Ecovention Current Art To Transform Ecologies Paperback:

Ecovention Sue Spaid, 2002 **Form, Art and the Environment** Nathalie Blanc, Barbara Benish, 2016-10-04 *Form Art and the Environment* Engaging in Sustainability adopts a pluralistic perspective of environmental artistic processes in order to examine the contributions of the arts in promoting sustainable development and culture at a grassroots level and its potential as a catalyst for social change and awareness This book investigates how community arts environmental creativity and the changing role of artists in the Polis contribute to the goal of a sustainable future from a number of interdisciplinary perspectives From considering the role that art works play in revealing local environmental problems such as biodiversity public transportation and energy issues to examining the way in which artists and art works enrich our multidimensional understanding of culture and sustainable development *Form Art and the Environment* advocates the inestimable value of art as an expressive force in promoting sustainable culture and conscious development Utilising a broad range of case studies and analysis from a body of work collected through the international environmental COAL prize this book examines the evolution of the relationship between culture and the environment This book will be of interest to practitioners of the environmental arts culture and sustainable development and students of Art Environmental Science and International Policy and Planning Development **Arts Programming for the Anthropocene** Bill Gilbert, Anicca Cox, 2018-11-21 *Arts Programming for the Anthropocene* argues for a role for the arts as an engaged professional practice in contemporary culture charting the evolution of arts over the previous half century from a primarily solitary practice involved with its own internal dialogue to one actively seeking a larger discourse The chapters investigate the origin and evolution of five academic field programs on three continents mapping developments in field pedagogy in the arts over the past twenty years Drawing upon the collective experience of artists and academicians in the United States Australia and Greece operating in a wide range of social and environmental contexts it makes the case for the necessity of an update to ensure the real world relevance and applicability of tertiary arts education Based on thirty years of experimentation in arts pedagogy including the creation of the Land Arts of the American West LAAW program and Art and Ecology discipline at the University of New Mexico this book is written for arts practitioners aspiring artists art educators and those interested in how the arts can contribute to strengthening cultural resiliency in the face of rapid environmental change **"Science, Technology, and Utopias "** Christine Filippone, 2017-07-05 The rise of proxy wars the Space Race and cybernetics during the Cold War marked science and technology as vital sites of social and political power Women artists historically excluded from these domains responded critically while simultaneously redeploying the products of Technological Society into works that promoted ideals of progress and alternative concepts of human community In this innovative book author Christine Filippone offers the first focused examination of the conceptual use of science and technology by women artists during and just after the women's movement She argues that artists Alice Aycock Agnes Denes Martha Rosler and Carolee Schneemann used

science and technology to mount a critique on Cold War American society as they saw it conservative and constricting Motivated by the contemporary American Women s Movement these artists transformed science and technology into new modes of artmaking that transgressed modernist heroic painterly styles and subverted the traditional economic structures of the gallery the museum and the dealer At the same time the artists also embraced these domains of knowledge and practice as expressions of hope for a better future Many found inspiration in the scientific theory of open systems which investigated problems of wholeness dynamic interaction and organization enabling consideration of the porous boundaries between human bodies and their social political and nonhuman environments Filippone also establishes that the theory of open systems not only informed feminist art but also continued to influence women artists practice of reclamation and ecological art through the twenty first century

The Unnaming of Aliass Karin Bolender,2020 The Unnaming of Aliass performs a paradoxical quest for wildly untold stories in the company of one special donkey companion a femammal of the species Equus asinus and significantly a registered American Spotted Ass Beast of burden that she is this inscrutable companion helped carry a ridiculous load of human longings and quandaries into a maze of hot harrowing miles across the US South from Mississippi to Virginia in the summer of 2002 all the while carrying her own onerous and unreckoned burdens and histories Over two decades the original journey evolved from the cracking open of a quasi Western novel that never was by an implosive pun into an ongoing philosophical and assthetic adventure a hybrid roadside and barnyard based living art practice wherein Aliass un names something much harder to grasp than the body of a lovely little ass protagonist setting and traditional Western narratives turn inside out around this name that ain t Through a deeply dug in questioning of its own authorial assumptions The Unnaming of Aliass makes space for untold autobiographies and bright dusty lacunae tracing ineffable tales through the tangled shapes and shadows that interweave in any environment

Everyday Aesthetics Yuriko Saito,2007 Yuriko Saito discusses aspects of our everyday experience that have been neglected by modern Western aesthetic theories *Global Art, Culture, and Media Perspectives* Hemanth Pawar,2025-02-20 Global Art Culture and Media Perspectives offers a comprehensive exploration of the intricate relationships between art culture and media in our interconnected world We delve into the profound impact of globalization on creative expressions cultural identities and media landscapes Beginning with an examination of the historical and theoretical foundations of globalization we explore how it has transformed the production distribution and consumption of art culture and media Through diverse case studies and theoretical frameworks we provide insights into the complexities of cultural exchange hybridization and resistance in the contemporary global context We critically engage with contemporary artworks cultural phenomena and media artifacts to uncover the diverse manifestations of global cultural production and consumption From international art biennials to transnational media conglomerates we highlight how individuals and communities navigate cultural differences today We address the power dynamics in global cultural flows including cultural imperialism hegemony and appropriation advocating for a more inclusive and equitable approach to cultural exchange Examples of cultural activism grassroots media initiatives and collaborative artistic projects demonstrate how art culture and media foster cross cultural dialogue and solidarity Accessible yet intellectually rigorous this book is essential for anyone interested in creativity communication and globalization The ecological eye Andrew Patrizio,2018-12-06 In the popular imagination art history remains steeped in outmoded notions of tradition material value and elitism How can we awaken define and orientate an ecological sensibility within the history of art Building on the latest work in the discipline this book provides the blueprint for an ecocritical art history one that is prepared to meet the challenges of the Anthropocene climate change and global

