**ECIE 2016 11th**

**European Conference on Innovation and Entrepreneurship** Minna Tunkkari Eskelinen, Iris Aaltio, 2016 *Sustainable Innovation and Entrepreneurship* Rolf Wüstenhagen, 2008-01-01 When I received the review copy I was rather excited the book as a collection of research papers that in themselves are very interesting and provide a fast track into the literature of the subject in question it is a worthwhile purchase to support thinking on entrepreneurship and innovation in a world where the sustainability agenda is increasingly becoming the agenda for inventors entrepreneurs and those who fund them or invest in their companies All the papers are well written and scholarly A particularly strong feature of the chapters is the range of sources quoted at the end of each chapter These references provide pathways into many different literatures that might save much time for subsequent researchers Lorraine Warren International Journal of Entrepreneurial Behaviour and Research In recent years our understanding of corporate sustainability has moved from exploitation to exploration from corporate environmental management to sustainable entrepreneurship and from efficiency to innovation Yet current trends indicate the need for radical innovation via entrepreneurial start ups or new ventures within existing corporations despite difficulties with the financing and marketing of such efforts Presenting both conceptual and empirical research this fascinating book addresses how we can combine environmental and social sustainability with economic sustainability in order to produce innovative new business models The international cast of contributors addresses the wide range of issues in the balance between growth and environmental concerns The first five chapters discuss various aspects of sustainable entrepreneurship This is followed by two chapters that look at innovation within existing firms Innovation is not successful until it finds a customer so the two chapters that follow delve into the marketing aspects of business to consumer and business to business settings The book closes with a broad discussion of the evolution and future of the research agenda into the intersection of sustainability innovation and entrepreneurship Academics students business professionals and NGOs will find this volume enlightening and useful Frugal Innovation and Innovative Creation Paul Bouvier-Patron, 2023-10-03 Businesses and enterprises can no longer avoid the concern of their Natural Environmental impact which calls into question their economic activities Frugal Innovation and Innovative Creation is at the crossroads of economics and management in business particularly focused on innovative enterprises and their interactions with the Natural Environment Navigating these interactions can be perceived by companies as a costly constraint especially in an innovation process which is already very expensive The aim of this book is therefore to highlight the need for a satisfactory technology level while innovating without risking damage to the Natural Environment The challenge here is to propose a form of frugal innovation that is likely to be successful while also mindful of the environmental considerations from the outset hence the concept of environmental frugal innovation Furthermore by questioning the practice of innovative creation especially if it integrates the ideas of respect for and preservation of the Natural Environment this book reveals the importance of two key elements that are present regardless of the modality the level of technology and organization improvisation and bricolage Tourism Enterprises and

the Sustainability Agenda across Europe David Leslie, 2016-02-24 With the emphasis on small enterprises this book provides a comprehensive analysis of what is happening across Europe in terms of sustainable development objectives and sustainability in the context of tourism supply Each contribution in this edited collection addresses specific aspects of tourism enterprise activity within the overall context of policy and practice aimed at improving environmental performance A series of broader issues are examined such as EU environmental policy and initiatives as they relate to tourism social issues such as equity and employment and transport followed by detailed examples of specific case studies Well informed and based on current research this book is informative and invaluable to any one studying tourism and hospitality today particularly those involved directly or indirectly in the fields of policy planning and development

**Entrepreneurial Imagination** Bjorn Bjerke, Hans Ramo, 2011-01-01 Entrepreneurial Imagination innovatively focuses on entrepreneurial and economic action in time timing space and place Schedules and places of production working times and working places are no longer fixed due to the effects of the contemporary economy The authors expertly bring together a focused and themed book that deals wholly with the subjects of time and space in a phenomenological understanding of entrepreneurial ventures and related business action They discuss theories and thinking of human action space place timing and time in various entrepreneurial and business arenas including social entrepreneuring environmental and corporate social responsibility network forms of entrepreneuring urban governance and regional development Taking a phenomenological approach to enable readers to understand entrepreneurship and related economic action clearly will prove to be inspiring for students academics and practitioners interested in all areas of entrepreneurship and similar issues
