its numerous common locales American Dream, American Nightmare Kathryn Hume, 2022-08-15 In this celebration of contemporary American fiction Kathryn Hume explores how estrangement from America has shaped the fiction of a literary generation which she calls the Generation of the Lost Dream In breaking down the divisions among standard categories of race religion ethnicity and gender Hume identifies shared core concerns values and techniques among seemingly disparate and unconnected writers including T Coraghessan Boyle Ralph Ellison Russell Banks Gloria Naylor Tim O'Brien Maxine Hong Kingston Walker Percy N Scott Momaday John Updike Toni Morrison William Kennedy Julia Alvarez Thomas Pynchon Leslie Marmon Silko and Don DeLillo Hume explores fictional treatments of the slippage in the immigrant experience between America's promise and its reality She exposes the political link between contemporary stories of lost innocence and liberalism's inadequacies She also invites us to look at the literary challenge to scientific materialism in various searches for a spiritual dimension in life The expansive future promised by the American Dream has been replaced Hume finds by a sense of tarnished morality and a melancholy loss of faith in America's exceptionalism American Dream American Nightmare examines the differing critiques of America embedded in nearly a hundred novels and points to the source for recovery that appeals to many of the authors Low Carbon Cities Steffen Lehmann, 2014-09-15 Low Carbon Cities is a book for practitioners students and scholars in architecture urban planning and design It features essays on ecologically sustainable cities by leading exponents of urban sustainability case studies of the new directions low carbon cities might take and investigations of how we can mitigate urban heat stress in our cities microclimates The book explores the underlying dimensions of how existing cities can be transformed into low carbon urban systems and describes the design of low carbon cities in theory and practice It considers the connections between low carbon cities and sustainable design social and individual values public space housing affordability public transport and urban microclimates Given the rapid urbanisation underway globally and the need for all our cities to operate more sustainably we need to think about how spatial planning and design can help transform urban systems to create low carbon cities and this book provides key insights **Climate Change, Literature, and Environmental Justice** Janet Fiskio, 2021-04-22 Placing climate change within the long histories of enslavement settler colonialism and resistance Climate Change Literature and Environmental Justice Poetics of Dissent and Repair examines the connections between climate disruption and white supremacy Drawing on decolonial and reparative theories Janet Fiskio focuses on expressive cultures and practices such as dance protests and cooking in conversation with texts by Kazim Ali Octavia Butler Louise Erdrich Winona LaDuke Mark Nowak Simon Ortiz Jesmyn Ward and Colson Whitehead Through an exploration of speculative pasts and futures practices of dissent and mourning and everyday inhabitation and social care Climate Change Literature and Environmental Justice illuminates the ways that frontline communities resist environmental racism while protecting and repairing the world **Everyday Ecofascism** Alexander Menrisky, 2025-05-06 A timely look into how fascist ideas permeate contemporary culture well beyond the far right As

challenges posed by climate change have intensified in the twenty first century right wing figures in the United States and abroad have increasingly framed anti immigrant anti Indigenous and white supremacist sentiments in terms of environmental survival Everyday Ecofascism explores the insidious nature of this tendency revealing how permutations of these perspectives in fact resonate across the political spectrum Drawing on comparative studies of fascism writ large Alexander Menrisky demonstrates that ecofascism is best understood not as a uniquely right wing ideology but as a political genre that reinforces white supremacy and other forms of domination Presenting a view of fascism as a complex power network that plays out on scales both large and small Menrisky shows how extremist sentiments have crept into everyday language stories and ideas Through a literary and cultural studies lens he illuminates ecofascism s narrative patterns and their easy permeation of environmentalist discourses from back to the land movements to the resurgence of psychedelic drugs food localism and pandemic politics Opposite his analysis of ecofascism in action Menrisky sheds important light on narrative resistances to dominant conceptions of race nation and territory by Native queer and women of color writers who have countered ethnonationalism for generations Bridging past and present Menrisky powerfully nails down the emergent concept of ecofascism and forms a basis for understanding phenomena like Covid 19 ecological utopianism and psychedelic environmentalism that detangles ecofascist tendencies from justice oriented visions of place based belonging

Here they can devote themselves wholly to the life of the mind. However, problems soon appear. Generation Z students chafe under the campus restrictions including mandatory use of sexual suppressant drugs and begin an Underground movement of protest. History Professor Morton Thompson finds himself in the middle as well as coping with violent attacks on the campus. A quasi-governmental agency called UniCom, creators of a database called The BEAST that is a terrifying violation of civil liberties, enters the picture determined to use the situation for its own ends leading to a thrilling and unexpected climax. Discover the difficulties in trying to flee from the problems of the world as Professor Thompson and others await the appearance of the mysterious Generation A. Eight lectures. The core of Professor Thompson's course in American Utopian Communities are also appended, presenting an outline of the history of utopian intentional communities in this country.

