Edward Curtis The Master Prints:

The Master Prints Sheila Metzner, Edward S. Curtis, 2001 In Sheila Metzner's photographs beauty is truly more than skin deep She is known for creating rich and refined images for the fashion and television industries and her textural surfaces and attention to aesthetics have made her work popular since the 1970s with clients as diverse as Fendi Ralph Lauren Chanel and Victoria's Secret Recasting history for her own demands Metzner hovers between the pictorialist aesthetic of Alfred Stieglitz or Edward Steichen and the modernist edge of such photographers as Man Ray and Charles Sheeler The end results while paying homage are uniquely Metzner's own and have left a major impression on the history of photography Form and Fashion presents a generous commingling of Metzner's fashion work with her sensual and erotic nudes and formalist still lifes created between 1980 and 2000 The effect of this retrospective juxtaposition suggests a heady romanticism balanced by her precisionist style and sense of detail Form and Fashion presents the singularity of a creative mind showcasing for the very first time images that resound on their own terms with elegance and distinction BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Edward S. Curtis** Christopher Cardozo, 2015-05-12 Introduction the artistry of Edward Curtis Christopher Cardozo A path of beauty heart and soul Christopher Cardozo Enriching the world one photograph at a time A D Coleman Plates Curtis and pictorialism Christopher Cardozo A collective act of stewardship Eric J Jolly Intensity of regard Louise Erdrich Edward S Curtis and America's environmental social justice movement Michael Charles Tobias A guide to the photographs Chronology Afterword The Gift of the Face Shamooin Zamir, 2014-08-14 Edward S Curtis's The North American Indian is the most ambitious photographic and ethnographic record of Native American cultures ever produced Published between 1907 and 1930 as a series of twenty volumes and portfolios the work contains more than two thousand photographs intended to document the traditional culture of every Native American tribe west of the Mississippi Many critics have claimed that Curtis's images present Native peoples as a vanishing race hiding both their engagement with modernity and the history of colonial violence But in this major reappraisal of Curtis's work Shamooin Zamir argues instead that Curtis's photography engages meaningfully with the crisis of culture and selfhood brought on by the dramatic transformations of Native societies This crisis is captured profoundly and with remarkable empathy in Curtis's images of the human face Zamir also contends that we can fully understand this achievement only if we think of Curtis's Native subjects as coauthors of his project This radical reassessment is presented as a series of close readings that explore the relationship of aesthetics and ethics in photography Zamir's richly illustrated study resituates Curtis's work in Native American studies and in the histories of photography and visual anthropology **The Grove Encyclopedia of American Art** Joan M.