warming Without ignoring its own histories the book looks beyond at politics posthumanism new materialism feminism queer theory and critical animal studies invigorating the art historical practices of the future Reinventing Los Angeles Robert Gottlieb, 2007-10-12 Describes how water politics cars and freeways and immigration and globalization have shaped Los Angeles and how innovative social movements are working to make a more livable and sustainable city Los Angeles the place without a sense of place famous for sprawl and overdevelopment and defined by its car clogged freeways might seem inhospitable to ideas about connecting with nature and community But in *Reinventing Los Angeles* educator and activist Robert Gottlieb describes how imaginative and innovative social movements have coalesced around the issues of water development cars and freeways and land use to create a more livable and sustainable city Gottlieb traces the emergence of Los Angeles as a global city in the twentieth century and describes its continuing evolution today He examines the powerful influences of immigration and economic globalization as they intersect with changes in the politics of water transportation and land use and illustrates each of these core concerns with an account of grass roots and activist responses efforts to reenvision the concrete bound fenced off Los Angeles River as a natural resource Arroyofest the closing of the Pasadena Freeway for a Sunday of walking and bike riding and immigrants initiatives to create urban gardens and connect with their countries of origin *Reinventing Los Angeles* is a unique blend of personal narrative Gottlieb himself participated in several of the grass roots actions described in the book and historical and theoretical discussion It provides a road map for a new environmentalism of everyday life demonstrating the opportunities for renewal in a global city **The Routledge**

Companion to Landscape Studies Peter Howard, Ian Thompson, Emma Waterton, Mick Atha, 2013-02-15 Landscape is a vital synergistic concept which opens up ways of thinking about many of the problems which beset our contemporary world such as climate change social alienation environmental degradation loss of biodiversity and destruction of heritage As a concept landscape does not respect disciplinary boundaries Indeed many academic disciplines have found the concept so important it has been used as a qualifier that delineates whole sub disciplines landscape ecology landscape planning landscape archaeology and so forth In other cases landscape studies progress under a broader banner such as heritage studies or cultural geography Yet it does not always mean the same thing in all of these contexts *The Routledge Companion to Landscape Studies* offers the first comprehensive attempt to explore research directions into the many uses and meanings of landscape The Companion contains thirty nine original contributions from leading scholars within the field which have been divided into four parts Experiencing Landscape Landscape Culture and Heritage Landscape Society and Justice and Design and Planning for Landscape Topics covered range from phenomenological approaches to landscape to the consideration of landscape as a repository of human culture from ideas of identity and belonging to issues of power and hegemony and from discussions of participatory planning and design to the call for new imaginaries in a time of global and environmental crisis Each contribution explores the future development of different conceptual and theoretical approaches as well as recent

empirical contributions to knowledge and understanding Collectively they encourage dialogue across disciplinary barriers and reflection upon the implications of research findings for local national and international policy in relation to landscape This Companion provides up to date critical reviews of state of the art perspectives across this multifaceted field embracing disciplines such as anthropology archaeology cultural studies geography landscape planning landscape architecture countryside management forestry heritage studies ecology and fine art It serves as an invaluable point of reference for scholars researchers and graduate students alike engaging in the field of landscape studies Artists at Work Joanna Woronkowicz, 2025-09-16 Why is it so hard for artists to have stable careers Written with clarity and grounded in data Artists at Work offers an eye opening look at what it truly means to build a career as an artist today Joanna Woronkowicz examines how artists navigate unique challenges in America's creative economy from unpredictable job markets to evolving copyright laws and public funding constraints Woronkowicz exposes current public policy for artists as patchwork and susceptible to changes in the political climate Such fragile infrastructure limits artists ability to build sustainable careers Remaking this system requires a deeper understanding of creative labor By shining a light on today's artists who they are how they train and what they do Woronkowicz emphasizes both that artists are not unlike other workers and also that policies have not been designed with their unique employment behaviors in mind This book is a timely and critical guide for anyone invested in supporting the future of the arts and artists in America Advancements in the Philosophy of Design Pieter E. Vermaas, Stéphane Vial, 2018-03-02 This volume presents 25 essays on the philosophy of design With contributions originating from philosophy and design research and from product design to architecture it gives a rich spectrum of state of the art research and brings together studies on philosophical topics in which design plays a key role and design research to which philosophy contributes Coverage zooms in on specific and more well known design disciplines but also includes less studied disciplines such as graphic design interior architecture and exhibition design In addition contributors take up traditional philosophical issues such as epistemology politics phenomenology and philosophy of science Some essays cover philosophical issues that emerge in design for instance what design can do in addressing societal problems while other essays analyze main stream philosophical issues in which design is part of the argument as for instance abduction and aesthetics Readers will discover new research with insightful analyses of design research design thinking and the specificity of design Overall this comprehensive overview of an emerging topic in philosophy will be of great interest to researchers and students **Understanding Sustainable Development** John Blewitt, 2017-12-22 A truly comprehensive introduction to the topic Understanding Sustainable Development is designed to give students on a wide range of courses an appreciation of the key concepts and theories of sustainable development Fully updated the third edition includes detailed coverage of the Sustainable Development Goals and their impact on global development Major challenges and topics are explored through a range of international case studies and media examples which maintain the global to local structure of the previous edition

With an extensive website and pedagogy Understanding Sustainable Development is the most complete guide to the subject for course leaders undergraduates and postgraduates