Historical Dictionary of Utopianism Toby Widdicombe, James M. Morris, Andrea Kross, 2017-06-21. Utopian thinking embraces fictional descriptions of how to create a better but not a perfect alternative way of life as well as intentional communities that are groups of people leading lives in small communities for their own betterment and the betterment of others. The first edition almost exclusively dealt with the intentional community side of utopianism; this second edition offers a much more inclusive definition of the key term utopia by offering a great many entries devoted to describing fictional or literary utopian works. It is also heavily illustrated with plates from utopian works, especially those from the heyday of utopianism in the late nineteenth century. This second edition of *Historical Dictionary of Utopianism* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 1000 cross-referenced entries on broad conceptual entries, narrower entries about specific works, and narrower entries about specific intentional communities or movements. This book is an excellent resource for students, researchers, and anyone wanting to know more about Utopianism.

Bioregionalism Michael Vincent McGinnis, 2005-07-28. Bioregionalism is the first book to explain the theoretical and practical dimensions of bioregionalism from an interdisciplinary standpoint, focusing on the place of bioregional identity within global politics. Leading contributors from a broad range of disciplines introduce this exciting new concept as a framework for thinking about indigenous peoples, local knowledge, globalization, science, global environmental issues, modern society, conservation, history, education, and restoration. Bioregionalism's emphasis on place and community radically changes the way we confront human and ecological issues.

Vonnegut by the Dozen Kurt Vonnegut, 2013-08-05 America owes Kurt Vonnegut a debt of gratitude for infusing its culture with the brilliant insight found in books like *Mother Night* *Player Piano* and *Slaughterhouse 5* and for the mordantly funny writings assembled in this collection The Nation was one of Vonnegut's outlets for his political writings He contributed to the magazine once or twice a year from 1978 to 1998 like a regular donation to the United Way His politics were consistently on the left and after fighting in World War II which for all its horrors he considered just he angrily condemned all of the United States subsequent wars of choice He wrote in a kind of faux simpleminded style He avoided the high seriousness demanded by some critics who dismissed his body of work as a product of the 1960s counterculture popular only among shaggy haired youths with callow taste But his best work as you'll see deals with ultimate questions

Persuasive Aesthetic Ecocritical Praxis Patrick D. Murphy, 2015-08-20 *Persuasive Aesthetic Ecocritical Praxis* continues Patrick D Murphy's focus on transversal ecocritical praxis by considering literature and cinema in terms of the persuasive force of aesthetic activity and whether or not artistic production and its criticism can be considered forms of activism Murphy argues that literature and other forms of aesthetic production hold out the promise of being able to move some individuals deeply through both affective and intellectual engagement in ways that facilitate ideological reflection To analyze aesthetic production ecocritically requires a transversal orientation in order to work continuously at accommodating a vast array of often seemingly disparate perspectives disciplines and contextual information as well as the ever changing thematic plot setting and contextual elements of the aesthetic works under consideration and the responses of changing audiences through

time and across cultures Murphy demonstrates this approach through presenting theories of transversality and applying them with attention to issues of propaganda agitation and persuasion both in terms of artistic production and the criticism of such production He also brings an ecofeminist orientation to the fore with particular attention to the gendered economic aspects of environmental issues in an age of land grabs and plantation economies Along the way he treats a wide range of literary works films and miniseries In American literature he discusses realist and science fiction works from Susan Fenimore Cooper's *Rural Hours* to Paolo Bacigalupi's *The Windup Girl* Barbara Kingsolver's *Flight Behavior* to Kim Stanley Robinson's *2312* and Ana Castillo's *So Far from God* to Leslie Marmon Silko's *Gardens in the Dunes* In international literature he analyzes Mo Yan's *The Garlic Ballads* Jiang Rong's *Wolf Totem* Michiko Ishimure's *The Lake of Heaven* Miyuki Miyabe's *All She Was Worth* and other novels The book concludes with a reading of Ernest Callenbach's *Ecotopia* and *Ecotopia Emerging* an Afterword recommending further directions for transversal ecocritical research an and interview that discusses Murphy's previous book *Transversal Ecocritical Praxis* and provides some personal background on the author
