultural Policy Agribusiness and Rent Seeking Behaviour provides comprehensive economic analyses of the policies that affect agriculture and agribusiness in Canada and the United States Looking at current agricultural policies the third edition includes new chapters on food pyramids climate change and GMOs while also highlighting the effect of international policies on Canadian trade including the problematic US ethanol policy The new edition addresses current issues including how the COVID 19 pandemic has negatively affected agricultural value chains and played a hand in the ongoing growth in opioid use Including a number of key findings and discussing current debates on topics including foreign ownership of Canadian farmland Agricultural Policy Agribusiness and Rent Seeking Behaviour will appeal to students in agricultural economics and policy as well as policymakers agricultural firms energy companies and readers wishing to reduce their nation's carbon footprint Risk Management and the Environment: Agriculture in Perspective B.A. Babcock, R.W. Fraser, J.N. Lekakis, 2013-03-09 Risk Management and the Environment Agriculture in Perspective is a modern academic work that seeks to bring out both to the private and the policy sectors the importance of risk management in relation to the environment in agriculture as the world moves towards freer markets Many efforts were pooled together in making this book Three years ago an attempt was made by one of the editors to get a project on Agricultural Risk Management and Sustainability ARMAS funded by the European Commission Probably deeming the proposal as prematurely novel for Europe the Commission's screening experts abandoned its evaluation Following that experience it became apparent that the literature on the theme ought to be strengthened and emphasized through a book by a well known publishing house The editorial team was formed relatively quickly and an invitation to known experts in the field for contributions was issued Subsequently Kluwer Academic Publishers evaluated an edited volume proposal package and final revisions were made prior to submitting the entire manuscript for publication We are gratefully acknowledging the moral support of several individuals as well as the patience of our publishers

Coevolutionary Economics: The Economy, Society and the Environment John Gowdy, 2013-04-18 The subject of this volume is the human economy and its coevolutionary relationship with the natural world This relationship is examined in three broad types of societies hunter gatherers agriculturalists and modern market economies A growing body of scientific evidence has made it clear that the current human impact on the environment is far above the level that can be maintained without causing profound changes in the biophysical world to which we belong The new fields of ecological economics and evolutionary economics can help us understand the relationship between the economy society and the environment and may help us to formulate effective policies to manage these changes
