disappearing His distinctive academic career which was entirely devoted to research led teaching invites us to think about the relationships between literary studies and pedagogy It also invites us to ask what role a unique pedagogical style plays in the evolution of a discipline How does intergenerational transmission between teacher and student play out both within and beyond disciplinary boundaries This collection explores these questions while also documenting Gardiner s methods of scholarly as much as professional resistance to the neo liberalisation and neo conservatism of contemporary academic culture Contributors draw from inspiring encounters with him to reflect upon the rhetoric and motifs of pedagogy within literary works They put Gardiner s mode of reading into practice by offering new interpretations of pedagogical mechanisms employed within important literary works from the seventeenth century to the present and of cultural phenomena like colonial interpretations of the Australian lyrebird s song The volume also offers pieces inspired by Gardiner such as poetry art translation and creative non fiction as well as three unpublished lectures by Gardiner himself Techniques and methodologies of literary education are traditionally believed to offer students the keys with which to unlock the secrets of texts and foster their appreciation Literature and Pedagogy offers a new perspective showing teachers and students of both education and literature how literary works present their own methods for reflecting critically upon how and why we learn read and teach

Lord Cromer Roger Owen, 2004 In the heyday of Empire just before the First World War Lord Cromer was second only to Lord Curzon in fame and public esteem In the days when Cairo and Calcutta represented the twin poles of

British power in Asia and Africa Cromer's commanding presence seemed to radiate the essential spirit of imperial rule In this first modern biography Roger Owen charts the life of the man revered by the British and hated by today's Egyptians the real ruler of Egypt for nearly a quarter of a century A member of the famous City banking family of Baring Brothers Cromer in his youth seemed to be distinguished mainly by lack of academic ability and a taste for the fashionable pursuits of his day His first military posting to Corfu was welcomed by him on account of the excellent shooting to be had in the region Roger Owen shows how almost imperceptibly his commitment to public service grew due in part at least to his relationship with Ethel Errington who after long delay became his first wife From the island outposts of the old British Empire to India the jewel in its crown and finally to the new Empire in Africa Cromer represented the might of Britain's Empire Few imperial administrators had either his range of experience or his long practice of ruling different non-European peoples at a time when the whole notion of Empire itself entered more and more into the metropolitan political debate Roger Owen makes extensive use of Cromer's official correspondence family papers memoirs and the personal letters of his friends and colleagues to explore all aspects of Cromer's life in imperial government He examines his innovative role in international finance and his energetic re-engagement with Britain's troubled political life following his formal retirement in 1907 Finally he assesses the sometimes bitter legacy of imperial rule left by Cromer
