Wirtschaftswissenschaften ,1973      Cathedrals of Consumption Geoffrey Crossick,Serge Jaumain,2019-01-04 Originally  
published in 1999 Cathedrals of Consumption examines the history of the department store After many decades in which it  
was almost exclusively historians of retailing and company biographers who were interested in the phenomenon the  
department store has now come to attract the attention of historians of culture consumption gender urban life and much  
more Indeed the department store in its classic era of expansive growth has often seemed better than anything else to  
embody the cultural and social modernity of its time The articles in this book range widely in presenting the breadth of these  
new approaches to department store history An introductory essay explores the questions that surround the department  
store from its appearance in the mid nineteenth century through its golden age in the decades before the First World War to  
the challenges posed in the more competitive world of inter war Europe A dozen contributors writing about Britain France  
Germany Belgium and Hungary then examine themes as varied as the new public space which department stores provided  
for women the politics of consumption the architecture of the new stores the training of the workforce the cult of shopping  
advertising strategies shoplifting employer organisations and the geographical spread of the new stores while a comparison  
with eighteenth century London raises the question of just how new the department store was      *Library of Congress
