Ecstasy Shamanism In Korea:

Ecstasy Alan Carter Covell,1983 *Healing Rhythms: The World of South Korea's East Coast Hereditary Shamans* Simon Mills,2017-03-02 Still today in South Korea many people pay for the services of mudang the intermediaries of Korea's syncretic folk religion The majority of mudang are called to the profession by gods their clients are individuals or small groups and they focus on the use of spirit power possession for diagnosis and problem solving There is however a tiny minority of mudang who are born or adopted into the ritual life and who have no spirit power These ritualists perform in large family groups conducting rituals for whole communities They focus far more on the use of music dance and song to provide healing experiences In this book Simon Mills provides an in depth analysis of the East Coast hereditary mudang institution and its rhythm oriented music focusing particularly on the Kim family of mudang the government appointed cultural assets for the genre It is the first English language book to study this tradition in any depth using materials from fieldwork 1999 2000 alongside interviews with two key family members Kim Junghee and Jo Jonghun Throughout Mills includes numerous quotes from the ritualists themselves to help reveal their characters opinions and beliefs He documents the family's history the decline of the hereditary mudang institution and its kinship customs and the family's changing relations towards outsiders Mills also details ritual procedures musical structures playing techniques instruments and learning methods both of the past and present as non ritual musicians become increasingly aware of the powerful ritual rhythms the music is finding new life in non ritual settings Downloadable audio resources featuring Kim Jo and Mills accompanies the book each track corresponding to the equivalent chapter in the text **The Holy Spirit Movement in Korea** Young-hoon Lee,2009-04-01 This book traces the historical and theological development of the Holy Spirit movement in Korea through six successive periods These periods are characterized by repentance and revival 1900 1920 persecution and suffering under Japanese occupation 1920 1940 confusion and division 1940 1960 explosive revival in which the Pentecostal movement played a major role in the rapid growth of Korean churches 1960 1980 the movement's reaching out to all denominations 1980 2000 and the new context's demanding the Holy Spirit movement to open new horizons in its mission engagement 2000 The volume also discusses the relationship between this movement and other religions such as shamanism and looks forward to further engagement with issues of concern in the larger society Shamans in Asia Clark Chilson,Peter Knecht,2003-12-08 Shamans throughout much of Asia are regarded as having the power to control and coerce spirits Many Asians today still turn to shamans to communicate with the world of the dead heal the sick and explain enigmatic events To understand Asian religions therefore a knowledge of shamanism is essential Shamans in Asia provides an introduction to the study of shamans and six ethnographic studies each of which describes and analyses the lives and activities of shamans in five different regions Siberia China Korea and the Ryukyu islands of southern Japan Bangladesh and Pakistan The essays show what type of people become shamans what social roles they play and how shamans actively draw

from the worldviews of the communities in which they operate As the first book in English to provide in depth accounts of shamans from different regions of Asia it allows students and scholars to view the diversity and similarities of shamans and their religions Those interested in spiritual specialists the anthropological study of religion and local religions in Asia will be intrigued if not entranced by Shamans in Asia

Shamanism in Korea Stephen Michael Clark,1990 *The Scythian Connection and the Shamanistic Crowns of Ancient Korea* Shirley Fish,2021-08-22 The Three Kingdoms Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author s opinion is that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials wooden burial chambers gold crowns horse riding and also in their Siberian shamanism This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people When they were discovered in various archaeological mound sites they were found to be in a highly fragile state The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram Some of the crowns came in two parts an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself The crowns were totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla
