Economist Pocket Asia:

The Economist Pocket Asia John Andrews, 2001 **The Economist**, 2004 **Improving Marketing Effectiveness** Robert Shaw, 1998 **East Asia Modern** Peter Rowe, 2005-08-15 Peter G Rowe's *East Asia Modern* is a timely comparative analysis of urban growth in this rapidly evolving part of the globe [Handbook of Markets and Economies: East Asia, Southeast Asia, Australia, New Zealand](#) Anthony Pecotich, Clifford J Shultz, 2016-07-22 *East and Southeast Asia* is a vast and complex region. Its countries have a bewildering array of histories, demographics, economic structures, cultural backgrounds, and global marketing potential. This Handbook unravels the mystery. Each chapter is written by a country specialist and provides a thorough and up-to-date analysis of one of the ESEA countries. Each author follows a consistent model and covers geography and natural resources, the political system, the economic system, the social system, and the marketing environment. Complete chapters are devoted to Australia, Brunei, Cambodia, China, and Hong Kong, East Timor, Indonesia, Japan, Korea, North and South, Laos, Malaysia, Myanmar, New Zealand, Papua New Guinea, the Philippines, Singapore, Taiwan, Thailand, and Vietnam. Not just a review of current conditions, the Handbook offers prognoses for future marketing and commercial activity in each country. This definitive resource is generously illustrated with maps, figures, and tables and includes comprehensive references and source materials for each country. It is an essential reference for students, researchers, and practitioners in the global economy.

The Cult of the Luxury Brand Paul Husband, 2010-12-07 In today's Asia, you are what you wear. *The Cult of the Luxury Brand* is the first book to explore how and why an amazing luxeplosion is rocking Asia, sweeping up not just the glitzy upper crust but secretaries toting their Burberry bags, junior executives sporting Rolex watches, and university students in Ferragamo shoes. Hong Kong boasts more Gucci and Hermes stores than New York or Paris. China's luxury market is growing with such gusto that it will single-handedly be the biggest by 2014. Even India, the new kid on the luxury block, has three-month waiting lists for hot items while in Tokyo, the epicenter of the cult, 94 percent of women in their 20s own a Louis Vuitton bag. The cult of the luxury brand is so powerful that Asian consumers account for as much as half of the \$80 billion global luxe industry. Radha Chadha and Paul Husband explain the paradox of simultaneously pumping up your product's status while pumping it out to the masses. They crack the code of the cult, offering a tried and tested approach to creating an explosive following for your brand. They outline a powerful model that explains the spread of luxury in developed markets such as Japan and Hong Kong while predicting the future course for emerging markets such as China and India. They also examine the phenomenon of genuine fakes, impossible to tell from the real thing but detracting from its sales. Written by world-leading experts in a highly accessible style, the book draws on over 150 interviews with industry experts, market studies in 10 countries, and the authors' collective experience across Asia. It offers a glimpse of the thriving retail scene from glorious flagship stores in Tokyo to bustling local markets in Seoul and compares the various consumer segments to understand the inner motives for their obsession. It demonstrates how the continent's massive economic and social transformation is

dismantling centuries old ways of defining your place in society and how your spot on today's social totem pole is marked by your Chanel suit and your Cartier watch Whether you are a business professional targeting the Asian consumer a marketer interested in trend spotting or a shopper fascinated by luxury brands this book opens the door to success *International Relations Theory and the Consequences of Unipolarity* G. John Ikenberry, Michael Mastanduno, William C.

Wohlforth, 2011-09-01 The end of the Cold War and subsequent dissolution of the Soviet Union resulted in a new unipolar international system that presented fresh challenges to international relations theory Since the Enlightenment scholars have speculated that patterns of cooperation and conflict might be systematically related to the manner in which power is distributed among states Most of what we know about this relationship however is based on European experiences between the seventeenth and twentieth centuries when five or more powerful states dominated international relations and the latter twentieth century when two superpowers did so Building on a highly successful special issue of the leading journal *World Politics* this book seeks to determine whether what we think we know about power and patterns of state behaviour applies to the current unipolar setting and if not how core theoretical propositions about interstate interactions need to be revised
